MAPS OF PROVINCE OUT OF DATE

RESOLUTION SUBMITTED AT TRUSTEES' MEETING

Physical Training of Girls in Attendance at Normal Schools

Kamloops, B. C., Sept. 26.—The whole of yesterday morning's session of the school trustees convention was devoted to a number of resolutions of more or less importance. Toward the close of the work there was a disposition to rush some of the resolutions without discussion, but this gave rise to a storm of protest, so that one resolution that had passed, asking the government to provide for the pensioning of teachers, was reconsidered, and on the ground that such a resolution should emanate from the teachers themselves was dropped.

The convention asked by resolution that the department take steps to protect school boards against the inconvenience arising from the teachers declining at the last moment to accept positions to which they have been appointed.

An important resolution was that adopted requesting that the School Act be amended by the insertion of a new clause dealing with the disqualification of trustees, providing that "any trustee who is convicted of a felony or misdemeanor, or who becomes insane or absent himself or herself from meetings of the board without authority of the board, or whose resolution entered on the minutes, or who ceases to reside in the district shall ipso facto vacate his or her seat, and the remaining trustees may order a new election to fill the vacancy."

Another resolution of importance was one introduced by Captain Stewart of Point Grey, to the effect that provision be made for carrying out section 42 of the School Act, which says that it is the duty of the mayor or reeve to submit a by-law in case the council refused to do so.

Dr. Brydson-Jack, of Vancouver, and Dr. Arthur, of Nelson, favored a resolution urging on the minister of education the importance of appointing a woman inspector fully trained in the Swedish system of physical training to take charge of the subject in the girls' classes in the Normal school at Vancouver and the one to be established at Victoria.

The maps used in schools came in for condemnation in the resolution presented by D. C. Pattison and Mrs. J. R. Riley as follows:

"Whereas, a map of the province of British Columbia adopted for use in our schools and the needs of the business community is an absolute necessity, and

"Whereas, the latest existing map is entirely out of date and contains none of the requisite data showing railway and other developments of the last ten years;

"Be it resolved, that the government be required to take immediate steps to issue a map suitable for purposes of instruction, similar in size, coloring and data, to the best maps now in use."

DISORDER MARKS PEACE CONGRESS

Questions Regarding Morocco and Tripoli Lead to Uproar at Geneva Meeting

Geneva, Sept. 26.—Great tumult and a display of temper marked yesterday's session of the International Peace Congress.

Questions connected with Morocco and Tripoli occupied the attention of the congress, and the criticism by Dr. Gobat, president of the International Peace Bureau, of Germany's attitude in Morocco brought the German delegates to their feet in heated protests. Dr. Gobat was obliged to make a semi-apology.

Representatives of the French Christian Society of Peace said they thought some of the blame must be attached to France for intervening in Morocco. This caused another uproar, and the subject finally was referred to a committee.

When the Italian adventure in Tripoli was broached in the discussion such an uproar arose that the speaker was obliged to suspend his remarks.

RAISING CAMPAIGN FUNDS.

London, Sept. 26.—The Duke of Westminster, the Hon. George Wyndham, ex-chief secretary for Ireland, and many other prominent men are organizing a \$1,250,000 fund on behalf of imperial preference and tariff reforms.

To start this movement the leaders gave a dinner at which no less than \$106,250 was subscribed. The Duke of Bedford contributed \$25,000, while sixteen others gave \$5,000 each.

TRAIN DERAILED.

Three Persons Killed and Fifteen Injured in Wreck.

Rome, Ga., Sept. 26.—Three persons were killed and fifteen were injured when Southern Railway passenger train number 14, running from Chicago to St. Augustine, Fla., was derailed at Plainville, 12 miles north of here, late last night.

NEW ATLANTIC ROUTE.

Dublin, Sept. 26.—At a meeting presided over by the Lord Mayor, held here yesterday, a resolution was carried urging the great advantages to Ireland if Galway became a trans-Atlantic port, which would connect with Canada and United States by the shortest route.

GRAIN GROWERS AND PREFERENCE

SEEK CO-OPERATION OF MANUFACTURERS

Favor Asking Government to Reduce the Tariff on British Imports

Winnipeg, Sept. 26.—It is expected that there will be a most interesting discussion at the annual convention of the Canadian Manufacturers' Association in Ottawa to-day on the subject

THE ROYAL VISIT

Friday, September 27.

Their royal highnesses arrive at the C. P. R. wharf at 5 p.m. and will walk to the front of the parliament buildings where the civic address of welcome will be read by his worship Mayor Beckwith, and H. R. H. the Duke of Connaught will reply. Ride to Government House, via Belleville, Government, Yates and Vancouver streets and Rockland avenue.

Saturday, September 28.

11 a.m.—The Duke of Connaught will lay the cornerstone of the provincial library, an addition to the parliament buildings.

11:30 a.m.—His royal highness will lay the foundation stone of the new Seamen's Institute at the corner of Superior and Kingston streets.

2:30 p.m.—Their royal highnesses and Princess Patricia will drive in state to the exhibition grounds.

4 p.m.—Demonstration by the British Columbia units of the St. John's Ambulance Association at Government House.

Sunday, September 29.

Their royal highnesses and party will attend divine service at the cathedral at 11 a.m.

Monday, September 30.

Morning—A visit to the dockyard and coast batteries and the Songhees reserve at Esquimalt.

Afternoon—Divided between receptions to the Daughters of the Empire and the Canadian Club of Seattle and other visitors.

7:30 p.m.—Official dinner at Government House.

9 p.m.—Reception at the parliament buildings.

Tuesday, October 1.

11:30 a.m.—Inspection of school children at Central school.

4 to 6 p.m.—Garden party at Government House.

of reducing the tariff on British imports. The discussion will be precipitated by the following night lettergram which the Grain Growers sent to President Curry last night:

"The Western Grain Growers are anxious to know if the Manufacturers' Association will join hands with them in an effort to bind Canada closer to the Motherland by urging the government to reduce the tariff on British imports to one-half that now charged on American imports, with a view to complete free trade with the Motherland in ten years."

"The Grain Growers feel that this would be a tangible form of showing their patriotism and would develop a much greater trade with the Motherland, and thus strengthen the ties and show the world that Canada's loyalty to the Motherland is deep and abiding, and not merely words."

"It would also show the world that Canada stands behind the Motherland to uphold the traditions of the Anglo-Saxon race and keep the Union Jack in the proud position it has held for a thousand years. Such an action would also be undoubted proof that Canada has no desire for political union with the United States."

"Would you kindly bring the matter before your annual convention in session in Ottawa and ascertain if the manufacturers present are willing to join hands with the Grain Growers in this great imperial scheme?"

THREE SUSPECTS ARRESTED.

Held by Police in Connection With Shooting Affray.

Halifax, N. S., Sept. 26.—Three men, John and William Brandon and Clarence Detjen, were arrested yesterday in connection with the shooting of Thomas Flynn, superintendent of the Wallace free stone quarry, and Henry Grace, engineer of the company, at Wallace on Saturday, and were lodged in Amherst jail. All three protest their innocence. Flynn and Grace, who had gone out in a boat and were raking oysters at the time of the shooting in an inlet of Wallace bay. Whether anybody had license for this oyster bed is not known.

PROPOSED REFORMS FOR THE BALKANS

SCHEME MAY BE SUBMITTED TO POWERS

Great Britain and Russia Will, It is Believed, Draw Up Proposals

London, Sept. 26.—The crisis in the Balkans is causing great disquietude among diplomats here. Incidents such as the arrest of Austrian soldiers on the Serbian frontier and the firing by Turkey on a Greek steamer at Samos are embittering the people of the states directly interested and it will, it is thought, take all the ingenuity of the foreign offices and their representatives in Turkey to avert Balkan outbreaks so often predicted.

The danger of the situation places in the forefront the conversation at Balmoral between King George and Serenus Sazonoff, the Russian foreign minister. It is understood Russia will propose the adoption of an Anglo-Russian scheme of reform for submission to the powers.

Turkey Must Act.

Constantinople, Sept. 26.—Apprehension has been aroused in diplomatic circles here in regard to the decision of the Turkish government to hold extensive army manoeuvres next month in the Vajaya of Adriaanople. It is thought that this action may furnish

MUTINOUS TROOPS PUT TO DEATH

OVER TWO HUNDRED
EXECUTED AT WU CHANG

Fifty Conspirators Allowed to
Enter City and Then
Shot Down

Wu Chang, Sept. 26.—More than 200 mutinous soldiers were summarily executed without the formality of a court trial by the loyal troops commanded by General Li Yuan Heng, in consequence of outbreaks that occurred among the soldiers encamped beyond the walls of this city Tuesday.

The remainder of the mutineers fled into the open country.

The mutineers were cavalrymen and numbered more than 2,000. They had arranged with the artillerymen quartered inside the walls to join in the mutiny, but the gunners failed to keep their promise.

General Chi-Men was warned of the plot. He permitted the city gates to be opened, as had been arranged by the conspirators, and a body of mutineers numbering fifty, who were to seize important points, were admitted and immediately shot. The others on hearing the firing, followed, and severe fighting resulted in the defeat of the mutineers.

Reports of Massacre Denied.

London, Sept. 26.—According to the Pekin correspondent of the Daily Telegraph, the Russian reports of the Chinese massacres of thousands of Mongolians are unfounded. The Chinese troops, says this dispatch, are acting strictly on the defensive and awaiting orders. Wide districts separated the belligerents and the local casualties to date are only a few scores.

RUN DOWN BY TRAIN.

Tacoma, Wash., Sept. 26.—Allowing his crew of ten laborers to jump, for safety when a collision was imminent, Walter H. Gross, of Tacoma, a Tacoma Eastern Railroad construction foreman, remained on the handcar until it was too late to escape and was instantly killed yesterday by a construction train.

The accident occurred near LaGrande, on a sharp curve, and the handcar was coming down grade. Gross was 50 years of age and leaves a family. The laborers escaped injury.

THREE KILLED IN COLLISION.

Kansas City, Mo., Sept. 26.—Three men were killed and seven injured in a head-on collision between a north-bound Kansas City Southern passenger train and a switch engine on the eastern outskirts of Kansas City to-day.

WILL NOT BE CANDIDATE.

Mayor Waugh of Winnipeg Will Seek Complete Rest When Term Expires.

Winnipeg, Sept. 26.—Because his mind is preyed upon by the tragic death of his business partner, Thompson Beattie, who perished with the Titanic, Mayor Waugh announced to-day he would not be a candidate for re-election, despite the fact that it is customary to give a successful mayor a second term with practically no opposition. Mayor Waugh will seek a complete rest after his term runs out.

WORST HARVEST IN THIRTY YEARS

BRITISH FARMERS SUFFER HEAVY LOSS

Widespread Havoc Wrought by Storms—Crops Beaten to Ground

London, Sept. 26.—The unseasonable storms and cold experienced during the harvest time of the past month have worked havoc among the crops. Farmers say it will be the worst harvest in 30 years. The present period marks a crisis in British harvesting.

Every day the difference between sun and rain means a difference of thousands of pounds sterling to three of the most valuable crops in England—meadow hay, worth \$10,000,000; oats, worth \$20,000,000, and potatoes, worth \$65,000,000.

Hay has already suffered a loss amounting to \$25,000,000, and there are thousands of tons cut that it has been impossible to gather on account of the constant rain, while in other places floods have swept it down the rivers.

Oats are much in the same condition. The loss of this crop is estimated at \$15,000,000.

Thunderstorms over large sections of the country have beaten the crop down in the field, and it has been impossible to use reapers and binders. This means gathering by hand such of the crop as there is, which by the higher cost of manual methods adds another loss to that crop.

Potatoes are rotting in the ground, the loss attributable to this cause so far being estimated at \$5,000,000.

The price of potatoes in London is expected to go \$25 to \$30 a ton this winter.

MUTINOUS TROOPS PUT TO DEATH

OVER TWO HUNDRED EXECUTED AT WU CHANG

Fifty Conspirators Allowed to Enter City and Then Shot Down

Wu Chang, Sept. 26.—More than 200 mutinous soldiers were summarily executed without the formality of a court trial by the loyal troops commanded by General Li Yuan Heng, in consequence of outbreaks that occurred among the soldiers encamped beyond the walls of this city Tuesday.

The remainder of the mutineers fled into the open country.

The mutineers were cavalrymen and numbered more than 2,000. They had arranged with the artillerymen quartered inside the walls to join in the mutiny, but the gunners failed to keep their promise.

General Chi-Men was warned of the plot. He permitted the city gates to be opened, as had been arranged by the conspirators, and a body of mutineers numbering fifty, who were to seize important points, were admitted and immediately shot. The others on hearing the firing, followed, and severe fighting resulted in the defeat of the mutineers.

Reports of Massacre Denied.

London, Sept. 26.—According to the Pekin correspondent of the Daily Telegraph, the Russian reports of the Chinese massacres of thousands of Mongolians are unfounded. The Chinese troops, says this dispatch, are acting strictly on the defensive and awaiting orders. Wide districts separated the belligerents and the local casualties to date are only a few scores.

RUN DOWN BY TRAIN.

Tacoma, Wash., Sept. 26.—Allowing his crew of ten laborers to jump, for safety when a collision was imminent, Walter H. Gross, of Tacoma, a Tacoma Eastern Railroad construction foreman, remained on the handcar until it was too late to escape and was instantly killed yesterday by a construction train.

The accident occurred near LaGrande, on a sharp curve, and the handcar was coming down grade. Gross was 50 years of age and leaves a family. The laborers escaped injury.

Kansas City, Mo., Sept. 26.—Three men were killed and seven injured in a head-on collision between a north-bound Kansas City Southern passenger train and a switch engine on the eastern outskirts of Kansas City to-day.

RAILWAYS CANNOT HANDLE CROP

SITUATION IN ALBERTA IS BECOMING ACUTE

President of United Farmers Favors Through Rates to the South

Calgary, Alta., Sept. 26.—Alberta's wheat crop is estimated at 25,000,000 bushels. The prospects are the amount shipped out of the province before the close of navigation will be less than 8,000,000 bushels, or less than one-third of the crop.

Conditions in Alberta have been favorable to the grain growers. Grain has been harvested a little earlier than last year, and although threshing operations have been delayed, this is only a temporary handicap and will not interfere seriously with the preparation of the grain for an early market.

In quality the crop is uniformly excellent. The grade will be considerably higher than last year, and in many districts the yield surpasses that of 1911.

There is no doubt now of the physical impossibility of transportation of one-half of the crop out of the country under present conditions. Last year only 7,000,000 bushels were shipped out before the close of navigation. The movement up to date this year is considerably less than that of the similar period last year.

The situation is becoming acute. The

BORDEN'S NAVAL POLICY

Winnipeg, Sept. 26.—In a speech last night at the opening of the campaign in Macdonald, reported by three stenographers whose reports all agreed, Sir Rodmond Roblin gave a definite statement as to Premier Borden's naval policy.

He said: "I know Premier Borden pledged himself to provide funds for one or two Dreadnaughts to be constructed at the earliest possible moment and placed at the disposal of the British admiralty, and this pledge would have to be fulfilled."

lack of transportation facilities constitutes a grave menace to the grain growers. Weather conditions complicate matters by causing a delay in threshing operations, which is irritating to the farmers. There is a fear that this may cause serious losses in the grain before the grain is thoroughly dry.

"The situation is rather difficult," admitted E. J. Freeman, secretary of the United Farmers of Alberta and the Grain Growers' Grain Company. "The stampeding of the farmers in a panic of fear of car shortage would result very disastrously just now. But the necessity for relief is urgent, and steps to overcome the difficulty cannot be taken too seriously."

W. J. Tregillus, president of the United Farmers of Alberta, concurred with the suggestion of the Grain Growers' Guide that the Dominion government and the transcontinental railway companies make arrangements at once with the interstate commerce commission at Washington for through railroad rates to the south. This cannot be done a minute too soon, says Mr. Tregillus.

IDEAL WEATHER ON THE PRAIRIES

Threshing is General—Wheat Continues to Show High Average in Grade

Winnipeg, Sept. 26.—A clear sky and in many instances sharp frost greeted the threshing men this morning. The cool, dry winds of the last few days have put things in excellent shape in the most of places, and threshing was general yesterday in Saskatchewan and Alberta, and started up again in many districts in Manitoba. Western Manitoba is in better shape than Eastern Manitoba. In the first place it did not get as much rain, and, secondly, the land dries quicker than does the heavy clay of the Red River valley. With the weather forecast altogether favorable, the hum of threshing will be heard everywhere to-morrow.

Wheat is beginning to move freely and receipts are coming in at the rate of 400 to 500 cars daily.

Cars inspected continue to show the high average in grade which characterized the early movement.

GIVEN POISON IN MISTAKE.

Huntington, Ore., Sept. 26.—Earl Merrill, 22 years old, married ten days ago, and after a honeymoon was back at work in the gypsum plant near here. A rock fell on his toes, crushing them, and as he awaited a doctor he partly fainted from pain. A friend rushed up with a brandy bottle.

"Here, drink this," he said, and put the neck of the bottle into Merrill's mouth. The injured man took several swallows.

"It doesn't taste good," he moaned. Neither did it. The over-zealous friend had given him disinfectant. He died just after reaching Huntington.

ACCEPTS TORONTO CALL.

London, Sept. 26.—Rev. D. W. Roberts, pastor of Springburn Congregational church, has accepted the pastorate of East Toronto church.

WOULD PERMIT INDIANS TO VOTE

BISHOP DU VERNET ADDRESSES SYNOD

Favors Granting Franchise to Most Progressive Natives— Reserve System Antiquated

Prince Rupert, B. C., Sept. 26.—"The time has come when our most progressive Indians should be enfranchised and encouraged to have individual holdings," said the Right Rev. Bishop

at a synod convention here.

"The reserve system is useful as a stepping stone while the Indian is still in a state of childhood, but when, by education and training he has become a man fit to take his place as a citizen of the country," declared the bishop, "the reserve system is to him a stone about his neck."

"Why should the Indian, simply because he is a native, be unable to either pre-empt or purchase land in this province, or be excluded from having his marriage properly registered?" asked the speaker.

"He can have money in the bank but still the question of legal inheritance is becoming a serious one."

"At present there is nothing but the church register," continued the bishop, "and it is seldom kept in a fireproof safe to prove the right of inheritance. Since the province issues a marriage license to an Indian it ought most certainly to recognize his marriage."

MISSION WORK IN WEST.

Winnipeg, Man., Sept. 26.—The Anglican mission of help was opened last night with a huge gathering in Holy Trinity church, many being unable to find seats in the church. The mission will extend into every city in the west and is conducted by a number of clergymen from the Old Country. They were welcomed by the Archbishop of Rupertland, and afterwards the Bishop of Edmonton spoke on the need of such a mission for the people of the country.

CRUSHED TO DEATH.

Portland, Ore., Sept. 26.—Information was received here yesterday that Capt. H. O. Levinson, of the steamer E. S. Loop, was killed at Kalama, Wash., where the Loop is taking on a cargo of lumber. The accident occurred in the yards of the Hill Lumber Company, and was occasioned by the falling of a pile of lumber upon Captain Levinson.

STRIKE POSTPONED.

Textile Workers Will Await Outcome of Trial of I. W. W. Leaders.

Lawrence, Mass., Sept. 26.—As a result of the letters sent from the county jail by Joseph Ettor and Arturo Giovannetti, leaders of the I. W. W., no general strike of the Lawrence textile workers will be called immediately, as had been planned. The letters urge the operatives to defer action regarding a general strike pending the outcome of the trials of Ettor and Giovannetti. The two leaders are to be placed on trial Monday charged with being accomplices to the murder of a woman who was shot during a strike riot in Lawrence last January.

REV. FATHER KENNY DEAD.

Guelph, Ont., Sept. 26.—Father Geo. B. Kenny died here to-day. Father Kenny was a son of the late Sir Edward Kenny, once administrator of Nova Scotia.

ROYAL PARTY AT PORT SIMPSON

ADDRESS PRESENTED BY INDIAN CHIEF

Enthusiastic Welcome Extended to Visitors—War Paddle for Duchess of Connaught

Port Simpson, B. C., Sept. 26.—The steamer Princess Alice, conveying the Duke and Duchess of Connaught, and Princess Patricia, yesterday sailed around Pearce Island, traversing the Alaskan boundary line to the junction of the Portland Canal and Naas Strait. Later the royal party landed here, where more than five hundred people were waiting to welcome them. The band took part in the reception, and after the usual reception ceremonies the party proceeded towards the Indian village. The band followed the procession playing appropriate marches, and rendered an excellent programme at the stand, where an address was read by Ernest Dudward from the chiefs and people of the Timpsonian tribes. Presentations were made by the Indians of two slate plaques, a totem pole and two horn spoons. The royal visitors walked through the Indian village viewing the different totem poles and other relics of bygone days, and visited Chief Dudward's home, where the Duchess was presented by the chief's wife with an elaborately painted war paddle. The Methodist church was inspected, Rev. Mr. Bayley's home visited, the party being much interested in examining his fine collection of Indian curios.

Later the visitors proceeded to the hospital and chatted with the patients, and then called at the Crosby home for Indian girls and much enjoyed the singing by pupils. They also inspected the historic premises of the Hudson's Bay Company and appeared much impressed with some incidents related regarding the customs of early days and the changed conditions of trade.

The band and whole community accompanied the visitors to the wharf, where kindly farewells were extended, and then a hearty send-off was given the royal party, the band excelling itself in the loyal and patriotic selections.

Flags were displayed everywhere and Port Simpson had a gala day that will long be remembered. The party seemed much impressed with Port Simpson and vicinity.

CHARGE AGAINST BECKER.

District Attorney Says He Has Corroborated Story Told by Sam Schepke.

New York, Sept. 26.—District attorney Whitman, professing great satisfaction with the results of the examination of witnesses at Hot Springs, Ark., arrived in New York to-day from the southwest confident the trial of Lieut. Becker, charged with the murder of the gambler, Herman Rosenthal, would go on on October 7.

"I have corroborated the points in Sam Schepke's story," said Mr. Whitman, "and the defence was not able to shake us to any material degree."

AWAITS ARRIVAL OF SUCCESSOR

Archbishop McNeill Will Not Go to Toronto Until Bishop Casey is Installed

Toronto, Sept. 26.—Archbishop McNeill, the new head of the Toronto diocese, still maintains silence as to when he will arrive in Toronto, and it is said now that he will not come until after his successor, Bishop Casey, is installed in Vancouver.

"From present indications we will be making snowballs again before his grace arrives," said Rev. Dr. Bulke, of the Catholic Register.

MAY ARRIVE IN MONTH.

Vancouver, Sept. 26.—"I am not at all sure when I will leave for Toronto," stated Archbishop McNeill, when interviewed last night regarding the time of his leaving to take up his new post as head of the Toronto diocese. "The matter rests with Bishop Casey, and until he arrives here in Vancouver I will remain."

"In a recent letter which I had from him he does not state definitely when he will arrive here, but from what he said I gather that it will be all of three or even four weeks before he leaves for Vancouver."

HANGS HIMSELF.

Chico, Cal., Sept. 26.—J. Benton Elliott, an ordained Free Thought minister, hanged himself to a tree in Bidwell Park, and although hundreds of persons passed the spot the body was not found until to-day. The condition indicates that death had ensued at least two weeks ago. In the clothing of the deceased there were mining stocks worth \$30,000. No reason for the suicide is known.

RIOTOUS STUDENTS.

Montreal, Sept. 25.—Fifty-three McGill students from the University survey camp had a fierce battle Tuesday with citizens of the town of Cartierville, near here. The students becoming disgusted with continuous rainfall, entered the town and started to make things lively. They came to blows with the townspeople. The mayor came out

to direct the town's forces, summoned the chief of police and the town fire brigade and ordered the latter to open fire upon the students with their hose. The students captured the hose wagons, which they used to keep the citizens at bay. Finally they surrendered the fire apparatus.

Botanists say that there are upwards of 2,000 varieties of plants.

IMMIGRATION LAWS OF CANADA

REPORT SUBMITTED AT MANUFACTURERS' MEETING

Declared to Be Detrimental to Country—Freight Rates Discussed

Ottawa, Sept. 25.—"In their present form the immigration regulations constitute a series of class legislation unjust, inequitable and economically detrimental to the country, which no consideration of temporary expediency can justify," says a report presented to the Canadian Manufacturers' Association yesterday, which alleges that the immigration laws are dominated largely by certain labor organizations. The report of the railway and transportation committee anticipates that 20,000 more freight cars will be built this year with 400 locomotives at a cost of \$4,000,000, while terminal facilities will be extended. The efforts of the railways to increase the express rates is condemned.

The programme for the day included an address by Archibald Blue on "Manufacturing in Canada" and one by Dr. James W. R. Robertson on "Types of technical schools."

The extra provincial license exacted by the provinces of the Dominion from companies operating under Dominion charters occupied a large place in one report. A test case is to be heard next month in the Supreme Court, whether or not the provinces have the right to enlarge the extra fees as this means virtually reincorporation. In Manitoba the sale of any shares of any company not incorporated within the province is illegal. The Manufacturers' Association regards share stock as assignable personal property and regards the act as a drastic invasion of the principle of transferability and one which has no counterpart in any British jurisdiction. The report advises reform in the Canadian patent offices where the staff is said to be inadequate.

Fire Protection. Vigorously condemning the use of any but safety matches for use in the home, and claiming that by using matches that can be lighted anywhere too often the lives of children in the home are in great danger. Franklin H. Wentworth, of Boston, president of the National Fire Protective Association, delivered a forceful speech last night. He said that the association of which he was the head was doing a splendid work and was doing much to encourage fire prevention.

Of special note was the report presented by the Dominion Trust Company Limited. The report of the railroad and the transportation committee dealt with every classification of freight, baggage and transportation. Most of the material in the report of the committee had been called to the attention of the railway commission, such as freight rates, size of baggage, etc.

During a brief discussion which followed the reading of the report, R. D. Fairbairn, of Toronto, head of the Fairbairn Scale Company, charged the railroads with being over zealous to "boost" the rates.

"The rates to the West," he said, "are based on one way only. It is a well known fact that it costs as much to send goods to, say Saskatoon or any other place in the West, from the East as it does to Australia. The railroads can carry freight at a good deal less rate than at present. The sole object of railroad companies seems to be to increase their rates all along the line."

"I tell you, gentlemen," declared Mr. Fairbairn, with vehemence, "transportation is a much more important subject to Canada just now than the tariff questions. The tariff, in many cases, is not a factor at all. The Dominion government should carry the Intercolonial railroad through to the coast. We have had a little experience in governmental and municipal ownership and it has met with a good deal of success."

Mr. Fairbairn's expressions were readily endorsed in many respects by Mr. Edmonds, of Toronto.

Joir' Executors

Perhaps you would like to name your wife as your executrix, but hesitate on account of her lack of business experience.

Or you would choose for your executor a certain trusted friend, were it not that you know he is so fully occupied with his own affairs.

The solution is easy: appoint either to act in conjunction with this company.

See us as to the way the plan works out.

Dominion Trust Company, Ltd.

909 Government St.
HUGH KENNEDY,
Local Manager.

presented by ex-President Hobson on the taxation of land values at a higher rate than improvements, and Mr. Fairbairn's regarding railway rates.

In his address on fire protection, Mr. Wentworth advocated the use of steel frames for windows in fireproof buildings instead of wooden frames, and advised limiting the height of buildings to be under the New York standard. Too little money, he said, had been spent by everyone in fire protection and too much on fire-extinguishing methods. Too few people realized that the whole community was the loser by fire. Heavy insurance dues paid all along the line from the grower to the retailer revert, naturally, in the last analysis, to the final purchasers.

Technical Education. Some of the supreme advantages manufacturers especially can derive from a system of technical education were outlined in an address which made an impression on his hearers at the afternoon session by Dr. James Robertson, chairman of the Technical Education Commission. He told the delegates what Cincinnati, Ohio, and Fitchburg, Mass., were doing to train apprentices and even superintendents and engineers in the factories to become more skilful in their trades. In those cities the manufacturers have collaborated with educational experts on a co-operative educational scheme. In Cincinnati, for instance, the student works a week in the shop by he employed at and then goes to school for a week, during which time his employer pays his wages at the same rate as if he was in the shop. The teachers, too, visit the factories so that the subjects taught would be closely related to the particular work the student is following.

Dr. Robertson then proceeded to give examples of what Edinburgh, Scotland, is doing, and in comparison showed how far Canada is behind in the matter of technical education. Edinburgh has a population of three hundred and sixty thousand. In the evening continuation classes ten thousand young people are attending and learning the eighteen different trades taught there. Eight per cent of the pupils at these schools are youths who went straight from the public school, the fees of which are so nominal that they are within the reach of the very poorest. The cost of the upkeep of the classes last year was about \$25,000. Of this amount the fees of the students paid 7 per cent, of the cost, the imperial government 40 per cent, and the ratepayers of the city the balance. No one is compelled to attend the classes.

Western Freight Rates. The report of the railroad and the transportation committee dealt with every classification of freight, baggage and transportation. Most of the material in the report of the committee had been called to the attention of the railway commission, such as freight rates, size of baggage, etc.

During a brief discussion which followed the reading of the report, R. D. Fairbairn, of Toronto, head of the Fairbairn Scale Company, charged the railroads with being over zealous to "boost" the rates.

"The rates to the West," he said, "are based on one way only. It is a well known fact that it costs as much to send goods to, say Saskatoon or any other place in the West, from the East as it does to Australia. The railroads can carry freight at a good deal less rate than at present. The sole object of railroad companies seems to be to increase their rates all along the line."

"I tell you, gentlemen," declared Mr. Fairbairn, with vehemence, "transportation is a much more important subject to Canada just now than the tariff questions. The tariff, in many cases, is not a factor at all. The Dominion government should carry the Intercolonial railroad through to the coast. We have had a little experience in governmental and municipal ownership and it has met with a good deal of success."

Mr. Fairbairn's expressions were readily endorsed in many respects by Mr. Edmonds, of Toronto.

TROOPS WILL BE SENT TO BELFAST

Authorities to Take Steps to Preserve Order on Ulster Day

Belfast, Ireland, Sept. 25.—Large forces of troops are to be moved into Belfast in preparation for Ulster Day, September 28, when the anti-Home Rule covenant is to be signed by the Unionists of that province.

Orders were sent from headquarters at Dublin Castle to-day to Brigadier-General Count Gleichen, in command here, to that effect.

Armed Men March. Portadown, Ireland, Sept. 25.—Rifles were carried by some of the battalions into which the members of the Unionist clubs were formed when they took part in a great anti-Home Rule procession here yesterday. Two large cannons were dragged along on gun carriages, while an ambulance in charge of Sisters moved with the procession and carried a large supply of splints and bandages.

POTASH FROM KELP.

Port Townsend, Wash., Sept. 25.—A company which purports to manufacture potash from kelp, a seaweed which grows in vast quantities along the Pacific Coast, has filed a location on a kelp-bed extending from Point Wilson to Middle Point. The company filed also on a bed lying west of Smith Island, in the Straits of Fuca, and which is the largest bed in the strait. There is no law authorizing such filings. Kelp has only recently become of value. Scientists say that it furnishes the world's only present hope for a supply of potash.

SAY DOUKHOBORS

ARE UNDESIRABLE

Citizens' Committee Present Memorial at Inquiry at Grand Forks

Grand Forks, B. C., Sept. 25.—The feature of the sitting of the Doukhobor inquiry commission here was the presentation by a citizens' committee, setting forth the reasons why the Doukhobors were detrimental to the city, valley and province.

The presentation, which was signed by Fred Clark, G. M. Fripp, W. A. Cooper, Donald McCallum, F. Miller, Forbes M. Kerby and T. A. Love on behalf of the committee, was as follows:

"We are of the opinion that the Doukhobors are not desirable settlers for this or any other part of Canada. Statements have been made that the Doukhobors acquire acres of undesirable land, and bring it to a high state of agricultural efficiency. This is not borne out in this district by facts. The Doukhobors have acquired some of the very choicest of our lands upon which the pioneer work has been done by our own people, and it is understood negotiations are under way for the acquiring of more of our already productive areas."

"At the rate which the Doukhobors have come to the district and acquired property in the past four years, if allowed to continue, they would soon be dominating in numbers and force our own people from their present holdings. Though their numbers, as compared with the total population of Canada may be somewhat insignificant, yet, owing to the fact that the Doukhobors are being concentrated at a few points, we are grave danger to the immediate vicinity in which they settle in forcing upon the citizens of these sections the task of attempting to assimilate these people."

"While we do not object to, nor wish to curtail any religious sect in the practice of their religion, believing that there should be religious freedom in the land, yet we do object to any sect living within our borders and subordinating the laws of the province and Dominion to their own religious belief. Historically the Doukhobor society does not recognize, nor concede, and never has recognized or conceded, the authority of any government and as such, can never become assimilated with our own people, inasmuch as their peculiar religion will prohibit them from obeying our laws or following our customs."

"In this sense, we believe that any considerable number residing in a community in this province will be a menace and detriment to the best interests of the district, as a whole."

"Statements have also been made before the commission now sitting that the members of the Doukhobor society are an extremely moral and peaceable people. We fail to see how any person living outside the society can give positive information on this point, for the reason that the said society lives within itself, recognizes no authority outside the society, and in cases of quarrels, misdemeanors or crimes, if any be committed within the community, do not appeal for redress to the ordinary tribunals of the land, thereby leaving no record of what might be transpiring within themselves. Facts such as the rooming together of different families, young and old, married and single, of both sexes, point strongly, in our opinion, to immorality rather than morality. Their refusing to register births, marriages and deaths, removes from the province one of our most important facts of life, and must convey the conviction of immoral conditions."

"Independent of the question of their undesirability as a society and as citizens, the commercial status of their community should be shown in some way to the public, disclosing their rights to enter into contracts and of holding property, and what powers those acting for the community, have to bind the community and its property."

"We would emphasize that we object to the Doukhobors commercially, only in the sense that they do not live the life of our present population, and that their example as citizens is not desirable. Their presence is keeping out desirable citizens, and retarding the healthy physical and natural development of one of the finest sections in the province."

"To-day, after three years' residence in the valley, we find the members of the Doukhobor society boldly defying our laws, which has created a feeling of unrest among our people, deprived us of more desirable settlers, and depreciated our land values."

"We would, therefore, urge that no action be taken by the government which would in any way lessen the enforcement of our laws, which we hope will be no respecter of persons, and will always apply to each and every member in the province alike, and that no special condition or proviso be granted to any person. If the law is to be overlooked with respect to the residents of any portion of a district, it only breeds disruption and contempt among others of the district, young and old."

At the resumption of the sitting here the citizens' committee, who were prepared to bring forth witnesses, decided to let the case rest as it was, the evidence secured by the commissioner at Brilliant, the largest colony of the Doukhobors in the province, embodying what they intended to bring forth.

AVIATOR'S DEATH.

Chicago, Sept. 25.—A coroner's jury returned a verdict of accidental death in the Cicero aviation meet in a collision between a biplane and a monoplane. George Mestach, the aviator whose monoplane collided with Giff's biplane, was exonerated from blame. Officials and flyers were criticized in the jury's verdict for contesting two races in different types of machines over the same course at the same time.

TURNING ATTENTION TO THE PACIFIC

Steamship Companies Are
Preparing for Opening of
Panama Canal

Among the passengers to leave on the steamer Adriatic was E. J. M. Nash, special representative in the United States and Canada of the Royal Mail Steam Packet Company, which, with its affiliated companies, is now the largest shipping concern in the world, with a tonnage that amounts to over 1,250,000. The Royal Mail recently acquired the Union Castle and Pacific Steam Navigation Company, and is now rumored to be contemplating the purchase of the Peninsular & Oriental Steamship Company, the premier British line to the Orient, India and Australia.

Mr. Nash has just returned from the Pacific coast, where he has spent several months studying the problems presented to the Royal Mail Steam Packet Company by the opening of the Panama Canal. He expresses himself satisfied that the trade possibilities of the Pacific justified the new steamship lines his company is starting from Europe and elsewhere to the Pacific after the canal is completed. The Royal Mail Packet Company has now building passenger and cargo liners of 650 feet and of about 18,000 tons for this trade, to compete for the large saloon and emigrant traffic direct from Europe to the Pacific coast via Panama. Mr. Nash states that the Pacific coast cities have under construction some magnificent docks to take care of the traffic expected after the opening of the canal. He considers the northwest ports and cities of the United States and Canada will show the most marked development in the next few years.

DEPEND ON CANADA FOR NICKEL SUPPLY

Conservation Bulletin Says
Dominion Holds Key to
Naval Problems

Ottawa, Sept. 26.—"It has been just discovered that Canada possesses the key to the European naval problems," states a leading article in Conservation, the bulletin of the commission of conservation of the Dominion government.

"When Schneider, in 1889, introduced the use of nickel in the manufacture of steel armor plate he little realized that he was placing in Canada's hands a great means for maintaining the peace of the world. Battleships without nickel steel armor would be utterly helpless before modern guns. If nickel were no longer obtainable armor construction would go back a quarter of a century. Canada, to-day produces about 90 per cent of the world's supply of nickel. Practically all of the remainder comes from New Caledonia, an island in the southwestern Pacific, controlled by France.

"In 1910 the value of nickel ore and matte exported from Canada to the United States was approximately \$2,650,000, as the only refineries in America are in the United States, where nearly six-sevenths of the Canadian nickel was refined. The refining process raised the value of this Canadian ore to nearly twelve million dollars. The major portion of this refined nickel is used in the manufacture of nickel steel. Consequently, if Canada were to prohibit exporting of nickel the nickel steel industry of Europe would fall into decay and high grade armor plate for battleships would be an impossibility. Naturally such a course would be hard on the Canadian nickel producers."

GRANTS TO RURAL HIGH SCHOOL

Increase Favored by Trustees
—Other Resolutions Adopted at Convention

Kamloops, Sept. 26.—The convention of the B. C. School Trustees' Association continued yesterday, when several papers were read and discussed on various phases of school administration.

Inspector A. F. Miller delivered a practical address on "The Need of Rural Schools," in which he pointed out many of the factors that militate against the success of the schools in outlying districts, among them being sparse settlement, lack of means and non-permanence of the teachers—the latter being due to the people themselves; petty quarrels among neighbors, lack of proper accommodation for the teachers, etc. He referred also to the advisability, where conditions are favorable, of the centralization of rural schools. He suggested, as a means for providing permanence in teachers that trustees should secure a married man as teacher, provide him a cottage and a few acres of ground, and encourage him to make his home in the district.

William Iversach, Isabella, Man., a member of the executive of the Manitoba School Trustees' Association, read a paper on "Sports on School Playgrounds," arguing for consolidation in cities in view of the lessons taught there.

R. J. Sparling, Saskatoon, who was present as the representative of the

provinces, conveyed the greetings of the school trustees of Saskatchewan.

At the afternoon session the reading of two papers and the discussion of several resolutions occupied the attention of the delegates. The first paper was contributed by Mr. McCormick, of Regina, on lighting, heating and ventilation of schools, in which he laid especial stress upon the advantages of a form of heating apparatus, which makers he reported.

H. A. Malcolm, of Innisfail, Alberta, read a paper on "Need of Co-operation Among Trustees, Teachers and Parents," in which he advocated co-operation in the inculcation of the virtues into the mind of the child.

A resolution from the Vancouver board was adopted asking for permission being granted whereby the boards of school trustees may, if deemed advisable, establish kindergarten and parental schools in their respective districts.

Another resolution that passed requested the educational department to investigate the extent and cause of the marked difference in the percentage of children of school age attending public schools. It was also resolved to request the department to provide such legislation as will enable school boards, subject to departmental control, to have more latitude in adopting the course of study to local conditions.

The convention by resolution asked the executive committee to take up with the government the question of the guaranteeing of debentures for school building purposes.

It being pointed out by the secretary, Mr. J. J. Dougan, that the by-laws of the association needed revision a committee was named to take up the work, consisting of Dr. Arthur Nelson, Messrs. McNaught and Perry, North Vancouver.

Resolutions were adopted favoring larger grants to rural high schools, normal school course for primary teachers, rearrangement of the distribution of flags for high schools and the framing of regulations for their use.

PRESIDENT TAFT ON ISSUES OF CAMPAIGN

Promises Revision of Tariff—
Opposes Recall of
Judges

New York, Sept. 26.—The Evening World yesterday published an interview with President Taft, in which Mr. Taft goes at length into some of the issues of the campaign.

The president promises a revision of the tariff on a scientific basis so far as may be necessary to keep prices from being exorbitant. This may be done by the continuance of the tariff board's investigation into the facts, the president is quoted as saying.

Referring to the high cost of living, the president expressed the opinion that American workmen were very much better off than those of Europe, not only were they able to pay the high cost of living, he said, but they could also put something aside for a rainy day. The Payne tariff law had no more to do with advancing the high cost of living than the latest Atlantic cable tariff, he declared.

Referring to women suffrage, the president said that this issue would have to be decided by the various states, and that he believed women to be as capable of wise use of the ballot as men.

In the matter of recall of judges, the president said he regarded the maintenance of an independent judiciary as a supreme issue, and that the recall applied to judges would tend to deprive the public of judges of ability, character and high sense of duty.

LONDON TIMES ON FUTURE OF CHINA

Says Yellow Peril is Industrial
in Nature—The Proposed
New Loan

London, Sept. 26.—The Times, in discussing the future of China, says that the yellow peril is industrial in nature, and does not signify the eruption of multitudinous hordes of yellow men in Europe. The Chinese, says the Times, are not militant and have not been so for centuries, if ever. When the vast natural resources of the middle kingdom are fully utilized, industrially, Europe may then feel a pinch in the neutral markets.

That time, however, concluded the Times article, is far off.

With reference to the loan dispute the Peking correspondent of the Times predicts a demand by the powers for the resumption next year of the indemnity payment and the settlement of the arrears, amounting to \$25,000,000. Failing in this they may insist on taking over the administration of the salt tax.

Warns President.

Peking, Sept. 26.—The British minister to China advised President Yuan Shi Kai to consider carefully the situation before committing China to a course of action in regard to finance which would not meet the approval of the six powers. Sir John Jordan presented to President Yuan Shi Kai a statement of Chinese floating liabilities, amounting to nearly \$50,000,000, which must be paid within a few months from the proceeds of any forthcoming loan.

TWO MURDERED.

Wellington, Kans., Sept. 26.—Theodore McKnelly, a car repairer, and his daughter, Gretta, were yesterday found dead, and Mrs. McKnelly probably fatally injured in a test at the outskirts of Wellington, whether they recently had moved for the daughter's health. All three had been shot and their skulls crushed. Robbery is believed to have been the motive.

EXPERIMENTAL FARM.

The presence in the province of Mr. Joseph Grisdale, director of experimental farms in Canada and his visit to Victoria to inspect the work being done on the experimental farm on Saanich peninsula, is being made the occasion of some whispers by the Borden organs purporting to show that the Borden government is doing things. It matters really little who obtains credit in the public mind for the establishment of an experimental farm on Vancouver Island. The expenditure was a wise one and the action necessary as being conducive to the advancement of agriculture in the province. It is only fair, however, that the credit for this undertaking be given where it belongs and there is a degree of immorality in the effort being made to place the kudos as it were on the brow of Tory politicians.

As late as November 9 of last year the Victoria Colonist prepared the way for just such an announcement as it is making in connection with the present visit of Director Grisdale. On that date the Colonist said:

"Prior to the late election the Liberals of the city announced that the Dominion government had selected the site of an experimental farm in the Saanich district, and the inference was that the property had been purchased. It now appears that no land was bought for this purpose. It was apparently only a pre-election announcement. As far as an experimental farm is concerned Vancouver Island is in the same position as it was six years ago when the then Victoria representative and the minister of agriculture promised that such an institution should be established near the city. We have had many disappointments to bear under the old Liberal regime, and to this one we draw attention for the simple fact that it has only been within the past few days that the nature of the announcement made last summer was revealed."

The facts are that early in 1911 Hon. W. Templeman suggested to the government the desirability of immediately procuring a tract of land for the establishment of an experimental farm on Saanich peninsula. This was in pursuance of the announcement that the B. C. Electric Railway would extend its line to Sydney. In a conference between Hon. Mr. Templeman, Hon. Senator Riley and Mr. A. T. Goward of the B. C. E. R., an offer was made to sell to the government a suitable tract of land along the line. Acting on this offer the Hon. Sidney Fisher, minister of agriculture, sent Mr. Grisdale to the coast to make the selection and the present experimental farm was the plot chosen. The deal was closed as much as such deals can be pending the vote in the estimates for the specific purpose.

Local people interested in the development of the project suggested that men be employed at once to clear and level the land but the minister of agriculture—in view of the fact that parliament had been dissolved in the meantime—declared that such action would be attributed to political motives and action was suspended. The subsequent defeat of the government simply passed the contracts along to the Borden administration who are now wisely carrying out the arrangement.

This is only another evidence of the wisdom of the provisions of the Laurier administration. After the most careful scrutiny of the bargain it has been found that the arrangement was a wise one and it is being carried out. The Borden government, instead of initiating any new movement is simply settling the seal of its approval to a contract that was signed and sealed before it came into power.

POLITICAL EXECUTIONS.

The official headman of the Borden government is at present luxuriating in the lovely inland city of Kamloops. We say luxuriating because it must be understood that the spoilsman is never so happy as when decapitating the public servants who did duty under the Liberal regime. Having bathed his broadaxe in blood in the eastern provinces until there were no more

heads to sever the executioner is travelling westward and the slaughter of the innocents continues. The latest victim is John T. Edwards, a Kamloops old-timer who has been for years in the service of the Dominion Fisheries department. This is the second execution held at the behest of the Tory machinators in the constituency of J. P. Shaw, M. P. P. The excuse made by the operator of the guillotine is that "the protection of fisheries will, in the future, be conducted on a different basis," and that "under this reorganization" the services of Mr. Edwards are "no longer required." The Kamloops Sentinel sums up the execution in these words:

"When the office hunting and office hungry mob calls for the sacrifice of efficiency and the satisfying of their hunger, Mr. Edwards' services were dispensed with and the vacancy filled by the appointment of an inexperienced green hand; inexperienced, he it understood, in the special work, but whose other qualifications as an experienced and successful plumber and a staunch Conservative, outweigh all other considerations. The fact remains that this marvellous method of reorganizing a department consists in dismissing an experienced, efficient official to find a place for a party man without any experience of the duties involved."

It is scarcely likely that the Kamloops Conservatives will have grit enough to pursue the same course as they did in the case of Mr. W. C. Cowell, whose dismissal was protested and the efficient public servant reinstated.

CANADA'S LAND BOOM.

Generally speaking Canada has experienced, during the last five years, an exceptional activity in land transactions. This activity has not been confined to any particular province although the western half of the Dominion has been chiefly notable as the field for investment. Some of the land corporations have exposed themselves to the severest criticism by the methods of exploitation adopted. Leading British and American newspapers have had caustic things to say about Canadian speculative land deals, and some of the Canadian journals of finance have been no less vigorous in their denunciations of the methods sometimes employed to exploit subdivisions as well as to sell really and intrinsically valuable suburban property.

The effort of these criticisms has undoubtedly been to direct the attention of investors and prospective immigrants to other parts of the British Empire. The Montreal Witness has a thoughtful review of the whole situation which, because it is timely and because its wisdom applies in some cases to land exploitation in British Columbia is worthy of reproduction. The article declares: "For some years past it has been hardly possible to invest money in Canadian lands without making money on the investment. It mattered not whether it was farm lands, city lands or outlandish subdivisions. All but the intentionally fraudulent land companies, not only made money in large quantities for themselves, but they made money for their investors as well. Canadian lands have been advancing in value both steadily and at a phenomenal rate. The advance has not stopped, nor does there seem to be any indication that the check that must come is in sight. On what is this new value based? To some extent it is solidly founded on the increase in our population. To a larger extent it is solidly founded on the discovery that a far larger proportion of the area of our country than was suspected is not only fit for agriculture, but of the best quality. To some extent it is founded on the extension of our railway systems. The increase in values has, however, in many cases, gone beyond what all these together will warrant. It has gone far beyond its intrinsic value, or a value based on conditions that have material existence. In these cases the values are based on the common faith of the people in an even more rapid development of our country in the future than that which the last ten years have seen. Should anything happen to shake this faith, like the loss of a harvest or a deflection of the stream of immigration that flows out of Europe to some other land of promise like Rhodesia, where land prices have not gone so high, or a staying of the stream at its source, there would be a fall of investment. Many of those holdings, held so precariously that a lull of a year or two would cause a break. In the meantime it is well to keep in mind that to a considerable extent certain classes of land are now at a figure only warranted by a belief in an unprecedented and continuous growth of the country for at least a decade."

It is very considerate of the morning paper to indicate to the committee of the council which has been investigating sewer construction and city hall affairs that they are expected to bring in a report exonerating everybody and praising the administration of the Beaver Club. Common decency would have refrained from any sort of comment on city hall affairs until the committee brought in its report. It might then have been as necessary to score the committee as anyone else or it

Owing to the large increase in our business we are compelled to sell for cash only. Payment can either be made at time of ordering or to driver.

might not. The Colonist has, however, settled the matter, and the committee now know what they are expected to do.

A new publication has come to the Times desk. Its name is "The Limit." And it calls itself "Official Organ of Optimists of the New World." If it carries out the promise of the initial number it will undoubtedly become the "Punch" of Canada. The cartoons and drawings are excellent, and the literary squibs are worthy of the age in which we live and the city in which the Limit is published, which, by the way, is Vancouver. Smith and Bohannon are the publishers. Mr. Smith is the cartoonist, and we suppose Mr. Bohannon is the funny man. The venture is not alone creditable but promising, and we welcome the new paper. If a venture of this kind is at all likely to succeed in the Far West we think it could be in no better hands.

Hon. Charles Murphy has taken the responsibility of making the direct charge that the National Transcontinental Railway Commissioner has increased the grades on the National Transcontinental road east of Winnipeg. If he can substantiate the charges the result will be a hard blow at the new minister of railways. The people of Canada went into this enterprise on the understanding that they would get, for their money, a road practically level, making possible the economical all-rail haulage of wheat. The Manitoba Free Press declares that if the minister of railways and the commissioner have undertaken to vary the specifications and reverse the policy of their predecessors, without first securing parliament's consent, they should both be fired. The matter will surely be the subject of investigation during the coming session.

Evidently the aeroplane as an instrument of war has arrived. English aviators dropped bombs into the funnels of battleships from an altitude of a thousand feet, and the British army manoeuvres had to be suddenly stopped because of the perfect scouting of the airmen. "In future wars the aerial corps will be one of the most important branches of the military and naval services."

The Salvation Army is said to have 117,000 widows ready for export to Canada. Toronto World says: Samivel, Samivel! Beware!

THAT REMINDS ME.

Toronto Globe.
The Moral and Social Reform Council of Canada has inaugurated a campaign in favor of legislation requiring every applicant for a marriage license to present a medical certificate of physical fitness. It is told of a sturdy young Irishman who sought a marriage license in New York that he was promptly directed, or rather ordered, by a know-it-all policeman, who asked no questions, to a small, unpretentious office. The official at the desk made a record of his age, nationality and naturalization, and then proceeded to take his weight, height, chest measurement, and chest expansion. He was required to raise a fifty-pound dumb-bell over his head with either hand and to draw his knees up alternately toward his chest. The examiner noting the effect on his pulse. When asked to run around the desk ten times as a test for his wind and heart action he grew angry and refused, and the resultant altercation revealed the fact that he had been inadvertently directed to the medical examiner of applicants for appointment on the police force. The story suggests many causes of failure for the project of the Moral and Social Reform Council.

VERY PUZZLING.

Toronto News.
Where can a man buy a cap for his knee? Or a key for the lock of his hair? Can his eye be called an academy because there are pupils there?
In the crown of his head what gems are set?
Who travels the bridge of his nose?
Can he use when shingling the roof of his mouth?
The nails on the end of his toes?
What does he raise from the slip of his tongue?
Who plays on the drums of his ears?
And who can tell the cut and the style of the coat his stomach wears?
Can the crook of his elbow be sent to jail?
And if so, what did it do?
How does he sharpen his shoulder blades?
I'll be hanged if I know. Do you?

BIG LAND DEAL WAS CLOSED YESTERDAY

Property in North Saanich Transferred for Thousand Dollars an Acre

One of the largest land deals consummated in British Columbia was closed yesterday afternoon, the farm property of the Western Lands Company at North Saanich was transferred to a syndicate of British capitalists. The sum involved in the sale was \$250,000, and as the area of the property is 630 acres, the price paid was \$1,000 per acre.

The place includes the former Le Poir French and Breton farms, and nearly half of it is under cultivation. It has a mile and a half of water frontage on Cole Bay, and is considered among the most desirable property on the Pacific Coast.

The purchasers will probably subdivide the area into lots.

ENJOYABLE PROGRAMME.

Musical Selections Pleased Large Crowd in Main Exhibition Building.

The musical programme given in the main hall of the exhibition last evening consisted of a number of selections by the Fifth Regiment band, several numbers on the grand Weber piano piano, and three vocal solos by Mrs. Jesse Longfield, whose contralto voice was heard to great advantage in "Rosemary," "Angus MacDonald," "Rose," by Stephen Adams, and Elleen Dene's "Awake and Arise," Mr. Jesse Longfield acting as accompanist.

The evening attendance was slightly larger than the previous evening, although as before the greater number of the visitors were attracted by the horse show.

HELPING STEWART HOSPITAL.

Government Makes Grant of \$100 Per Month for Four Months.

The hospital at Stewart has again been relieved from its difficulties through a grant made by the provincial secretary. At the last session of the legislature this hospital was given \$2,000 on the understanding that this would be sufficient to tide over its temporary difficulties and that funds for permanent maintenance would be forthcoming from other sources. This expectation, however, has not been realized, as a few weeks ago application was made for further assistance from the provincial treasury. Hon. Dr. Young, upon looking into the circumstances, concluded that the case was meritorious and gave the hospital authorities a further grant of \$100 a month for four months, with the understanding that this money shall be used to pay the salaries of the nurses during August, September, October and November, by which time it is hoped the funds expected from other sources will be available.

WILL MEET TO-MORROW.

Council Committee Will Meet to Determine Share of City in Programme.

In order that the representatives of the city under the chairmanship of Alderman Cuthbert, who have now formed themselves into a permanent committee for the entertainment of visitors may have the opinion of the council on the proposed carnival before they leave for the banquet at San Francisco on October 2, the special council committee will meet to-morrow and discuss the matter carefully. They cannot, of course, bind their successors in office, but they can at least recommend that the city should be prepared to place it in the roster of organizations receiving grants next spring. Like the Agricultural Society and the Victoria Day Celebration Committee, whose celebrations have become annual features. The nucleus of the idea may be found in the latter organization, which contains features which might well be expanded into the larger scheme.

DOCTORS WANTED.

Provincial Secretary Has Seven Vacancies to Supply.

Several medical positions, more or less desirable, are at present going begging in this province. Hon. Dr. Young has in fact no fewer than seven vacancies to fill, for which there are no candidates. These are the posts of resident medical practitioners and local medical health officers at Hope, Elk, Port Renfrew, Clayoquot, Alexis Creek, Denman and Hornby Lake, and Queen Charlotte. The subsidies attaching to the posts are, running from \$300 to \$500 per annum, but the practitioner in each case has a monopoly of the field and could no doubt pick up a comfortable living. It appears, however, that the medical men as a class prefer to take their chances in the cities rather than encounter the hardships of frontier life in British Columbia.

The post at Queen Charlotte is one of the most desirable of the lot. It was until recently filled by the late Dr. Winter, who came to it from Columbia Mission, and whose untimely death was much regretted. This office carries not only a subsidy of \$300 per year, but there is also a physician's residence in the hospital, so that it is a fairly comfortable post.

Fort Fraser, which is not included in the above list, is also vacant, and has been for some time waiting in vain for someone willing to take it. It carries a grant of \$800 from the provincial government and \$600 from the Dominion for looking after the Indians. Medical practice in the cities must be good when a salary of \$1,100 per year aside from the revenues of private practice is insufficient to tempt any young medical man to accept such a post.

See the Showing of Exclusive Gowns and Wraps Now in the View Street Windows

OW can we tell you about these handsome garments. So refined are they in both design and coloring that it is absolutely impossible to describe them in a manner that will convey an adequate idea of their beauty and good taste. How to convey any idea of color, of those marvellous roses and blues, golds, and rich tones of reds, or how to suggest the richness of the varied trimmings, is a matter that would perplex even the most enthusiastic and skillful author. To see some of these choice garments now in the windows will be worth a whole newspaper full of descriptive matter, but by far the better way to do justice to the garments is to see them in the department and to try them on. We invite you to inspect them, they include all the best Parisian and New York styles and are full of interest to all women who will take part in the social functions during the coming week and throughout the winter.

PRICES RANGE FROM \$75.00 UP TO \$250.00

Suits and Overcoats for Men Who Demand Good Style, First-Class Tailoring and Moderate Prices

MEN who are thinking of making a change of their clothing will be interested in the splendid assortment of fall and winter suits and overcoats that is being shown at the Spencer store.

Although the days are beautifully sunny and warm, there is a chill and a dampness in the morning and evening air that makes warmer garments a necessity. Then we are likely to get wet weather at any time and it is advisable to prepare for it at once.

Here's quality and style combined with a modest price and we believe the garments to be the very best values in the city. However, it is up to you to examine them and form your own opinion about that statement.

MEN'S SUITS IN SCOTCH AND ENGLISH TWEEDS

Also in Bannockburn mixtures are to be had in a choice assortment of mixed colors, also striped and broken check effects. Greys, browns and greens are the prominent colors this season and here you'll find them in great strength. The coats are the popular three-button sack style and the trousers are the semi-petted cut. As to the tailoring and trimmings, they are as good as you'll usually find in much higher-priced suits. Your choice from many, including all sizes, from \$10 to \$18.00

MEN'S OVERCOATS IN VARIOUS STYLES

Come in cravenettes, mackintoshes and fine Priestlies. Fawns, greys and green mixtures are the most popular colors and the two-way and military collars are great favorites. Garments that every man will soon require, but it won't be every man who will be able to secure such a value that these lines represent. All sizes from 34 to 44 are here and the garments are a quality that we usually sell at from \$15 to \$20. While they last, only \$15.00

MEN'S ODD PANTS

Are to be had in strong tweeds, corduroys and whipcords. They are excellent garments for the office or the mechanic's shop and come in all sizes and a great variety of patterns and colors. Prices start as low as \$1.50 and range up to \$3.75

Choice Styles in Women's Dress Slippers

WE are fortunate in receiving a brand new shipment of these dainty slippers this week. With so many social functions on the programme for the next week or so, there should be many inquiries for this class of goods, especially as the prices are as attractive as the models are themselves.

It is out of the question to do the slippers justice in this advertisement, but we shall be pleased to show them to you at any time. Perfect fitting, graceful to a degree that will please the most exacting woman, and plenty of pleasure in the wearing of the slippers are the qualities that every pair in this lot possesses.

BLACK SATIN OPERA SLIPPERS are here in all sizes and you will be delighted with their handsome appearance. Per pair, \$2.50 to \$4.50

OPERA SLIPPERS in daintily colored satins are to be had at, per pair \$3.50

DULL BLACK KID SLIPPERS, finished with a flat ribbon bow are both pleasing and good. Per pair, only \$2.50

PATENT LEATHER SLIPPERS—These come in the Vanity style, and possess all the qualities that are expected of slippers of this class. Per pair, from \$2.50 up to \$4.50

Good Clothes Count in the Making of Your Boy

THEIR influence have a bearing on his character that is greater than the majority of people will admit, but those of us who were boys once and who are honest with ourselves, know that the lad in the threadbare or ill-fitting suit has a very embarrassing time of it at most schools.

If you go on the streets on Sunday attired in shabby clothes you imagine that every person on the street is looking at you and you wish that they would quit or that you were at home. That's the way shabby or ill-fitting clothes make your boy feel, but a good suit makes him feel the gentleman and he will rise to the occasion.

Here are some specially good values in tweeds that should wear like leather and have an excellent appearance. They come in the Norfolk and double breasted styles and are to be had with either bloomer or plain pants. Browns, green and grey mixtures are the prominent colors and we have all sizes from 24 to 34 at prices ranging from only \$3.75 to \$4.50

C. O. F. Meeting.—An important meeting of Court Columbia, No. 834, C. O. F., will be held in the Foresters' hall, Broad street, this evening at eight o'clock. Brother Organizer J. Muir will initiate a large number of candidates. All members are urgently requested to attend.

Prize List Correction.—The following corrections have been made in the prize list in the women's exhibit: Silk embroidery on silk or satin—1, Mrs. J. Bentley; 2, Mrs. S. H. Lewis. Silk embroidery on linen—1, Mrs. J. Bentley; 2, Mrs. Elcock.

Veterans Attention!—No. 24 Company of Imperial Veterans of Canada in conjunction with the British Campaigners' Association of Victoria will parade at the A. O. F. hall, Broad street, Saturday at 9.30 a. m., for the purpose of marching to the parliament building, headed by the Pipers' band there to be inspected by Field Marshal, H. R. H. the Duke of Connaught. All men having seen service and having decorations are most cordially invited to join with the Imperial veterans.

Commonwealth Shows Much Progress.—Having found their present quarters too small for the increasing Hobblerlin made-to-measure business, the Commonwealth Clothing Company have opened an additional store at 729 Yates just above Douglas. It is one of the most up-to-date stores in the West. The Commonwealth has obtained the services of an expert shirt-maker and is starting a made-to-measure shirt department. This house will specialize in suits, overcoats and shirts to order in the new store.

Notice of Meeting.—Members and friends of the Victoria branch of the Imperial British Israel Association will be pleased to learn that the sixth session bids fair to open with a pleasant surprise. Word has been received that one of the numerous accredited lecturers of the Imperial Association, which has its headquarters in London, England, is on his journey "to the Far East," and commences a course of lectures at the principle cities, as he crosses the continent. He is the Rev. G. B. Berry, rector of Plymouth, England.

Appeal for Subscriptions.—The Trades and Labor Council took up a collection last evening for the defence of A. L. Emerson, president of the Brotherhood of Timber Workers, who with sixty-five union men, is being tried for murder. A mass meeting of the Brotherhood of Timber Workers was held on July 7, at Grassy, Louisiana, when a riot occurred in which several men were killed and arising from that occurrence the proceedings are being taken. The council, and the I. W. W. will hold a meeting at one of the theatres in about two weeks to collect funds for the defence.

Exhibitors' Luncheon.—A very enjoyable luncheon was partaken of by a number of the exhibitors at the fall fair yesterday, Dr. Tolmie, supported by the mayor and a number of the aldermen and officials at the show being the host. Following the luncheon a number of short speeches, induced by the toasts, were given, the toast "The City of Victoria," being proposed by Mr. Turner, of Calgary, who praised the arrangements which had been made for the visitors to the fair, and said that nothing could give the city a better advertisement than such considerate treatment as was being shown to the exhibitors. In response to the toast of "The Visitors" Mr. Bull, of Brampton, Ont., said that he was voicing the sentiments of many others among the exhibitors when he expressed the sense of pleasure which they had all experienced in finding such comfortable quarters both for themselves and their stock, and in the heartiness with which they were welcomed to the city.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, September 25, 1887.

Senator McMaster died in Toronto on Monday, 23rd instant while addressing a meeting in McMaster hall. He was founder and for many years president of the Canadian Bank of Commerce, and a liberal in politics.

Mr. William McDowell, dairyman, has laid a charge against the principal of the High school for beating his son a few days ago.

The first race between the Volunteer and Thistle will take place tomorrow at 10 a. m.

Hanlan arrived in Sidney on September 22 after a rough voyage.

Minister Foster stated to-day in an interview at Ottawa that the Dominion government will propose to parliament that Canada will take the first step in laying the proposed Pacific cable, by inaugurating this spring a preliminary survey.

The steamer Saturna, Capt. Jaegers, carried an excursion party to St. Juan Island yesterday afternoon. Leaving the wharf at 9.30 a. m., the fast little boat steamed across to the island in three hours.

A party of engineers are on Texada Island, British Columbia, surveying the proposed four miles of railway track to be built by the Puget Sound Iron Construction Company.

Doctor Helmcken is improving rapidly and will be about again in a few days.

The C. P. N. Company's new steamer, the Premier, on a trial trip on Saturday made sixteen knots an hour.

HISTORIC FLAG.

Over the striking representation of Fort Camosun, which the Devonian Society has established in the Five Sisters block, there will wave to-morrow the Union Jack which floated on the flagstaff on the fort more than sixty years ago. The flag, which has been loaned by Mr. Hibben, shows traces of age and of the fire which destroyed the Hibben store last November. It will wave over what will represent the governor's residence.

Chief Davis Returns To-morrow.—Fire Chief Davis will return from Seattle to-morrow after an absence of three weeks in which he has attended two conventions and has seen a number of experiments with modern fire fighting apparatus.

Spiritualist Society.—The Victoria Spiritualist Society will hold a mid-week meeting to-night at 8 o'clock. The meeting will be at the K. of P. small hall, corner of Pandora avenue and Douglas street. Questions will be answered on the Philosophy of Spiritualism after the address.

Stop Traffic To-morrow.—With the arrival of the Duke of Connaught to-morrow all vehicular traffic on Government street and the line of route as far as Quadra street will be stopped until the royal party has passed. The announcement was made this morning by Inspector Palmer of the city police who desires all automobilists and others to know that the streets will be kept clear of traffic during that time.

Dominion Experimental Farm.—A commencement will be made at once on clearing work at the Experimental farm, Saanich, and when the minister of agriculture, Hon. Martin Burrell, arrives shortly, he will inspect the site. A portion of the land has been ordered for the cleared land is to be ready for putting under crop before the season closes. The livestock will not be purchased till next spring when accommodation for it has been built.

Pitt Meadows Boundary.—The provincial secretary has as yet heard nothing officially as to the objection which it is understood has been raised in certain quarters with regard to the eastern boundary of the proposed corporation of Pitt Meadows. The municipality seems to have taken no steps to ask for a hearing and it is therefore probable that the charter will be issued in due course. The matter was apparently in the hands of Mr. W. J. Manson, M. L. A., but he seems to have arrived at the conclusion that there is no cause for complaint.

WILL NOT INTERFERE

In Connection With Case Testing Validity of Companies' Act.

As to the case which was brought before Mr. Justice Murphy at Vancouver a few days ago, between the John Deere Plough Co. and Agnew Bros., of Elko, in which the validity of the Provincial Companies' Act was brought in question, it is understood that the provincial government will not interfere in any way, as all the issues raised in this suit are already covered by the reference which is being made to the Privy Council. The point at issue is as to whether a Dominion charter takes precedence of the Provincial Act, and whether as a consequence the Provincial Act is ultra vires.

OFFICIALS PLEASED.

British Columbia's Success at Toronto Exhibition Causes Satisfaction in Timber Branch.

The news from Toronto that the exhibit of British Columbia products has taken the first prize in the inter-provincial competition has caused satisfaction to the staff of the timber inspection department, the exhibit of timber being one of the most important features of the provincial exhibit. This took the shape of three samples each of fir, cedar, spruce and hemlock. The first sample of each was a four-foot length from the butt of a log; the second showed a four-foot length of log squared on a huge saw; the third showed a piece of the log sawn into a plank and dressed and finished to bring out the beauty of the grain. With the exception of the spruce, the logs all exceeded ten feet in diameter, the spruce being about five feet. The credit for the display is due to Arthur Hendry, of the Hastings Sawmill, who selected the logs and superintended their preparation and dispatch. "We could have got logs very much larger than those we sent," said Inspector George D. McKay, "but they were selected because they were without the slightest imperfection of any kind. It would be interesting enough for Eastern eyes to see a dressed plank of lumber ten and eleven feet wide, without a knot or split or defect of any kind."

1ST CONGREGATIONAL CHURCH.

The Contract Record, of Toronto, Praises Design of Local Edifice.

The Contract Record and Engineering Review, published in Toronto, has the following to say of the First Congregational Church to be erected in Victoria:

"The front elevation of the proposed First Congregational Church to be erected at the corner of Quadra and Mason streets, Victoria, B. C., is similar in design to the front of Emmanuel Church, Montreal, First Church, Vancouver, the City Temple, London, England, and Plymouth Church, Seattle, and shows a chaste example of classic architecture as adapted to church purposes by the English at the time of the Reformation. Leading from Quadra street up the flight of stairs on either side of the main approach, are located the three wide entrances of the main auditorium lobby. The classic colonnade and belfry or cupola, typical of this style of architecture lend added attractiveness. Both main church and Sunday school lobbies are spacious, and ample provision has been made for exit, wide stairs leading to all parts of the building. Seating capacity for 850 persons has been provided in the main auditorium, while the main schoolroom will seat about 450. The cost of the completed structure is estimated at approximately \$50,000. Messrs. Bremmann & Durfee, Victoria, prepared the plans for the building."

A QUESTION OF FUNDS.

Is Establishment of Law School in Province—Amount on Hand.

The election for the presidency of the Law Students' Society, which was decided recently, is not likely to have much, if any, immediate effect upon the question of the establishment of a law school in this province. The establishing of such a school, while normally in the hands of the benchers, is really a matter to be dealt with by the new University of British Columbia, and will no doubt receive attention from the senate of that institution in due time.

The students, however, in their enthusiasm seem to have somewhat over-stated the amount of money in the hands of the benchers. "This sum was put by and said to be in the neighborhood of \$40,000, but as a matter of fact there is reported to be only half of that amount. From this money the benchers are obliged to maintain law libraries in different parts of the province, and so far as they are from feeling rich that at the last session of

You Would Enjoy Some of These NEW RECORDS

Look over the newly-arrived list of COLUMBIA double-disc records for October. They cover the whole range of the latest and best music, and they add several more triumphs to the credit of the COLUMBIA PHONOGRAPH COMPANY.

There is a catalogue at our store for you. You need only ask for it. It contains a splendid list of selections, among which we would recommend very highly two famous opera solos by Grace Kers: "I Dreamt I Dwelt in Marble Halls" and "Come With the Gypsy Bride," both from "The Bohemian Girl"; two superb dance medleys, the one a medley of Strauss waltzes, and a medley of Sousa marches; two popular orchestral numbers, "Country Dance," from the Nell Gwynne Suite, and the Venezia Waltz; selections and vocal gems from "The Prince of Pilsen," and a wealth of popular hits and standard successes.

the provincial legislature they applied for an additional grant, representing that the money which they had on hand was insufficient to properly equip these libraries. The legislature refused to entertain the plea on that occasion, but the benchers if they can get a quorum in the meantime will probably bring the matter forward again next January.

Carnegie Library.—Among the books which have been ordered for the Carnegie Library to be here in the next few weeks, is a large batch of new books for children. Up to now the children's section has been rather poorly represented, but Miss Stewart, the librarian, hopes to remedy this gradually, and to have on the shelves a comprehensive set that will fill all the needs of the juvenile mind.

Will Collect Evidence.—The Trades and Labor Council at the special meeting last evening appointed a committee to collect information to present to the labor commission which is to be appointed by the provincial government. Details of the labor day parade not being complete, a final report on the subject will be presented at a future date. The council decided not to accept the invitation of the city council for the president and secretary to attend the reception to the Duke of Connaught on his arrival.

Winter Programme.—The syllabus of the programme to be given during the ensuing months by the Young Ladies' Club of the Metropolitan church points to a number of very interesting meetings, and verifies the avowed motives of the club that it is to promote the intellectual, moral and religious improvement of its members. The next meeting will be held on October 2, and will be devoted to the lecture by Rev. C. T. Scott, B. A., D. D., on the subject, "George Eliot as

a Religious Teacher." Miss Kate Ede is arranging for a musical evening on October 18; Miss Elliott, a missionary evening on November 6; Mrs. Herbert Poyndar a social evening on November 20; Dr. Rayner will lecture on December 4; Dr. G. A. B. Hall on December 18; a musical evening on January 15; a lecture on February 5 by Miss Juniper, supervisor of domestic science in the public schools of Victoria; social evening on February 19; paper on "The Woman's Movement" on March 5 by Mrs. Christie; an evening with Tom Hood, on March 19, conducted by Mrs. Bromley-Jubb; and an evening by the members on April 2.

Building Permits.—Three building permits were issued yesterday by the Oak Bay municipality to Messrs. H. Bunting for an eight-roomed house on St. Ann street, at an estimated cost of \$4,000; to T. Barclay, for a six-roomed dwelling on Linkins avenue, at a cost of \$2,100; and also to T. Fairhead, for a seven-roomed house on Cowan avenue, to cost \$2,500.

Interested Applicants.—A Chicago gentleman, writing to the Vancouver Island Development League, states that he is ready to invest \$10,000 in any promising concern in this city; another inquiry from San Diego asks if there is any law restricting non-medical healing in British Columbia. He himself is a professor of osteopathy, and is anxious to practice his profession in this city.

Board of Trade.—None of the committees of the Board of Trade is meeting this week as the presence of the fair and the coming of the Governor-General has somewhat disorganized the condition of business. Next week, however, meetings will be held to discuss several important matters now awaiting their consideration.

If You Get It At **PLIMLEY'S** It's All Right

Get Your Cycle Now

For pleasure or business, rain or shine, city streets or country roads, the moderately priced "KIRMER-ARROW" is a machine you can depend on. Its past history is its recommendation and the fact that Plimley sells it is your guarantee that it will be all it is represented to be. Frame 22, 24 and 26 inches in best weldless steel tubing, finished four coats black enamel and tastefully lined 8 speed rims, spring hammock saddle, detachable double tube tires, English wide rubber pedals, English free wheel and two rim brakes. All accessories included. Don't forget that every \$10 cash spent at Plimley's entitles you to a coupon for a 1913 \$1500 "Overland" Automobile.

BAT OUT 7-4 VICTORY OVER PORTLAND COLTS

Kaufmann's fine twirling, the brilliant fielding of the Bees and a batting rally in the seventh put a crimp in the winning streak of Portland. Victoria came out on the long end of the game at the ball park yesterday afternoon, and still have a chance to land in the first place of the second division. The score was 7 to 4.

It was a hard game for Doty to lose for after being rapped for three hits in the first, netting two runs, he twirled airtight ball for five innings. The Bees were unable to solve his delivery and in the second he struck out the first three men up; in the fourth but four men faced him, one of whom fanned; three swung vainly at the ball in the fifth, and in the sixth but four men came to the bat.

In the seventh Doty went to pieces and he walked Clementson, the first up. Keller followed with a hard drive over second, which Esola was unable to hold. Harmon then hit to left, and Kaufmann rolled an easy one to Williams, who caught Clem at the plate. Daniels walked and forced Keller home. Rawlings sent a slashing drive down the third-base line, which went for two-bags, and Harmon and Kaufmann scored. Brooks leaped on a fast one, and sent the ball to the fence, ending Daniels and Rawlings home. Meek hit again, but Weed, who followed, went out Spas to Williams, and Clementson slammed one at McDowell, which he got to first in time to catch Clem.

It looked at the start as though Victoria was going down to another ignominious defeat as Mahoney hit the first ball Kaufmann pitched to the board. He was later caught in a double with Speas. Pries put the ball over the fence in the first, giving Portland their first run. The first home run came back with two in their half of the game on hits by Rawlings, Brooks and Meek. Portland's last scores came in the fourth. McDowell hit for four sacks. Williams was hit by a pitched ball, and Burch advanced him by driving a hard one into the outfield. The second out came behind second, and with the bases full Crickshanks slammed the ball to deep center, scoring Williams and Burch.

From then on Kaufmann was invincible, and he was accorded splendid support. Portland tried hard to overcome Victoria's lead. They needed the game to clinch the first position in the second division of the Northwestern

MELBOURNE INMAN AT CAMOSUN CLUB

SCORES THOUSAND IN AN HOUR AND A HALF

Three Times Passes the Hundred and Once Gets to 218 by Position Play

Billiard players who go to the local tables and compile a score of two hundred in about two hours, and those who can almost run two hundred into the sixty minutes, will sit up and take notice when they read that Melbourne Inman, the world's champion at the English game, played in Victoria last night and scored 1,000 in an hour and forty-five minutes. But then Inman is a champion, in fact he is the champion, and it behooves a champion to do something that other people cannot do.

Playing with crystal balls which he is using throughout his Canadian tour, Inman scored his highest break last night in compiling 218 by top-of-the-table and all-round billiards. He also made 150, 101, 97, in which he lost the white at that figure and missed a two feet drawn along the rail into the top pocket. He gave a short exhibition of red ball playing, the Gray and Lindrum stroke, in a break of 57, losing the white at 18 and running the red from the three-quarters length to below the middle pocket alternately thereafter, making hazards until he missed a top pocket. He also made breaks of 91, 40 and 37. Inman is more pleasing to watch than Roberts or Newman because he is a very fast player. He is without the slow, methodical habit of Newman, and being younger than Roberts is therefore more active and moves round the table faster. Last night Inman was interesting at every shot, and like the other two players, showed the ambitious ones here that the secret of billiards is to provide for the second shot before making the first.

Position play and control, as well as pace and strength, were all demonstrated by Inman. The comparison between the champion's methods and those of his opponent, Cowan, who only scored 176, was so wide as to be impossible. The faults that Cowan made were glaring after watching Inman control the running balls and players beholding the same had one of the best opportunities of noticing how necessary and how important it is to learn to control the following shot and retain position, if one hopes ever to amount to anything above the village class.

player, who made some good individual shots but had no foresight or control. But to-morrow, playing against the local players, with the memory of Inman's exhibition in the past, he would be considered a fair all-round player who can make 100 breaks with regularity, as was announced before the match.

The match was played at the Camosun Club by ticket admission to the public, and a large attendance was present when the game commenced. One thousand in an hour and a half was sufficient to give the spectators a taste of the real game. At the end of the game Inman gave some fancy shots of the eccentric kind, and then held a competition for an Inman cue. Sixteen players competed, but only one of them scored and he, Morris Condon, made four and won the cue. The competition was commenced by each player breaking from in hand with the white on the middle table spot and the red on the top spot. Every player but Condon failed to run in off, or cannon.

Inman has recently arrived from Australia, where he, after being six weeks on the ocean from London, was beaten by both Lindrum and Reece. Referring to the red ball game Inman says that its popularity has waned and that as an exhibition game the great Gray shot has proved a failure. In South Africa Gray and Stevenson's present tour has been abandoned because of the poor support of the public owing to the monotony of the red ball play.

SPORT NOTES

Chicago, Sept. 25.—Joe Dawson, one of the world's best-known automobile drivers, sent word to Chicago last night that he had just been reinstated by the American Automobile Association and probably would be seen in the Vanderbilt cup and Grand Prix races at Milwaukee, October 4 and 5. The action of the board goes into effect to-morrow. Dawson was suspended for driving an exhibition mile on a dirt track for the benefit of the Elks lodge of Memphis, July 4 last.

Montreal, Sept. 25.—Constant Le Marquis, the French heavyweight wrestler, defeated Leo Pardello, the Italian champion, here last night, securing two straight falls, the first in 16 minutes and the second in 27 minutes.

New York, Sept. 25.—Licenses of nearly a score of referees of boxing contests have been revoked by the state athletic commission on the ground that the men either are interested in fight club management or in the management of individual fighters. Among those whose licenses were revoked is Tom Sharkey, of New York.

New York, Sept. 25.—It is announced that the state athletic commission, which has supervision over boxing, has

refused to reinstate Leach Cross or to cut down the suspension imposed upon him recently for violating rules in a bout. Cross appealed from his suspension and asked to have it modified, presenting a numerous signed petition to support his request.

Minneapolis, Minn., Sept. 25.—Fourteen members of the University of Minnesota football squad to-day were declared eligible by the faculty committee. Preparations are being made for the game with South Dakota next Saturday.

Manager Callahan, of the Chicago White Sox, has released a recruit first baseman named McLarry, whom he secured from Austin in the Texas league, to Lincoln club in the Western league.

Walter Johnson, Washington's premier pitcher, advises the New York pitchers to walk Speaker in a pinch in the coming world's series. Johnson says you have to put them over for him and if you do he lands on it.

The Jersey City and Newark clubs in the International league want to sell their franchises. The present owners have sunk a lot of money.

The two Chicago clubs, the Cubs and the White Sox, have arranged for a post series to decide the championship of Illinois. The White Sox are the present champions. The two St. Louis clubs, the Cardinals and the Browns, have also arranged a post series. It is understood that the Cleveland and Cincinnati clubs will not play this year. So the Reds will retain the championship.

The Toronto club, winners of the International league, are one of the best teams in the country. In exhibition games the Leafs have beaten the Philadelphia Athletics 3-0 with Jack Coomb in the box, they beat the Cincinnati Reds 9-3 and tied the New York Giants with Marquard and Tereau on the mound. This is when Rube was at his best.

Tom Thomas, former middleweight champion of England, is in America looking for a return match with Jack Harrison, who won the title from him by a knockout.

The Chicago White Sox are going down the line fast, as they only lead Cleveland by half a game and Cleveland leads Detroit by one game. These teams are fighting hard for a place in the first division.

St. Louis are out of the cellar in the American league again as a result of their double victory over Chicago yesterday and New York being defeated by Boston.

There was a great deal of talk about Joe Wood blowing up after his long string of victories, but Wood fooled them by shutting out New York yesterday with two hits.

Young Jack O'Brien, of Philadelphia, is still winning. The other night in New York he gave Young Brown, of

that city, an awful beating in ten rounds.

Wellman, a recruit pitcher of the St. Louis Browns, held Chicago to one hit yesterday and won his game 12-0.

Boston, in the American league, have won one hundred games this year, as a result of their win over New York yesterday.

The Vancouver ice skating rink opens on November 1st.

Dave Dugdale has announced that Tealy Raymond will lead the Seattle Gladiators in 1913. Dug things a lot of Tealy.

This Speaker, of the Red Sox, was the first player to pass the century mark in runs scored in either league. Ty Cobb was second.

Heinze Schultis, who pitched for the Highlanders against Boston yesterday, was secured from Savannah.

Philadelphia fans think there is no better combination of lead-off men than Lobart and Paskert, of the Quakers.

The St. Louis club have purchased Second Baseman Miller from Lowell club in the New England league for immediate delivery.

PRO. SOCCER PLAYERS OBTAIN THEIR MEDALS

Hon. President Addressed Club Last Night at Musical Gathering in A. O. U. W. Hall

The presentation of medals to the members of the Victoria professional soccer team took place last night at the A. O. U. W. hall with every seat in the hall occupied. J. Sullivan occupied the chair at a smoke social greatly enjoyed by all who assembled.

C. G. Duncan, the hon. president of the club, spoke as follows: "The Victoria Football Club is now entering its second year, and if this gathering is any criterion, this season's success will eclipse that of last year. Gentlemen, every one of us cannot be football players and, while some of us no doubt are very good 'has-beens,' the majority are only able to be boosters and supporters of one of the most scientific and athletic sports in the world.

"I believe the success of a team depends just as much on the support it receives from its friends as it does on the abilities of the players. So while thanking you one and all for your past support, I would urge you to give even more this season.

"We have the players and it is up to us to give them whatever assistance is

possible to make this an epoch-marking year in the history of football in British Columbia.

"Last season the Victoria Club won 15, drew one and lost two games and scored 43 goals for 19 against. Traveling expenses amounted to \$750, and I am pleased to say that we were able to wind up the season with a clean sheet financially.

"We have to thank the business men of Victoria, many of whom made double donations for their practical interest in us."

President A. Manson, of the amateur league, and Chester Brown also addressed the meeting. The musical programme was well selected, and the audience expressed its appreciation of the efforts of the musicians. The club trainer this season will be Chester Brown. He was formerly with the Seattle Athletic Club.

MOTOR BOAT CONTEST.

London, Sept. 26.—Captain Thomas Fleming Day, of New York, commander of the motor boat Detroit, which crossed the Atlantic and proceeded to St. Petersburg, is back in London. He says he intends to organize an international motor boat race in 1913 from New York to Paris. Captain Day adds that the automobile club of France, James Gordon-Bennett, and possibly the French government will give trophies.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Sept. 25.—5 a. m.—The barometer remains high over this province, and the weather continues from Northern British Columbia to California. It is also fine in the prairie provinces, with temperatures ranging from 22 to 32.

Forecasts.
 For 24 hours ending 5 p. m. Friday: Victoria and vicinity—Light to moderate winds, fair to-day and Friday, not much change in temperature.

Lower Mainland—Light to moderate winds, fair to-day and Friday, not much change in temperature.

Reports at 5 a. m.
 Victoria—Barometer, 30.18; temperature, 44; minimum, 44; wind, calm; weather, clear.

Vancouver—Barometer, 30.20; temperature, 44; minimum, 44; wind, calm; weather, part cloudy.

Kamloops—Barometer, 30.18; temperature, 42; minimum, 42; wind, calm; weather, cloudy.

San Francisco—Barometer, 30.00; temperature, 54; minimum, 52; wind, 4 miles S. W.; weather, cloudy.

Edmonton—Barometer, 30.26; temperature, 22; minimum, 22; wind, calm; weather, clear.

Winnipeg—Barometer, 30.18; temperature, 22; minimum, 22; wind, 10 miles N. W.; weather, clear.

Victoria Daily Weather.
 Observations taken 5 a. m., noon and 5 p. m. Wednesday:

Temperature
 Highest 63
 Lowest 43
 Average 53

Bright sunshine, 8 hours 35 minutes.
 General state of weather, fine.

HAIR STOPS FALLING, DANDRUFF DISAPPEARS—25 CENT "DANDERINE"

Save your Hair! Beautify it! Invigorate your scalp! Danderine grows hair and we can prove it.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch. But what will please you most, will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine now will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small

strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself to-night—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.

ORTERIC MAKING ONE MORE TRIP TO COAST

Loading in Orient Next Month for Victoria—Hercules Next to Arrive Here

Still another trip is to be made from the Orient to this coast by the big Weir liner Orteric, Capt. Kennedy, marine superintendent of the company, who has been in this city for a few days, the Orteric will load at Oriental ports early next month. She will be along here at the beginning of November.

Several reports have been in circulation at different times to the effect that the Orteric would leave the trans-Pacific service. She was withdrawn for a short time in order that she might make a trip to England, but again returned to the Oriental business. The Orteric is the last of the Weir boats operating between Yokohama and this port. The Luceric, Suveric and Kumeric have all left this trade to enter newer fields, where the rates are better.

It is understood that the steamship Hercules will be the next of the Waterhouse boats to dock here from the Far East. She is now loading at Hongkong and it is expected that she will sail from Yokohama for Victoria early next month. Both the Hercules and Orteric will bring full cargoes for their outward trip. Large shipments of flour will be loaded at Portland by both vessels.

NEW LUMBER CARRIER.

Tacoma, Sept. 25.—Designed as a lumber carrier, the steamer John A. Hooper, built for Sudden & Christensen, was launched at the yards of Hart & Hollingsworth on Saturday at Wilmington, Del. The new vessel will be an important addition to the coast fleet as she will have capacity for 2,500,000 feet of lumber.

She is 229 feet in length, 24 feet beam and 21.6 feet depth of hold. She is of steel construction and of strictly modern design.

To-morrow night the C.P.R. steamer Princess Sophia, Capt. Campbell, will sail for Prince Rupert and Skagway. She will take out a number of passengers.

NEWS OF THE SEVEN SEAS

OSAKA LINER COMES IN BEFORE SUNDOWN

Will Be at Outer Docks Tomorrow Night—Inaba and Yokohama Here Saturday

ALICE ON HER WAY SOUTH TO VICTORIA

Was Spoken "All-Well" in Milbank Sound Last Night—Rupert and Venture Out

While steaming south from Prince Rupert last night the C. P. R. steamer Princess Alice, Capt. Locke, with the dual party aboard, was spoken by wireless from Milbank Sound. Capt. Locke reported fine weather prevailing, and that he would reach Nanaimo to-morrow morning at 10 o'clock. The Alice left Port Simpson yesterday afternoon at 4 o'clock. She will arrive here from Nanaimo to-morrow afternoon at 5 o'clock.

Two steamers left port this morning within five minutes of one another for northern British Columbia ports, the G. T. P. steamer Prince Rupert, Capt. Johnson and the Venture, Capt. Parks, of the Boscowitz fleet. Both vessels will take out good lists of salmon passengers and the cargoes were heavy. The Venture was deeply laden, having aboard 7,000 cases of salmon from the north, which she will discharge at Vancouver. On her southbound trip she did not have time to put off the salmon at the Terminal City.

Among the passengers who went out on the Prince Rupert were the following: W. F. Carter, J. Matthews, H. Silver, W. Johnson, B. Anderson, Mr. and Mrs. Holquist, F. Clarke, J. J. Threlkeld, H. Welch, Mr. and Mrs. Helquist, W. Tunnah, Chas. Peck and John Dorsey. Although the season is getting late travel to the north is still holding good, and all the steamers are handling good lists of passengers.

COAL FAMINE IN SIGHT.

Seattle, Sept. 25.—Prospects of a coal famine all along the Pacific coast have begun to give shipping interests no little concern, particularly operators of tramp steamers under charter to transport wheat, lumber and flour to Europe and the Orient.

On account of the coal strike at Coombs, Nanaimo and Ladysmith there has been a heavy decrease in supply at Seattle, Portland, Tacoma and other northern Pacific ports, and the situation has taken a serious aspect.

The German steamship Verona, under charter to Frank Waterhouse & Co., after taking aboard a cargo of 7,500 tons of flour, wheat and lumber for the Orient at Portland, has been compelled to come to this port for bunkers. The steamer passed in at the Cape late yesterday afternoon and arrived at the Pacific Coast Coal Company's bunkers this morning.

The steamship Lord Derby, under charter to Frank Waterhouse & Co., is expected here at noon to-day from the Orient via British Columbia ports. The Lord Derby will load at Seattle and Tacoma for ports in the Orient.

The steamship Lord Curzon, also of the Waterhouse fleet, sailed from San Francisco for the Sound last night and will begin loading for the Orient.

The height is in feet and tenths of a foot, above the average level of the lowest low water in each month of the year. This level is half a foot lower than the datum to which the soundings on the Admiralty chart of Victoria harbor are reduced.

The C. P. R. steamer Tees, Captain Gilliam, is due back in port from Holberg at the end of the week.

MAILS DELAY WHITE LINER LEAVING PORT

Empress of India Sails This Afternoon—Big List of Saloon Passengers

Wireless messages received here this morning from Capt. Kyushu, master of the Osaka Shosen Kaisha liner Mexico Maru, stated that, he would bring his ship in from the Orient to-morrow night. The Japanese liner was 424 miles from Estevan at 8 o'clock last night and the speed of the vessel has been increased slightly in order that she may reach the port before sundown. The Mexico Maru will be at the station at 8 o'clock and will come up to the outer docks an hour later. She will be in port all night, putting off 600 tons of general merchandise.

Shipping men and the longshoremen are glad that the Mexico will be in to-morrow night, for if she docked on Saturday morning, as was first reported, there would be congestion at the outer wharves. The Nippon Yusen Kaisha liner Inaba Maru, Capt. Tomen Inaba, will be in Saturday from the Orient to discharge 1,500 tons of cargo, and the Yokohama Maru, Capt. Noda, will sail outward, so that if the Mexico came in the same day the stevedores would have a difficult time handling the cargoes.

Another wireless message was received last night from the Inaba Maru, and it is certain she will not be in until early Saturday morning. Her position at 8 o'clock was approximately 750 miles from Victoria. She will be in port all day Saturday and part of Sunday, putting off the immense cargo, which she is bringing to Victoria from the Orient.

The Yokohama Maru is now completing her cargo on the Sound. She will take out 3,500 tons of flour, 1,500 tons of wheat and heavy shipments of machinery. She will also take out a full list of passengers. The Yokohama is sailing five days behind her schedule.

Chicago Maru on Way. Advice was received this morning by R. P. Rithet & Co., agents for the Osaka line, stating that the Chicago Maru, Capt. Goto, left Yokohama on Thursday last for Victoria, with 140 stowage passengers and 350 tons of freight for this port. The Chicago is due here on October 4.

BARQUE AFTER NEW RECORD.

GALETS TO SAIL FROM PORTLAND TO ENGLAND IN 99 DAYS—IS SPEEDY SAILER.

Astoria, Tuesday, Sept. 25.—Capt. William Griffith, master of the British barque Galeat, which left the Columbia River yesterday afternoon, bound for Ipswich, England, with a cargo of barley and wheat, has it figured out why he should complete the passage in ninety-nine days, or about two months quicker than the average sailing vessel covers the same course.

"In the Galeat I have made three trips from Portland to the United Kingdom," said Captain Griffith yesterday. "On the first voyage I completed the run in 129 days, the second in 119 and the third in 109. You see, I beat each preceding passage by ten days. So if I keep up that record I will complete the passage this trip in ninety-nine days, and if I do, it will be going some."

Fourteen years ago the Galeat established a record for speedy sailing between Shanghai and the Columbia River, completing the run in twenty-seven days. It is still the sailing record.

On this trip the barque will be laden with 35,556 bushels of wheat, valued at \$2,000, and 119,840 bushels of barley, worth \$28,400.

The India came in here a little after 3.30 this afternoon, and immediately about 125 passengers, who had been waiting anxiously for the steamer, embarked on the vessel. There were a large number of Oriental steerage passengers on the Empress bound on a holiday trip to their native lands. The saloon list was also large and included the following: Mr. Armstrong, Mrs. Armstrong, H. W. Arthur, Mrs. Arthur, Mrs. Geo. G. Brewer, J. G. Brown, Mrs. C. C. Bechofer, T. B. Brackeybank, G. Elliott, Mr. McFarlane, J. A. Fisher, Mrs. Fisher, Mrs. Fortune, Mr. Fortune, J. Fortune, Rev. R. A. Goodwin, Mrs. Goodwin, Miss B. Hastings, Miss D. Hastings, T. W. Hands, T. D. Hay, Rev. E. Hibbard, Mrs. Hibbard, Miss M. Holm, Rev. J. O. V. Jolliffe, Mrs. Jolliffe, H. Jones, Miss H. C. Jost, Miss L. T. Leathart, Miss O. C. Lifiday, Miss McPherson, Miss McFarlane, Mr. Miller, Mrs. Miller, Master Miller, Mrs. M. Moyes, Miss Morgan, Miss M. Norling, Mrs. W. A. Orr, J. Orange, Dr. Parsons, B. C. Patterson, C. Polist, Mrs. Polist, Major S. K. B. Rice, Mrs. Rice, Miss E. Ryan, Dr. O. Schreiner, Rev. J. M. P. Scott, T. Smith, O. Strufe, W. Stewart, Rear Admiral Tate, Mrs. Tate, E. S. Ward, Mrs. E. S. Ward, Mrs. C. Wallis, G. F. Whalen, Mrs. Whalen, W. P. Wilkinson.

Beckenham Leaves. Last night at 8 o'clock the steamship Beckenham, Capt. Gow, weighed anchor off the outer docks and proceeded to Port Blakeley to load lumber for Buenos Ayres.

AIDS TO NAVIGATION

(194) Vancouver Island, West Coast. Clayquot Sound, Templar Channel, telephone connection between Lennard Island light station and Tolfo.—Telephone line: Telephone communication for the protection of shipping has been established by the Government of Canada between the light station on Lennard Island and the Government telegraph-office at Tolfo. The telephone line consists of a land line from the light station to a small cove at the northeast end of Lennard Island, distant one-sixth mile 57 degrees (N. 32 degrees, E. Mag.) from the lighthouse; a cable from the above cove to a small cove on the west side of Low peninsula, distant about 3-4 miles, 75 degrees (N. 50 degrees, E. Mag.) from the southeast extremity of Village Island; and a land line over Low peninsula to Tolfo. Position: Lennard Island light-house is in Latitude N. 49 degrees, 4 minutes, 40 seconds, Longitude W. 125 degrees, 45 minutes, 55 seconds. Caution: Mariners are warned not to anchor vessels in the vicinity of the cable.

(195) Vancouver Island, East Coast. Cordova Bay, uncharted rock. Position: 2 miles, 6-1-2 cables, 295 degrees (N. 85 degrees, W. Mag.) from Zero rock beacon. Lat. N. 48 degrees, 32 minutes, 48 seconds, Long. 125 degrees, 40 seconds, E. Mag.) from the rock. Depth, 4 feet. Description: The rock is of small extent with 3 to 5 fathoms around. Remarks: The rock was discovered on 5th August, 1912, by Commander Henry Pybus, R. N. E. of the yacht "White Cloud," which struck the rock. The rock will be known as Pybus rock.

(196) Strait of Georgia—Porter pass.—Arc of visibility of front range light on Race point increased. Position: On Race point. Latitude N. 48 degrees 9 minutes 32 seconds, longitude

W. 123 degrees 35 minutes, 5 seconds. Character.—Fixed white light. Arc of visibility increased.—The arc of visibility of the light has been increased and the light now shows eastward to Dionisio point. It is visible eastward of the line of range over an arc of 66 degrees from 196 degrees 30 (S. 8 degrees E. magnitude) to 354 degrees 30 minutes (S. 60 degrees W. magnitude). Order.—Fifth dioptric.

(197) Chatham sound—Dundas island.—Hudson Bay pass—Uncharted rock. Position.—In the eastern end of Hudson Bay pass. Latitude N. 54 degrees 30 minutes 21 seconds, longitude W. 130 degrees 48 minutes 30 seconds. The following sextant angles fix the position of the buoy: South tangent of island of Nares group next south of the northernmost one 0 degrees. East tangent of northernmost Nares island, 61 degrees 52 minutes. East tangent of North Dundas island, 41 degrees 10 minutes. N. E. islet, Ducie island, 41 degrees 30 minutes. It was noted when on the rock that the south point of Ramall island and the north point of Baron island were in line. Depth.—2 feet. Description.—The rock is of small extent, has deep water close around, and is thickly marked with kelp.

(198) Washington, Juan de Fuca strait, Neah bay—Whistling buoy replaced by gas and whistling buoy; light discontinued. Attention: Neah bay whistling buoy, 2 Neah Bay, Juan de Fuca strait, has been replaced by a combined gas and whistling buoy. Description: The buoy is conical in shape with a pyramidal skeleton superstructure. Character of light: Occulting white light, visible 5 seconds and eclipsed 5 seconds alternately. Light discontinued: Wandah island light has been permanently discontinued.

The Government of Canada has authorized the establishment of a bell buoy off the south end of the reef, southward of Snake Island (Light-house island), in place of the red conical buoy now established there. The bell will be rung by the motion of the buoy on the waves. The change will be made as soon as possible and without further notice.

A lighthouse has been erected on Sheringham point, Vancouver Island, Strait of Juan de Fuca, and the light will be placed in operation on or about 1st October, 1912. The light will be a white flashing light, elevated 72 feet above high water mark, and should be visible 11 miles from all approaches by water.

The Dominion government gives notice that owing to an unavoidable accident at Carmanah light station, west coast of Vancouver Island, the fog alarm will be unreliable until the necessary repairs in the diaphane machinery are effected, which will be done without the least possible delay.

Maple spit beacon, Baynes sound is missing. The beacon will be re-erected without the least possible delay.

Big Shipbuilding Plant to Be Built at Coquitlam—Company Has Been Formed

Taking advantage of the great demand for tonnage, especially in the lumber trade between British Columbia and South America and on the north coast, a \$500,000 lumber company has been incorporated by capitalists from the East, Vancouver and Victoria. The plant will be built at Coquitlam, at the junction of the Fraser and Pitt rivers, where the new company, known as the Coquitlam Shipbuilding & Marine Railway Company, has bought eight and a half acres from the Coquitlam Terminal Company.

Work on the new plant already has commenced and will be rushed rapidly to completion to allow operation to commence as early as possible. The president of the company is L. D. Shafner, of Bridgetown, Nova Scotia, who has been engaged in the shipbuilding industry on the east coast for many years. He has sold out the interests in the East as the result of three months spent on the Pacific coast. He picked out Coquitlam as a suitable location and declares the possibilities in the shipping industry on the Pacific is just in its infancy. The new concern will employ about one hundred men all the year round.

The company will build sailing ships principally, with auxiliary power, for the lumber trade, but its activities will cover a wide area. The ways will be large enough to accommodate any vessels which come to this port, and the attention of the company will be turned toward building new vessels in readiness for Panama canal business. At the commencement vessels of from 200 to 500 tons will be turned out, but later on the plant is expected to build vessels of almost any tonnage.

The company will have a sawmill in connection with its plant, and the timber used in the vessels will be turned out of its own mill. Shafner, who has been twenty years in the shipbuilding business, has selected Coquitlam because of its sheltered position for the site of the industrial plant. There is fifty feet of water in front of the property obtained by the company.

Late to-night the Pacific Coast steamship Unatilla, Capt. Reilly, will arrive in port from San Francisco. She is bringing north a good list of passengers, and also has over 200 tons of cargo for this port.

PREMIER GOUIN
ARRIVES IN CITY

BRILLIANT LEADER
OF QUEBEC LIBERALS

Impressions of Current Political Questions—The Reciprocity Movement.

"Important amendments to legislation governing three great provincial issues of roads and railways, and the primary and technical education problems which will be brought forward at the next session of the Quebec legislature in my opinion will be of great importance to the future of my province. If they are passed, as the measures provide for the development necessitated by the recent annexation of Ungava."

Sir Lomer Gouin, premier and attorney-general of the province of Quebec, made the above statement to a newspaper man, with the assertion that at the present time the eyes of electors in his province were turned in the direction of the government to see if it intended to steadfastly pursue the progressive policy inaugurated at the beginning of its term in the matter of railroad and highway construction.

Sir Lomer arrived in Victoria this morning in company with the following party, who are staying at the Empress hotel: Lady Gouin, Hon. J. Decarie, provincial secretary; Madame Decarie, Mr. Amos and Miss de Beaujeu, Mr. L. P. Bernard, K. C., law partner of the premier; and Mr. L. H. Richard, private secretary.

"At the last session, Quebec was authorized by parliament to open a loan for \$10,000,000 which would be used in the improvement of roads. The loan was to be realized by the various municipalities, the government guaranteeing fifty per cent. of the sinking fund and interest. We have given this system a thorough trial as it has been in operation all summer, and I may say, is giving splendid results."

"The government realize," continued the premier, "that good roads are among the most important assets of a province, and, while several amendments will be made to the new system the original plan of the government guarantee will not be altered, as this has been in a great measure responsible for its success."

Questioned as regards railway development in Quebec, the premier stated that the action of the provincial

legislature in granting a subsidy to the railway between James Bay and the centres of Quebec and Montreal, had removed the last obstacle from the path of the undertaking, as the federal government had already given assurance of its support by the appropriation of a substantial sum.

"It was at first thought," said Mr. Gouin, "that the Dominion government would construct this line themselves as they are at present engaged in a somewhat similar project in Saskatchewan. It is pointed out that the Saskatchewan line which is being built to handle the grain traffic from the prairies will be supplying boats that can only use the Labrador straits for two months of the year, as navigation is greatly impeded by ice. This will necessitate the use of the James

SIR LOMER GOUIN
Premier of Quebec

Bay railway as an outlet, the grain being shipped seven hundred miles by water from the terminus of the Hudson's Bay line to James Bay.

Redistribution.

"Of course," added the premier, "I cannot state positively about the actual length of time which the Labrador channels admit of the passage of sea-going steamers, but the government survey party which has been in the north for some time for the very purpose of ascertaining this phase of the question will submit their report shortly and the future usefulness of the two railway systems can then be gauged."

The matter of decreasing the representation of the Maritime provinces by a redistribution of seats based on the actual population as provided for in the British North America Act was commented on by Mr. Gouin. "I feel in sympathy with the New Brunswick, Nova Scotia and Prince

Edward Islands," said he, "on this question, but of course they have no case as the matter has already been settled before the privy council. The amendment of the act is the only alternative."

Briefly referring to the reciprocity question, Mr. Gouin stated that he had sounded the feelings of the middle west and was convinced that a strong sentiment still prevailed in favor of the measure.

Sketch of Career.

Sir Lomer Gouin has been described as the greatest prime minister the province has ever known. An administrator of breadth of view, great energy, ability and unimpeachable probity, he comes of a family long settled in the province of Quebec, and was born at Grandines just 50 years ago.

His education was received at Sorel College, Levis College and Laval University, all of which he passed through with distinction. He studied law under the late Sir John J. Abbott and Hon. R. Lafontaine, two prominent leaders of the Montreal bar; he became an advocate in 1884, and has been since then one of the leaders of the provincial bar, and successfully practises his profession as head of the firm of G. Lemieux, Murphy & Berard.

He was elected lieutenant-governor of the provincial bar in 1910, and previous to this had conferred upon him the dignity of an officer of the Legion of Honor of France and L'Institute Publique. He was knighted at the Quebec tercentenary celebration in 1908 with Sir James Whitney.

He was present, by invitation, at the coronation of King George and Queen Mary in 1911. He has been premier and attorney-general of Quebec since 1905, and has filled numerous presidential seats in public bodies, both of a commercial and social nature.

OAK BAY BUILDING.

Municipality Taking Important Place in List of Building Totals for Country.

If the maxim that nothing is more indicative of a city's progress than the development of its principal residential suburb contains any germ of truth, then Victoria is undoubtedly forging ahead by leaps and bounds.

The criterion, of course, is the municipality of Oak Bay, whose figures in the matter of building permits are beginning to take on an important place in the list of the towns of the country. By the close of the present year the million-dollar mark will have been passed with something to spare, as a total for the amount of building permits issued by the municipality in 1912.

Victorians can vouch for the fact that but a few years ago the announcement that over a million dollars in the way of building activities for one year in this city would have created somewhat of a furore, and would

40 Acre Farms Near Railway

Our forty-acre farms along the line of the Pacific Great Eastern railway are ideally located for mixed farming, fruit or poultry ranching. The upper Fraser is close to the property. Markets are near and good prices are obtained. The soil is rich and the production is large.

The clearing is light, in many cases needing nothing but the plow. The climate is such that horses often graze outside all winter. The price of these farms, for a short time, is only \$640, and the terms are \$50 CASH AND \$15 PER MONTH. Anyone interested in the purchase of farm lands should consult our Victoria agents at once.

WILL PLAY FOR WORLD'S CHAMPIONSHIP

—From Picture Loaned by Cunningham & McLean.

New York, champions of the National league, on top—Players, from left to right: Matthewson, Snodgrass, Becker and Meyers. Bottom row: Devore, Fletcher, Merkle and Herzog, Capt. Larry Doyle in the centre.

Boston, champions of the American league, below—Players, from left to right, are: Wood, Gardiner, Wagner and Carrigan. Bottom row: Hooper, Speaker, Yerkes and Hendrickson. Capt. Jake Stahl in the centre.

have been heralded with big headlines in the local press.

Figures obtained this morning from the office of the municipality show that during this month alone, or during very little more than three weeks, \$102,948 is the mark which the permits have reached. Compared with last year these figures show an almost unbelievable preponderance. The total for the whole month of September, 1911, reached only \$26,956 and that was a good average month. Yet this amount is but one third of the total registered within the last three weeks.

About the same proportion obtains when considering the yearly totals. Last year the amount reached was \$239,252, while up to the present time, that is to say during about nine months over \$856,458 is the total which has been reached. At the same ratio the end of the year ought to see the million mark left behind.

LOCAL BOY SUCCUMBS

Cecil Sargent Dies at Powell River—Father Brings Remains South

Unable to rally from the shock, Cecil Sargent, the young Victoria boy who was shot at Cortez Island on Sunday, passed away yesterday at the Powell River hospital. The father of the unfortunate lad, who went north immediately upon receiving word of the accident, brought the body to Victoria this morning.

It was 20 hours after the accident before Sargent could be given medical attention at Powell River. The scene of the accident was 160 miles from the river and although his comrades did the best possible under the circumstances they were unable to reach the hospital in time to save the life of Sargent. He had gone on a hunting trip with several other members of a survey party. They went some distance in a rowboat and when Sargent was stepping out from the craft he lifted his gun by the muzzle and the weapon was discharged, the shot striking him in the left arm near the shoulder.

Cecil Sargent was but 18 years of age and was well known in this city. He graduated from the Victoria high school and had taken his first year in McGill.

Notice of the funeral will be given later.

MANNING IN FROM BERING.

Port Townsend, Wash., Sept. 25.—The United States revenue cutter Manning, four days from Seward, Alaska, reached port yesterday. The Manning is the first of the Bering Sea patrol fleet to come south for the winter, and the northern patrol season is now ended. Snow has commenced falling in Alaska, the captain said, and considerable is noticed in the mountains in the Kodiak region.

Francisco, are making a short stay in

YOUNG WIFE SAVED FROM HOSPITAL

Tells How Sick She Was And
What Saved Her From
An Operation.

Upper Sandusky, Ohio.—"Three years

ago I was married and went to house-
keeping. I was not
feeling well and
could hardly drag
myself along. I had
such tired feelings,
my back ached, my
sides ached, I had
bladder trouble and
fully bad, and I could
not eat or sleep. I had
headaches, too, and
became almost a ner-
vous wreck. My doc-
tor told me to go to a hospital. I did
not like that idea very well, so, when I
saw your advertisement in a paper, I
wrote to you for advice, and have done as
you told me. I have taken Lydia E. Pinkham's
Vegetable Compound and
Liver Pills, and now I have my health.

"If sick and ailing women would only
know enough to take your medicine, they
would get relief."—Mrs. BENJ. H. STAN-
BURY, Route 6, Box 18, Upper Sandusky,
Ohio.

If you have mysterious pains, irregu-
larity, backache, extreme nervousness,
inflammation, ulceration or displace-
ment, don't wait too long, but try Lydia
E. Pinkham's Vegetable Compound now.
For thirty years Lydia E. Pinkham's
Vegetable Compound, made from roots
and herbs, has been the standard remedy
for female ills, and such unquestionable
testimony as the above proves the value
of this famous remedy and should give
every one confidence.

the city, registered at the Empress
hotel.

Mrs. S. and E. E. Church are at the
Dominion hotel from Chelsea, Quebec.

Mr. and Mrs. J. Snider have arrived
at the Dominion hotel from Chilliwack.

A. Carbone, of Tacoma, has arrived
at the Prince George hotel on a brief
stay.

E. A. Gibbs is in the city from Van-
couver, a guest at the King Edward
hotel.

E. S. Clay is in the city from Win-
nipeg, registered at the Prince George
hotel.

C. E. Wood has registered at the
King Edward hotel from Wenatchee,
Wash.

Henry T. Graham and J. D. Reilly,
of Calgary, are stopping at the James
Bay hotel.

E. M. Manning, of Seattle, was in the
city yesterday, registered at the Em-
press hotel.

R. V. Harris is in the city from
Prince Rupert, registered at the West-
holme hotel.

H. M. Herrin is in the city from Se-
attle, and is making a short stay at the
Empress hotel.

Mr. and Mrs. W. C. Meagher are in
the city from Seattle, registered at the
Dominion hotel.

Mr. and Mrs. C. H. Shaver are in the
city from North Toronto, guests at the
Dominion hotel.

At the Westholme hotel is Frank W.
Wanstour, of Ashcroft, making a brief
stay in the city.

J. D. Pugh and son have arrived at
the Dominion hotel from Calgary. A.

H. Pugh, of Milverton, Ont., is with
them.

Mr. and Mrs. H. C. Cockedge are
guests of the Dominion hotel from
Whonock, B. C.

Mrs. E. D. Hatch, of Boston, has ar-
rived in the city and is registered at
the Empress hotel.

Mrs. E. A. Parkes, A. C. Ruth and
J. F. Little, of Vancouver, are guests at
the Empress hotel.

Mr. and Mrs. Fred Lillyman are in
the city from Seattle, registered at the
Prince George hotel.

Mrs. G. C. Clark, of Abbotsford, B.
C., is visiting Capt. and Mrs. S. Bal-
con for a few days.

Mrs. and Miss Knell are in the city
from Aurora, Ill. They are guests at
the Strathcona hotel.

A. B. Patterson, of Toronto, is mak-
ing a short stay in the city, registered
at the Empress hotel.

Edmonton people at the Strathcona
hotel include A. E. Macdonald and Mr.
and Mrs. F. Gregory.

Mr. and Mrs. D. W. MacGeorge are in
the city from Minneapolis, registered
at the Prince George hotel.

W. Cecil Payne, who leaves on
Saturday for the Malay Islands, is
staying at the James Bay hotel.

Mr. and Mrs. N. McNatt, of Port An-
geles, are here from across the Straits,
registered at the Westholme hotel.

Mrs. C. A. Nolan and Mrs. E. K.
Connelly have arrived at the Empress
hotel from Pittsburg on a short visit.

Mrs. J. L. Roe has arrived from
Cumberland, B. C., and during the next
five months will stay at the James Bay
hotel.

T. J. Lloyd and D. P. Lockhart are
here from Silvertown, B. C., and during
their stay, will be found at the James
Bay hotel.

Mr. and Mrs. C. M. Collins, Mrs. E.
A. Bennett and Miss Bennett are in
the city from Calgary, registered at
the King Edward hotel.

A brilliant military wedding took
place at All Saints cathedral, Halifax,
at noon to-day, when Miss Grana
Graham, youngest daughter of Justice
Bingay, of the Royal Canadian En-
gineers, His Lordship the Bishop of
Nova Scotia, performed the ceremony.

A. D. McRae's party, who are touring
the Island, include Mr. and Mrs. A. D.
McRae, of Vancouver; Mr. and Mrs.
Vere Brown, of Winnipeg; Mr. and
Mrs. C. W. Rowley, Mr. and Mrs. Ball,
of Winnipeg; Miss Swift, Chicago, Mrs.
Fernauld, Chicago; Mrs. Barrowes,
Providence; Mr. and Mrs. Tenny, Bos-
ton; and R. J. McRae, Toronto.

The Evening Chit-Chat

By Ruth Cameron

Once upon a time two women went
room hunting in a lodging house at a
certain summer resort.

At one house they were shown a
very pleasant room, neat, at-
tractive, well fur-
nished and fairly
reasonable in
price, and the
woman for whom
the search was
being conducted
seemed almost
persuaded. "I like
this room im-
mensely," she
said to the hos-
tes, who had
been unusually

succumbant and courteous in showing
the room. "I am almost sure I will
take it, but I must consult my hus-
band. I'll let you know by Thurs-
day."

That was Tuesday. On Wednesday
another room hunter came to this
house and fairly fell in love with the
room in question. She was told that
another party had the refusal of it.
She urged the hostess not to mind
that. "If you will only let me have
the room I'll take it to-day for the
whole summer," she promised. But
the hostess, being new at the busi-
ness, and having an unusual sense of
honour, said she must wait until she
heard from the other party.

Whereupon the applicant, not being
in a position to wait, went elsewhere.

That was two months ago. The
woman who had the refusal of the
room has not telephoned yet. Need-
less to say, she never meant to. In-
deed, she was scarcely out of ear-shot
before she confided to her companion:
"I knew that room wouldn't be big
enough, but she was so pleasant that
I didn't want to tell her that. I am
so sensitive."

"But won't you hate to telephone?"
inquired the companion.

"Oh, my dear, I shan't telephone her.
If she doesn't hear by Thursday, she'll
know I'm not coming. I wish I
wasn't so sensitive (with a smile that
showed how proud she was of just
that) but I simply can't bear to hurt
people's feelings."

Do you know what that woman re-
minds me of?

Of the kind of folks who are so
sensitive that they can't bear to
chloroform or otherwise dispose of
their pet cats, but are quite willing to
leave the poor creatures to shift for
themselves during the vacation months,
and probably be killed by dogs or die
of starvation or rabies.

You don't see the parallel between
the two? I do. They both display
that peculiar kind of tender hearted-
ness which makes its possessor cruel
instead of kind.

Do you know whose feelings that

woman was really afraid of hurting?
Simply her own. She didn't want to
make the effort of saying a firm, de-
cided "No," so she shiftlessly slid out
of the situation in that cowardly way.

When the fear of hurting anyone's
feelings makes you deceitful and blind
to their best interests, you may be
pretty sure that it's your own feelings
that you are really guarding.

Suppose a surgeon should look at a
mortifying finger and say: "I know
I ought to cut that off, because, if I
don't, the trouble will spread to the
whole arm. But I can't bear to hurt the
patient."

Suppose a doctor should say: "I
know that's the only medicine that will
cure the patient, but it's so bitter I
hate to ask him to take it."

The tender heartedness that is
straightforward, honest and true to be
kind, if necessary, is certainly a virtue,
but the sentimental, deceitful tender
heartedness that is kind and thereby
cruel, is very much nearer a vice.

Bricks are the most durable of building
material. The British Museum contains
sun-dried bricks taken from Nineveh and
Babylon.

Do you know whose feelings that

TEMPORARY RESIDENCE OF ROYAL VISITORS

Government House Has Undergone an Overhauling—Imposing Improvements

Government House, which will be the residence for the next week of the Duke and Duchess of Connaught, Princess Patricia, and those accompanying them, has been undergoing a general overhauling for the past ten weeks, and has at last emerged from the hands of paper-hangers, painters and decorators in a very much improved condition. Naturally gifted with the most beautiful surroundings and view across the Straits the fine building has not required much to be done to make its exterior features quite ideal, but for many years some of the rooms have not been repapered or painted and the improvements are quite noticeable, notably in the long drawing-room, where the decorators have been at work for many weeks. In addition to the fresh daintiness of the white walls and ceiling, the soft pale greens of the tapestries, carpet and curtains, some new pictures by de Woff and other artists of the Dutch school, have been added, and a handsome Heintzman grand piano. Possessing as it does fine long windows facing south and west, the room is one of the brightest in the whole building, and the beautiful pieces of cloisonne and the handsome inlaid tables are shown up to great advantage.

No changes have been made in the hallways, and very little in the dining-room—one of the most dignified-looking rooms in the building with its overmantel of carved oak, its crystal chandeliers, and the beautiful old English carved armchair and sideboard. The billiard room has undergone a transformation, and is the converted from a somewhat chilly and bare room into a cosy retreat which will be particularly comfortable in the winter months. The walls have all been finished in dark green with brown frieze, while a rich soft green carpet and corduroy curtains have given an air of great comfort to the room. The furniture is in the mission style, upholstered with brown leather.

Green is the prominent color in the smoking-room also, an additional touch of luxuriousness being the upholstered fender-stool. The greater part of the first floor will be occupied by the royal party and their immediate personal attaches, the ducal suite occupying the west wing. This has been beautifully decorated, and consists of two bedrooms and a dressing-room, and all the furnishings in which are of silver grey and wisteria, the carpets being of deeper mauve, and the curtains of a pale taupe color, while a very quaint set of Oriental china adds not a little to the charm of the furnishings. Adjoining the larger room, which will be occupied by the Duchess, will be her maid's room, while the room to be occupied by Miss Pelly, the lady-in-waiting, has a very restful scheme of color effected in Oriental hangings and rugs. The Princess Patricia will occupy the east wing, where rose-dun Barry forms the predominant color of upholstery, hangings and carpet. Miss Adams, the lady-in-waiting who was to have been in attendance on the princess, will probably not come to Victoria, so that the room which was prepared for her will not be occupied.

In addition to these, other rooms have been set aside for the aides-de-camp, while quite a bevy of attendants are also arriving with the royal party, and will, of course, stay at Government House. Two other aides-de-camp will stay at the Empress hotel, so that the royal party will not all make their headquarters at Government House.

JUVENILE DELINQUENTS' ACT.

The Attorney-General's Views on Suggested Amendment.

With reference to the suggestion recently put forward by Magistrate South of Vancouver to the effect that

the Juvenile Delinquents' act should be so amended as to permit police magistrates to commit boys and girls up to and including the age of eighteen years to the detention home instead of to the jail, Attorney-General Bower points out that such a change in the law could not be made by the provincial legislature without the acquiescence of and co-operative action by the department of justice at Ottawa, inasmuch as it would involve alteration of the criminal law. Moreover, in the attorney-general's view, it is a matter which will stand a good deal of thinking about before any action is taken. There may be a difficulty in dealing with incorrigible boys or girls of eighteen years of age or thereabouts, but on the other hand it is very questionable whether it might not work serious moral injury to put them in the position where they might contaminate younger delinquents.

LOCAL NEWS

County Court.—There was no sitting of the county court to-day. The cases on the peremptory list for tomorrow are: Barkley against Ferris, and Canadian Explosives against Loo Gee Wing.

Stolen Fowl.—Detective Heather yesterday afternoon arrested a man named Greegan who had in his possession four white leghorns. He told the detective that he did not know where he got them and admitted that they did not belong to him. He is being held by the police pending inquiries. Any person whose fowls are missing is requested by Inspector Perdue to visit the detective office and examine Detective Heather's collection.

Sale of Work.—Triumph Lodge, I. O. G. T. held a successful sale of work yesterday afternoon at the Soldiers and Sailors' Home, Esquimalt, in honor of the Bishop of Columbia opening the proceedings and presenting the silver medal and other prizes given for the best essay on "Scientific Temperance." The competition, which was a provincial one, reflected great credit on Victoria, where four children won prizes. The Bishop, in giving the prizes, paid a glowing tribute to the great work which was being done by the Good Templars all over the world. William Booth, grand superintendent of the Juvenile work, moving a vote of thanks to the Bishop. Others who took part in the proceedings were Rev. Raugh Allen, Rev. J. P. Hicks, Rev. C. M. Tate, and Rev. Mr. Gladstone. Those who assisted at the sale were Mesdames Filler, Watson, Hicks, Parkington and Nicholson, a very successful sale being realized. Following the afternoon tea a concert was rendered, this commencing early in the evening, among those who assisted being Mrs. and Miss Parsons, Mrs. Tickner, Miss Palmer, Miss Sherett, Miss Nicholson, J. M. Thain, Metropolitan, Main Quartette, Rev. Raugh Allen, J. G. Brown and Mr. Morrison.

Mr. and Mrs. Albert Wyde have returned to town, and are now stopping at 1945 Fort street.

Roy M. Wellwood left last night for Indiana to attend the Tri-State College of Engineering.

F. E. Simpson, of Kamloops, arrived in the city this week, accompanied by Mrs. Simpson, Donald D. Simpson, their son, and Mrs. W. E. Phelps, mother of Mrs. Simpson. Mr. Simpson has just had his home completed at No. 1629 North Monterey, Oak Bay, and will become a resident of Victoria.

The Connaught Dancing Club will hold the first of a series of 6 dances on October 13 at the Connaught ball room, View street. Miss Thain's orchestra has been engaged for the event. The dance will be under chaperonage of Mesdames Robertson, Thomas, Pooley, Wilson, Bowker, Musgrave, Montith, Holmes and Stevenson.

AUSTRALIA AND NATIONAL DEFENCE

Premier Fisher Declares Common Imperial Scheme is Essential

London, Sept. 25.—According to the Daily Mail's Melbourne correspondent, Premier Borden's speeches as reported there propose to offer three Dreadnoughts to Britain. This has aroused much attention in Australia, where there is a genuine dread of the growth of Japanese influence in the Pacific, though little is said on the subject because Japan is Britain's ally. Australian feeling is strong that Australia should prove her readiness to play her part with New Zealand and the United States in policing the Pacific.

Mr. Fisher, the Labor Premier of the Commonwealth, in an interview said that opinion is undoubtedly consolidating on the question of national defence for which a common Imperial scheme is essential. "But Australia must be left to develop her own defence," he added. "I cannot yet see the advantages of the existence of an Imperial defence council of overseas representatives who would sooner or later get out of touch with the people they represented and become only dead channels through whom the policy of their governments would imperfectly flow. I believe the better plan would be to hold biennial personal consultations with British naval and military authorities, in the same manner as was done last year. That would keep life in a common scheme of Imperial defence."

SIR D. MANN ON HUDSON BAY LINE

Believes It Will Become Important Trade Route to Old Country

Winnipeg, Sept. 25.—Sir Donald Mann, vice-president of the C. N. R., who is now visiting Winnipeg, spoke at some length concerning general railway questions. Of the Hudson Bay railway, he said there was no doubt that it would become an important trade route to the Old Land, and might derive added revenue and considerable importance from the extensive fish trade that could be developed. He thought, too, that it was quite likely valuable stores of mineral wealth in the north country would be discovered, which would exercise an important influence in upbuilding the railway and the country.

"However, I think it well," he continued, "that such a road as the Hudson Bay road should be built by the government. While its advantages to the country can hardly be questioned, it is too uncertain as far as profit is concerned for a private company to undertake. We had our choice whether we should build the trans-continental or north to Hudson Bay. We deemed the trans-continental road of greater importance."

In regard to the suggestion that the Hudson Bay road should be operated by electricity, Sir Donald Mann said he considered such an undertaking would prove unprofitable. "It is well-known," said Sir Donald, "that unless you have a dense traffic electricity is much more expensive than steam. There is no mystery about the reason. For electrically-operated trains, a constant stream of electricity running at times when trains are running is required, and this makes an expense only justified when the traffic is heavy. Electricity is all right for terminals. It is more expensive than steam, but smoke is done away with, however; it is usually more profitable to sell power for other purposes than to use it in terminals."

"We have no intention of using electricity for train operation in our terminals," Sir Donald Mann reports satisfactory progress on the tunnel through the mountain at Montreal. It will be done in two years, he thinks. At the west portal 85 feet were drilled last week and 83½ the week previous. It is not possible at the other portal to blast and dig in the night time because there are houses above the tunnel, so progress at that end is not quite so rapid.

Many difficulties in the way of rapid railway construction, says Sir Donald, have been met this year. Rain has made it impossible to lay steel in many places, and where it has been possible to lay steel it has not always been possible to run traps over the unstable roadbed. The tracks laid can be used to facilitate ballasting and that is all.

Sir Donald met in conference this morning C. A. Buchanan, of Glasgow, and J. G. Russell, of London, brokers for the Canadian Northern in Great Britain. Mr. Buchanan and Mr. Russell, accompanied by their wives, have made a tour of the west as the guests of the Canadian Northern. The purpose of their tour, it is stated, has been to have demonstrated to them the possibilities of Canada as a whole, rather than to further any specific interest. Mr. Buchanan and Mr. Russell are returning east to-night delighted beyond measure at what they have seen in the west, while Sir Donald Mann departs in the opposite direction to inspect progress in the west.

Guelph, Ont., Sept. 25.—Wm. Bell, aged 82, founder of the Bell Piano Company, was found cut to pieces on the Grand Trunk Railway tracks near Guelph this morning. He had left home with the intention of proceeding to Toronto.

Cornish Evangelist—William Sampson, the Cornish evangelist, is staying at "Pendarvis," Cadboro Bay, and after visiting Ladysmith and Nanaimo intends to return to England via Calgary and Winnipeg. He has held successful services at Vancouver and New Westminster.

MINERS CONFIDENT THEY WILL WIN

Strike Leaders Declare Company Will Be Forced to Grant Their Demands

Bingham, Ut., Sept. 25.—Hopes of the copper miners, on strike here, for a speedy settlement, are stronger to-day than at any previous time. According to the leaders they are pinning their faith on proving themselves so completely in command of the situation that the operators will be forced to terms.

J. E. Fredericks, representing the Railway Switchmen of America, arrived here to-day with the announcement that his organization had voted active aid to the strikers. Heretofore the switchmen have taken a neutral stand. The switchmen, it is said, will help greatly to tie up railroad operations if an attempt is made to break the strike.

From President Moyer of the Western Federation of Miners, J. C. Lowmyer received a telegram to-day to the effect that the smeltermen and miners in Nevada would give any aid desired by the Bingham union. Efforts were resumed to-day by A. L. Wilde, in charge of the strikers at Salt Lake City, to obtain a conference with D. C. Jackson, general manager of the Utah Copper Mining Company.

OBITUARY RECORD

The death occurred Tuesday at the Jubilee hospital of Susan Elliott, beloved wife of T. J. Elliott, of 119 Cambridge street, this city. The funeral services will take place to-morrow at 2 o'clock from the family residence to Ross Bay cemetery. Mr. Balderston will conduct the services.

The death occurred last evening at 10:45 of Lockley Jones, of 1733 Unit street, who was found by his son in a semi-conscious condition on the veranda of a residence on Fernwood road, near Gladstone avenue. Dr. Bapty was summoned at once, but life was already extinct, and a bottle containing a small quantity of port wine which was found seemed to give a clue to the cause of his death. Funeral arrangements, which are in the hands of Messrs. Sands & Fulton, have not yet been completed.

The death occurred yesterday morning in the city of Florence Ruth Secret, the four months' old daughter of Mr. and Mrs. Walter E. Secret, 437 Belleville street. The funeral will take place to-morrow morning at 10:30 from the above residence. Rev. Gilbert Cook officiating.

Your Dinner Party

ARE YOUR TABLE LINEN
APPOINTMENTS COMPLETE

We are displaying in our windows and Staples department an exceptionally fine line of pure Irish Table Linen. Our stock of linens has always represented unique values—but this new lot is of especially high quality and may be said to surpass anything of the kind in Victoria.

No doubt you are planning a number of charming dinner parties for this week, and probably are considering the purchase of Table Cloths, Serviettes or Doylies and Mats. If you are, remember that Gordons is the proper place to buy them. Fresh from the cases, our present assortment of hand-embroidered linens is sure to please the taste of the most fastidious.

In beautiful patterns of orange blossoms, fleur de lis, shamrocks, eyelet, English rose and American Beauty.

Exceptionally high quality Tray Cloths to match all patterns of tea and table cloths. Sizes 13x20 to 20x30, nicely boxed, 75c to **\$1.50**

Hemstitched, Hand Embroidered, Drawn Thread, Pure Irish Linen Tea Cloths, nicely boxed, in squares of 36 in. to 54 in., \$3.00 to **\$15.00**

A pretty line of Round Table Centres, scalloped edges, hemstitched and embroidered, several sizes, \$6.00 to **10.00**

Very special values in Table Centres, hand embroidered, with Irish and crochet lace borders, various sizes, \$2 to **\$10.00**

Round Doylies to match, 6, 8 and 10 inches in diameter, 75c to **\$1.50**

Tray Cloths to match, sizes 13x20, 18x27, 22x32, \$2.75 to **\$4.50**

HIGHLANDS

"WITH A GLORIOUS VIEW"

When His Royal Highness the Duke of Connaught Visits Victoria

This week he will see a city that has changed remarkably in a few brief years. But, when he comes again, a year or so hence—as we hope he will—he will see a city that will have changed even more remarkably, even more wonderfully. Victoria is growing every day. We who are so close to it lose the perspective. We cannot see the gradual but steady transformation that is going on from week to week. But outsiders can see it; outsiders are seeing it and outsiders are sitting up and taking due notice of it. Nowhere is the development going on more rapidly or more completely than at Cadboro Bay. It's there that "Uplands" is situated, and it's there that "Highlands" occupies the premier position as a medium priced scenic property. You cannot go wrong in buying now at Cadboro Bay. You cannot go wrong in buying no win "Highlands," because no other property begins to have its features and outstanding advantages at anything like so low a price.

The thousands who will flock to Victoria with money in their pockets, seeking desirable homesites, will be attracted by Cadboro Bay with its glorious beach, its placid surface, its picturesque shore line. They will demand the wonderful view out across the Gulf to the far Olympics and gleaming Mount Baker. They will buy lots in the present "Highlands" because of these things and because the lots are large and magnificently treed, and because there is plenty of good water and good soil and no rock, and because the lots are high above mist and fog, and because the view takes in not only the general scenery of Bay and Gulf and Mountain, but the adjacent landscape also, and further because the lots are near Cadboro Bay road and the street car line.

IF YOU BUY IN "HIGHLANDS" NOW YOU WILL BE IN A POSITION TO COMMAND A GOOD PRICE AND MAKE A BIG PROFIT

Motors at any time without cost to you—see these lots to-day

DELEGATE REPORTS ON GUELPH CONVENTION

C. Sivertz Carries Through
Four Resolutions—An Im-
pression of Progress

At the meeting of the Trades and Labor Council last evening, Delegate Sivertz presented his report on the Guelph convention of the Trades and Labor Congress of Canada.

He spoke of the success of the gathering, and of the presence at the convention of J. Keir Hardie, M. P., and Sir George Asquith, the latter of whom was in Canada studying conciliation matters. The convention, however, reaffirmed its stand taken at Calcutta, and the Minister of Labor, Hon. T. W. Crothers was also a visitor. The nomination of James C. Watters as president for a second term was seconded by Mr. Sivertz, as a Victoria man. The vote in favor of going to Montreal for the next convention was only carried by 86 to 96, given for Mr. John, N. B. Mr. Sivertz congratulated the local bodies in Guelph on the arrangements made for their entertainment, and on the way in which these were carried out.

Delegate Sivertz got through four resolutions, dealing with an international interchangeable card for union men, more maintenance of way men on railways to prevent accidents, weekly payment in legal tender of workmen in government work and condemning military training of children as represented in the Boy Scout and Cadet movements.

The convention also condemned F. H. Scullin and the Canadian Industrial Peace Association, in commenting on the usefulness of the convention, and its attitude to labor, Mr. Sivertz well says: "The attacks on the Congress can be condensed down to a duel between the school of thought between two forces. One reflects that progressive spirit which realizes the ever changing conditions in the surrounding of the worker, and seeking to shape our methods so as to make them adaptable to new environments, created from time to time by the evolution

of industrial progress. The other is that state of mind which glorifies in the achievements of the past, with face turned to the fading afterglow of a day that is no more, failing to see the new conditions created by a new day, and would have our organizations and their methods conform to a rigid line of action."

ATTEMPTED VANDALISM.

Caretaker Has Trouble With Children—
Carelessness With Matches.

From time to time the school board is called upon to protect the school buildings from damage. Another case is reported from the Victoria West school last evening, the caretaker interrupting a number of boys trying to throw stones through the windows.

The attention of the police is to be called to the incident, as well as to the danger of fire at the manual training department of the Central schools, where there is a valuable assortment of tools belonging to the instructors. Children frequently get possession of matches, set fire to paper and shavings outside, and the school authorities fear the result will be serious some day. An example will be made of the offenders when caught.

CROWN'S ATTITUDE.

In the Libel Suit of Hammond v.
Fort George Herald.

Some misunderstanding appears to exist as to the position taken by the Crown in the criminal libel suit brought by George J. Hammond, president of the Natural Resources Security Company against the Fort George Herald, or rather against its proprietor, J. B. Daniell. It is not the custom of the Crown in British Columbia to interfere in criminal libel actions, the attorney-general conceding that these should properly be left to be fought out between the parties directly interested. In this instance, however, the proceedings had reached such a position that there was danger of the case being dismissed without a hearing and as that might have worked substantial injustice, the Crown did intervene so as to see that an indictment was procured. From this stage onward, however, the attorney-general's department has been taking no further direct interest in the matter, and while counsel for the prosecution is nominally acting for the Crown, he is really acting for and

being paid by the original complainant. The intervention of the Crown makes it, however, impossible for the defendant, should a verdict be given in his favor, to recover his costs.

HOTELS ARE TAXED TO UTMOST CAPACITY

In Spite of New Buildings
Opened Pressure Is Acute
Again This Year

Never have the hotels of Victoria been taxed to their capacity as they are at the present time. Country visitors are in for the exhibition, and the visit of the royal party, and although the accommodation in hotels and rooming houses has greatly increased in the past twelve months, the space available in the leading hostilities has proved inadequate to take care of the travelling public.

Every leading hotel and rooming house was full last night, and the clerks were turning people away. The same story came from each in turn, and the Empress, Dominion, King Edward and the newer hotels were all putting cots in rooms, or sending their guests to other hotels. One night this week the Dominion turned away sixty people.

Since the last provincial exhibition the new hotels in operation like the Prince George, Strathcona and James Bay, and rooming houses like the Ritz, and Bellevue have been opened, as well as the wing of the Empress hotel, representing between four and five hundred extra rooms in good class buildings of this character.

The St. James hotel will be ready in a month, and a new hotel is also spoken of for the corner of Government and Courtenay street, where Victoria's first brick hotel was constructed in 1859, and where the Windsor now stands. Apartment houses galore have been erected since the last exhibition, and they are also receiving their share of extra patronage due to the pressure on accommodation elsewhere.

Cocoyut shells make excellent fuel, especially as firelighters, the enormous amount of oil they contain causing them to blaze up at once.

The Man Who Keeps His Head Is The Man Who Makes the Money

It's a fact and everyone who reads this knows it. Good, live real estate will increase your bank balance any time. The only condition is that you keep your head and avoid the whirlpools of UNCERTAINTIES.

Mt. Tolmie Park Estate

Is a "live" certainty that you can bank on with all the assurance in the world. It is selling rapidly to good people of the class who will build homes and improve the property. There are a number of delightful homes already built and many others are in course of construction. The lots are grassy lots without rock. They are level and easy to build upon and there is an abundance of pure, cold water. The view takes in the new Mount Douglas Park and the valley. Streets are 66 feet wide and well laid out.

Street railway activity is greater now than ever before. Big things may be expected in the way of car line extensions. Look for an early announcement of an extension of the present Mount Tolmie car line to the new city park at Mount Douglas. And when that comes, don't look again for such low prices and terms in "Mount Tolmie Park Estate," because there will not be any.

U. S. NAVY MAY USE ALASKA COAL

Engineers Are Investigating—
Coal Land Cases to Be
Heard at Seattle

Washington, D.C., Sept. 26.—Hearings on many cases involving valuable coal lands in Alaska will be held at the Seattle land office in October. They involve questions of priority agreements, alleged dummy entries and non-opening and non-development of coal mining lands. The cases eventually will reach the general land office here for final action.

The Hunt group of coal land claims, known locally as the Lippy-Davis cases, adjoining the Cunningham claims in the Behring river district of Alaska, will come up before Commissioner Bennett here for final action in three or four months on appeal from the Juneau land office. The coal operators in that group are said to be stockholders of the Alaska Petroleum Company prospecting in that section.

Many acres of waterfront on Contoller Bay are owned by a company said to be subsidiary to the petroleum concern. Under a congressional appropriation of \$75,000 the bureau of mines is in close touch with the general land office, investigating engineering questions in Alaska in connection with the proposed opening of mines there for naval purposes.

GOLD STRIKE NEAR NOME.

Nome, Alaska, Sept. 26.—A rich strike of placer gold has been made on Boulder creek, six miles from Nome. The ground yields \$250 to the pan. There is great excitement, for it is believed an extension of the third beach line, which yielded so many millions of dollars, has been discovered.

TURKS AND BULGARIANS CLASH.

Sofia, Bulgaria, Sept. 26.—Another encounter between the Turks and Bulgarians is reported to have occurred near the Hamamburnar post.

AVIATOR FALLS TO DEATH.

Turin, Sept. 26.—Lieutenant Regazzoni, while piloting a new aeroplane, fell 300 feet. He was crushed to death under the wreckage.

**APIOL & STEEL
PILLS**

PRACTICAL JOKE OF TWO PRINCES

Plaster Churchill's Door and
Royal Autos With Suf-
frage Notices

London, Sept. 26.—And now royalty has begun perpetrating "suffragette outrages," it leaked out to-day. The King's sons, Princes Albert and Henry, are the two miscreants. The incident happened just after some one looted the red flags from the golf course at Balmoral and left purple "votes for women" flags instead. That was bad enough, but how much worse it was when similar posters were found a day or two later plastered on the door of the guest-room of Lord of the Admiralty Winston Churchill, who was visiting at Balmoral Castle at the time. Likewise there were other posters on all the automobiles in the royal garage.

The Queen was furious. She suspected the servants, and started a rigid investigation. It took a week of sleuthing to run down the real culprits—the two young Princes. They didn't really sympathize with the "votes for women" campaign, they said, when they were cornered. They only did it for fun, and begged to be forgiven.

As there was nothing else to be done, the royal clemency was finally extended. The Queen compelled both Princes to apologize in person to Mr. Churchill, however.

DIES FROM INJURIES.

Moosa Jaw, Sask., Sept. 26.—Fred Coleman, a C. P. R. coach cleaner, stepped out of the way of a train yesterday afternoon only to be knocked down by another. The buffer of the engine broke his back. He lived two hours and received a visit from his wife before he died in the City hospital. He was about 45 years of age and leaves a family.

FEDERALS ROUT INDIANS.

Oaxaca, Mex., Sept. 26.—After a sharp fight with a squad of Indians at Huayapan, near Oaxaca, General Rivera, commander of the federal forces, reported that the bodies of 32 Indians were found on the field. General Rivera gives his own loss as two killed. The Indians were driven from the town.

VICTIM OF AUTO WRECK.

Spezia, Italy, Sept. 26.—William Marconi, of wireless fame, was injured yesterday in a motor car accident near Borghetto, in the valley of the Vara River. He was brought back to this city suffering from a wound on his right ear and his temple was badly bruised.

EMIGRATION FROM UNITED KINGDOM

During the Month of August
17,667 Persons Sailed
for Canada

London, Sept. 26.—During the month of August 38,737 residents of the United Kingdom emigrated, 28,770 to the British Dominions, including 17,667 to Canada, 6,508 to Australia and 2,334 to New Zealand. For eight months of the year Canada received 114,000, or 2,000 less than in 1911; Australia received 42,000, or 14,000 more than in 1911; New Zealand received 6,000, or 3,000 more than in 1911.

E. & N. Progress.—H. E. Beasley, superintendent of the E. & N. Railway, stated this morning that excellent progress was being made with the new branch line towards McBride Junction, while the right-of-way on the Court-enay is being proceeded with rapidly. Tenders have been invited for the grading and bridging of the Comox Extension, and these will be received up to the tenth day of next month. The Cowichan Lake Extension is completed, and work is now being conducted in clearing the right-of-way of logs, etc.

Britain holds the honor of having first formed societies for the prevention of cruelty to animals, and of having first legislated for punishment to offenders.

ADVERTISE IN THE TIMES

BOWELS SLUGGISH, STOMACH SOUR, GASSY, UPSET? CASCARETS GREAT!

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means your stomach is full of sour bile—your liver is torpid—your bowels constipated. It isn't your stomach's fault—it isn't indigestion—it's biliousness and constipation.

Try Cascarets; they immediately sweeten the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter from the bowels. Then your stomach-trouble is ended. A Cascaret to-night straightens you out by morning.

10 Cents. Never grips or sickens.
"CASCARETS WORK WHILE YOU SLEEP."

WARNING
TO CONSERVATIVES

SIR RICHARD McBRIDE

British Columbia Dishonored

Premier McBride, Minister of Education, gave the following official evidence (B. C. Journals, 1910):
Q.—Did the letter sent in August 1908 to the chairman of the Spallumcheen School Board contain these words: "With reference to the awarding of the Governor-General's medals, I beg to say that these are offered to pupils of schools where there is a high school established. Armstrong and Golden are the only points outside incorporated cities where these medals are competed for." A.—Yes.

Q.—Whose signature was attached to that letter? A.—That of the superintendent of education.

Q.—Did Ladysmith get a medal in 1906? A.—Yes.

Q.—Did a high school been established there then? A.—No.

Q.—Did Chilliwack get a medal in 1906? A.—No.

Q.—Had a high school been established there for several years? A.—Yes, since 1903.

Q.—Did Ladysmith get a medal in 1907? A.—Yes.

Q.—Did a high school been established there then? A.—No.

Q.—Did Chilliwack get a medal in 1907? A.—No.

Q.—Had a high school been established there for several years? A.—Yes, since 1903.

Q.—Did Kelowna get a medal in 1907? A.—Yes.

Q.—Had a high school been established there then? A.—No.

Q.—Did Ladysmith get a medal in 1908? A.—Yes.

Q.—Had a high school been established there then? A.—No.

Q.—Did Chilliwack get a medal in 1908? A.—No.

Q.—Had a high school been established there for several years? A.—Yes, since 1903.

Q.—Did Cumberland get a medal in 1908? A.—No.

Q.—Had a high school been established there for several years? A.—Yes, since 1902.

EARL GREY DISHONORED

Earl Grey in 1906 very generously increased the number of bronze medals from 4 to 15. That year the department awarded one of those 15 medals to Trail where there was no competition whatever, and the solitary pupil to whom the medal was given had only 634 credit marks; another medal was given to Vernon, where the best pupil had only 609 marks; but NO MEDAL was awarded to the city of Enderby where six pupils passed the entrance examination, and its best scholar with 842 credit marks headed the whole province.

VICTORIA PUPIL DISHONORED

The education department deprived Anton Henderson of all the marks he had earned for his drawing book work at an entrance examination because of alleged ruling where no ruling should be. His Honor Judge Lampman after a most searching investigation informed the McBride government that there was "NO RULING" in that book.

VICTORIA CITY DISHONORED

The name of the late AGNES DEANS CAMERON, a native citizen of Victoria, did not appear on the list of certificated teachers in the last Public School's Report published by the McBride government.

FOREARMED

The Tables "A" and "B" for 1912, which have been compiled from the results of the recent entrance examinations, published by the Education Department, are placed before the people to give them an idea of what districts are fairly entitled to get H. R. H. The Duke of Connaught's bronze medals this year.

Table "A" shows the school districts arranged in order of excellence in scholarship, from the one that had the best scholar in the Province down to the lowest district that had the honor (?) of getting a medal in the past six years.

Table "B" shows the school districts arranged in order according to the amount of competition at the entrance examination. The number before the district indicate the amount of competition. The number after the district in each table is the number of credit marks obtained by the best scholar in the district.

In each table the twenty districts in capitals have had a medal at some time during the past; the other districts have never yet had a medal.

On behalf of the Pupils of the Public Schools.
Sandwich, B. C., Sept. 21, 1912.

THE AUTOMOBILE IN AND AROUND VICTORIA

MARINE DRIVE

B.C. ENG. CO.

A. E. Todd, president of the Victoria Highway Association, has received a letter from W. J. Kerr, president of the Dominion Highway Association, who writes from Hamilton. The letter contains much useful information about existing conditions in the east, particularly in regard to the roads and crops. Mr. Kerr says in part:

"I expect to be in Winnipeg in about ten days, which will give me considerable time before the convention. I should like to hear from you as soon as possible regarding suggestion as to the city in which to hold the next convention. My reason for this is that the Pacific Highway Association convention will be in Vancouver in August, and to hold the Canadian Highway Association in Victoria would make it look as if the Pacific coast was running the highway association to suit themselves, and we must get the eastern people waked up as to the need of good roads."

"This time of the year is a good one in which to hold a convention, because one sees the need of good roads for the farmers to get their early wheat to the elevators. I believe it will be almost impossible to get a great deal of the wheat to the elevators this year in time to ship before the close of navigation."

"The roads in Manitoba, Alberta and Saskatchewan, as yet, are only trails, and most surprising to me are the roads of Ontario, which I have been over and which have not improved one iota since my grandfather settled close to Toronto, which was a good many years ago."

"The soil in this vicinity is a stiff clay. It would be very suitable for making bricks, and when it rains this clay sticks to the wheels and goes around with them. They have very few gravelled roads as yet, and I have seen but little crushed rock, and no macadam. The city streets are, of course, paved. I have not gone into the matter of what kind of pavement they have used, but it is wonderful to

resent coarse language and epithet when applied by others.

If you sit at a wheel, you cannot afford to lose your temper. All of the nerves you possess should be used in carrying your machine through to safety.

As to stinging somebody up with a few hot words, that is a thing of the past. The traveller now no longer considers himself a section of the Day of Judgment.

We used to talk about the dangers of travel; now we are beginning to understand Aristotle's dictum to Alexander the Great: "The enemies of an army are in its own camp."

A man's enemies are in his own heart; his enemies are his limitations, his impatience, his hot haste, his desire to get even, his fear of being injured or defrauded.

Well has it been said: "There is no devil but fear."

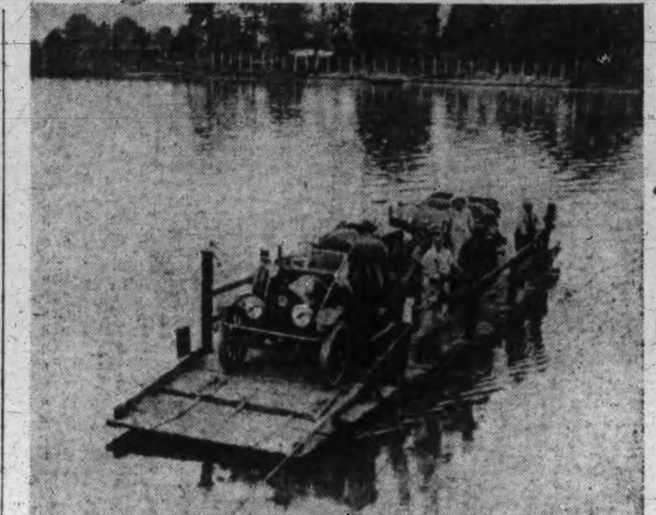

There is something heroic about having 60 horsepower at your finger tips, or reached by the pressure of the foot, and yet never using this power to the limit. About it there is a quality that makes you proud and gives a dignity which men without power never possess.

It so happens that the running of an automobile with this tremendous power within your reach tends to give a sort of freedom from all little perplexing cares.

If a teamster blocks the way unnecessarily, you do not roar at him; but, if possible, you catch his eye, smile, wave your hand, and he gets the idea and partakes of this spirit and responds.

The automobile clubs all over the country undoubtedly have done much to make peace between the man who hasn't an automobile and the one who has.

For a while we had a beautiful contempt for the man with a machine, and we spoke of the red devil, having the chauffeur quite as much in mind as the machine.

VICTORIANS CROSSING THE LEWIS RIVER IN SOUTHERN WASHINGTON.

the economic employment of the more staple product.

Monopoly Grips.

That may be characterized as the beginning of a colossal error which has resulted in the motorist being in the grip of a monopoly, which he can only help repair by the use of another fuel.

A part remedy is the use of paraffin. It can be reasonably argued that if everybody should take to using paraffin that the price will increase as it has done with gasoline, but never to the same extent.

One of the principal drawbacks, it has been claimed, against the use of paraffin, was the absence of a device in pleasure vehicles to start the engine when it was cold, but the universal use

cussion at the meeting the other evening regarding the high prices of gasoline. It seems to me that those interested in this matter could well afford to raise enough money to hire a chemist familiar with the gasoline question to come to this province and look over the large forests and see if it would not be possible to utilize some of this timber for oil purposes.

Certainly gallons upon gallons of turpentine could be taken from the forests, and if nothing more than this could be obtained, it seems to me that it would be money well expended to have a chemist investigate the question and make a report. I have no doubt that the citizens of British Columbia do not fully realize all of the resources of which they have possession.

for taxi-cabs to be hired at a reasonable price has led to the extended use of private vehicles instead. Touring on a large scale is impossible, owing to the absence of good roads, but everywhere I found the desire to tour and efforts being made to find out where touring could take place.

"And last, but not least, there is a great lack of reliable information as to the country as a whole, and no good maps are yet available for use except of districts near the larger towns. The official Blue Book published in New York, is the best guide as regards road information, but, naturally, a continent 3,000 miles east and west by 2,000 north and south, has not been yet charted or explored from a road point of view."

Road Information.

"But road information and other requisites of touring are steadily growing, and before long touring in America in a motor car will be as common as it is in Europe. So far, automobilism in American and Canadian cities has had to fight an uphill battle against the strong influence of the tramway, which, in some cases, is not only urban, but suburban, and even rural in character. Tram cars go into districts far beyond the suburbs, and in many cases along roads which are almost impassable for other vehicles. In fact, the tramways are really ordinary electric railways in most cases, and their monopoly hitherto of transportation is difficult to break down. In course of time, no doubt, these conditions will change, and highway authorities will make these railways do their duty and carry out the terms of their contracts as regards road repair, for at present a great deal of the badness of urban and suburban roads is due to the street railways, and in time the motor omnibus will come as well and then the fun will begin."

TOURS FOR THE LAW

The German Auto League and the Berlin Automobile Club are joining forces to conduct a series of so-called "information tours" for police officers,

AMONG THE NEW MODELS

Each year has its quota of favorite auto cars, and this is no exception. Among the many models for 1913 at the Canadian National Exhibition, none attracted more attention than the Russell "30." Many new and exclusive features have combined to make this 1913 model an advance on previous years.

The "30" body lines are simplified in longer, more graceful curves. There are no projecting door handles or outside horns. Motorists will appreciate this feature which alone saves much time in the attention necessary to a car.

SCOTTISH AUTOMOBILE CLUB

The annual dinner of the Scottish Automobile Club was held recently in the Grosvenor restaurant, Glasgow. The president of the club, the Right Hon. Sir J. H. A. Macdonald, lord justice clerk, occupied the chair. His Highness the Duke of Teck, chairman of the Royal Automobile Club, was the guest of the evening.

The Duke of Teck submitted the toast of "The Scottish Automobile Club," and recalled that on two similar occasions his late brother was the guest of the club. On the last occasion his brother was present at the dinner he initiated the discussion of details with the office bearers on his proposition for the sign-posting of the Great North road between London and Edinburgh. That useful scheme had since been completed, and he looked upon it as an enduring memento to his brother's work for the automobile movement.

Few movements, His Highness continued, had recorded such amazing advance and development in a very few years as that relating to power traction on the roads. Much of the credit of that advance was due to the disinterested enthusiasts who individually and through clubs and organizations devoted their time and means in no

FRENCH AUTOMOBILE ROAD

The French Touring Club has brought forward a plan for a most imposing automobile route, viz., a motor car road, 600 kilometres (375 miles) long, from the Lake of Geneva through the Western Alps to the Riviera, with Nice for its terminus. From the Lake of Geneva the road will have to pass through the three Alpine passes at the Drance, the Arve, and the Isère valleys, and thus touch some of the most beautiful parts of the Alps. At a height of 9000 feet it will pass the Col d'Iseran, and through several additional passes it reaches the Var Valley, which it follows for about 60 miles as far as the Mediterranean. Great portions of the proposed route already exist, whilst other parts of the road must be improved or constructed, the cost being calculated at some £160,000.

SPEED AT NIGHT.

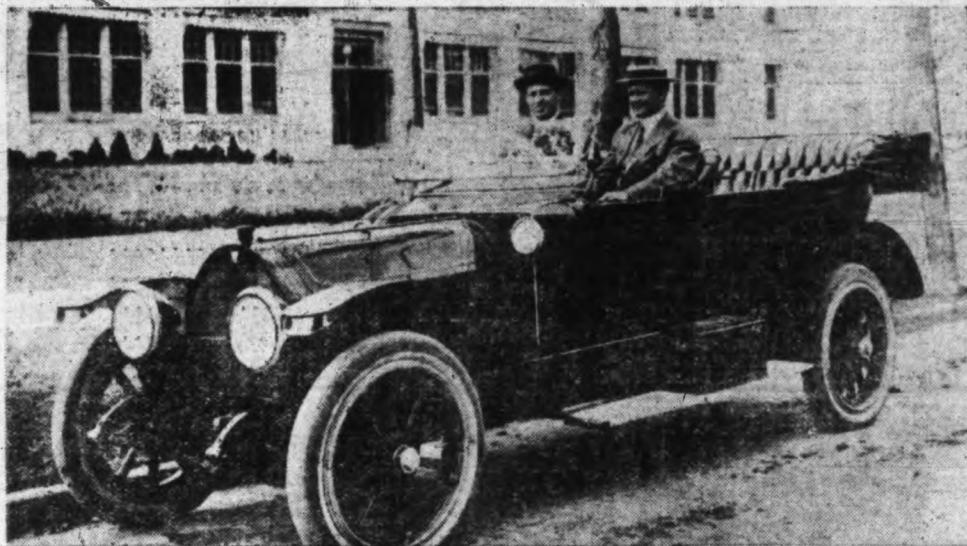

During the last few months there has been reported a series of lamentable accidents, the nature of which seem to indicate that some motorists fail to realize the absolute necessity for great care and caution with the average lighting system.

Exactly what is a safe minimum of speed will depend on the lighting system. How far ahead do the lights show? This is a feature the average motorist will do well to consider.

The 1913 Russell has an electric lighting system that shows up the roadway for 300 feet ahead of the car. This makes travelling at night exceedingly safe.

SWITZERLAND'S CRUSADE

The unaccountable crusade against motor vehicles is still going ahead merrily in Switzerland, spite of the fact that the touring season with its influx of money and visitors is approaching. The latest stand is being made in the Canton of Glarus, the people of which have petitioned for a total prohibition of motor traffic throughout the

BERT DINGLEY (at wheel) AND GEORGE SALZMAN, FAMOUS RACING DRIVERS IN THE BIG NEW 54" HUDSON.

think of the country with almost every acre under cultivation and raising crops, with not a gravelled or crushed rock road (with the exception of a few trunk roads) in the whole expanse.

"In the city of Hamilton, there are probably about one thousand wagons loaded with fruit every day coming from a distance to the market. These people cannot put a full load on, but must come in with a small load on account of the conditions of the road. They cannot run gasoline trucks because the roads are not in a fit condition to do so, therefore the cost of bringing their produce to the market could be reduced about one-fifth if they had good roads, but they do not seem to take much interest in the movement. They seem to have the idea that the roads which they have at the present time were good enough for their forefathers and should be good enough for them. The people of the prairies are far more interested in good roads than they are in Ontario."

COURTESIES OF THE ROAD

Says Elbert Hubbard: On a recent trip of about 300 miles through the middle states by automobile I noted the uniform good nature, patience and courtesy of the automobile drivers.

Before the days of the Hepburn bill we had a fine phrase, to wit: "The Courtesy of the Road." This meant a railroad pass. The tendency of the times wiped out that particular kind of "courtesy," and now the term means simply the good will which gentlemen always manifest toward each other when they meet.

Six years ago the automobile was a plaything. Men who drove a machine were more or less heroes; also more or less brigands. The spirit of the lark-in and the hoodlum sat at the wheel. If a farmer did not get out of the way quickly enough there were shouts of "Clear the track!" "Don't you know anything?" "What's the matter with you?" "I will take a wheel off you next!"

It is the rule now of the good autoist never to use such language, nor even

SHORTAGE OF GASOLINE

One of the questions which is now agitating the English motor world is the high cost of gasoline, or petrol, as it is called on the other side of the Atlantic. Experiments have been made with a percentage of the internal combustion engines in England with a pure grade paraffin and it has been found to work very satisfactorily. Although many drivers say that the paraffin is the cause of many motor troubles through the dirt which arises.

Several owners report that after long tours made entirely on paraffin their engine cylinders have been kept cleaner than on gasoline and that the power and flexibility have been increased. A statement of this nature, of course, would cause a smile from the many constant users of gasoline as the motive power. The chief cause of this is prejudice against the use of paraffin simply from the remarks of many who have not given it a real trial.

Price Was Lower.

Several years ago when the motor industry was at its birth gasoline was a by-product of coal oil, and could be purchased at a price much lower than at the present time. The sudden growth of the industry and the many types of engines of the internal combustion type has been the direct cause of the increase, and gasoline is now the main product and paraffin the by-product, although the latter is the first secured in the crude refining of coal oil.

But two gallons of coal oil can be secured in the refining of every one of gasoline. When the automobile came on the scene the industry was bolstered up by the cheap price of the fuel (gasoline), which was available even though it added to the dangers of operation, and naturally, in order to take full advantage of the produce having so little commercial value, there was an effort on the part of engineers to design a special apparatus for its utilization, instead of devising means for

of the electric self-starter will practically eliminate the idea of this unnecessary complication. Encouragement must also be given to any satisfactory device which assists in making pure gas from the heavier grades of oil without smoke, smell or deposit, if any sort of independence is to be gained.

It is obviously certain with the increasing price of gasoline that within the very near future a type of engine will be used that will no longer cause the motorist to demand a refined spirit and that he will be in a position to select one of several inferior grade materials and only pay for the mechanical work they furnish.

TO ESTABLISH BUSINESS

For the purpose of finding a suitable location for his son, Mr. Alfred Whalley, of Liverpool, England, is making a tour of Canada. Mr. Whalley attended the meeting of the B. C. Auto and Motor Trade Association held recently, and was greatly pleased in the way the organization is progressing.

Mr. Whalley has been in the automobile business in England, and is thoroughly acquainted with the management of garages and motor vehicle enterprises generally. In a number of the English cities, associations are maintained, according to Mr. Whalley.

"At the present time I am not travelling by means of a motor car," said Mr. Whalley, "but nevertheless a number of my friends have taken me in their automobiles along the beautiful driveways throughout the province of British Columbia. I certainly have not traveled through a more beautiful and enchanting country than is British Columbia."

"In the majority of cases, the highways are well kept up, and with comparative ease trips can be made in motor cars through the entire section of the province. I hope that I may settle in Western Canada in the near future, and it is a most wonderful country, and the opportunities offered are unlimited."

"I was greatly interested in the dis-

LORD MONTAGU'S VIEWS.

The absence of good roads is the one great drawback which prevents the United States and Canada from being widely known among the motorists of the world, is the assertion made by Lord Montagu, editor of The Car, in the current number of Great Britain's leading motoring publication.

Lord Montagu recently returned to London after a tour of several weeks in this country, and believes that good roads will eventually be built, and that there is no reason why the number of automobiles used in North America should not run into the millions. With improved highways, this British authority, who has evidently made a careful study of the situation, predicts that European tourists will flock to this country and enjoy its scenic beauties.

Automobilists and other users of the highways will read with interest Lord Montagu's views as expressed in his recent review of touring conditions here.

Bad Roads.

"The influence of bad roads upon American automobilism is seen in the fact that the clearance between the ground and the lowest point of the chassis has to be greater than in Europe, and the extra wear and tear on the machinery occasioned by holes, ruts, and boulders is greater, leading to greater strength being needed in certain directions. Even in the bigger cities, the driver has to be always on the qui vive for any street may be found full of holes and gaping ruts. Therefore, refinement in springs or any really good body work is almost impossible, owing to the wear and tear occasioned by these fearfully uneven surfaces. The greatest street surface destroyers are the tramways, whose permanent way is generally shockingly maintained."

"As yet the American and Canadian privately owned automobile is mostly used as a pleasure vehicle, and for little else, and not so much for utilitarian purposes as in Great Britain or Europe as a whole. In the towns the absence as a rule of horse-drawn cabs

lawyers, magistrates and other persons connected with the administration of the law. They propose to show their guests the appalling lack of observance of even the most elementary traffic regulations by the drivers of horse vehicles. Starting from a common centre the cars will take different directions to be determined by the visitors themselves. All transgressions on the part of vehicle drivers will be noted en route, and although no prosecutions will follow it is believed that these trips will show the authorities that motorists are more sinned against than sinning."

Don't neglect keeping all nuts set up tight; a loose or lost nut may cause an accident.

PASSING THROUGH COTTAGE GROVE, OREGON—THIS STREET IS PACIFIC HIGHWAY STREET.

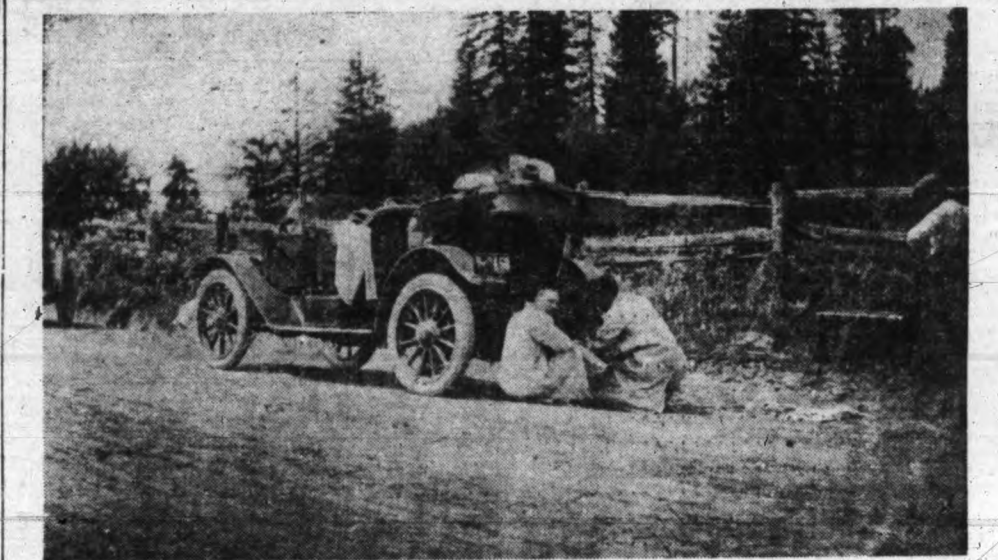

gradually fashion to the study and development of the auto car. What was formerly the joy of the experimentalists and the luxury of the rich had become, in one form or another, a dominant and essential factor in the daily life of the community. In work and in the multifarious departments of commercial activity, a sphere in which Scottish makers had played no inconsiderable part, they were on the threshold of a movement which was destined to almost unlimited extension. Referring to the recent establishment of the National Council of Automobilism, he hoped that when next motor car legislation was under discussion the council would be able to speak as with one voice for the entire automobile community.

The chairman, in responding, referred to the development of the motor industry. The last time he was in London he took a few statistics on the embankment. In the course of one hour in the morning he saw 1,200 fast motor vehicles and only 53 horse vehicles. These were concrete facts that could not be disputed. The progress that had been made was very remarkable, and he thought they ought to consider not what they could do to promote the increase of automobiles, but what they were to do in consequence of the fact that the motor vehicle was the dominant vehicle on the road and the street, and therefore he would strongly urge on them not to devote too much attention in the future to touring, or any of the things which first formed the object of automobilism, but to devote their attention to one subject which had come very near his heart—the improvement of the road. By improving the road they would do a great deal to remove all remaining opposition to the use of the auto car, and also do something greatly for the promotion of their own interests as automobilists.

Lord Dunedin proposed the toast of "The Royal Automobile Club," and Mr. Julian W. Orde, secretary of the R.A.C., replied.

Don't use automobile or any old oil for your motorcycle. Use only a heavy grade of oil made especially for motorcycles.

MESSRS. MOODY AND BANNERMAN MAKING REPAIRS ON ROAD BETWEEN SALEM AND PORTLAND.

Sanction. The official authorities of Glarus themselves are liberally inclined, and last season they threw the Klausen Pass and the Serfretta road open to motorists without any complaints having been received. They are opposing the above measure, and in order to prevent the entire closure of the canton, they are willing to set the speed limit at a still lower figure and to forbid motoring on Sundays from 10 a.m. to 6 p.m. It is unlikely, however, that even these concessions will be of any avail. The Syndicate of Swiss Motor Car Manufacturers and Traders has taken the matter in hand, and at its next general meeting special attention will be directed to the question of how these restrictions of motor traffic can be alleviated.

MOTOR NOTES.

- Don't open the cutout in the city.
- Don't race your motor on the stand; it will overheat and ruin it.
- Don't neglect or abuse your motorcycle and it will serve you as a friend.
- Don't start on a long trip without first filling up the oil and gasoline tanks.
- Don't ride your motorcycle if the tires are flat; it will cut and pinch the inner tube.
- Don't forget to strain the gasoline. Dirt and water will cause carburetor trouble.
- Don't forget to oil the chain; its bearings need oil occasionally to keep it in good order.
- Don't ride fast in the city or around sharp curves. You may not be able to stop quickly enough.
- Don't ride a machine whose belt slips excessively; either shorten it or apply some good belt dressing.
- Don't forget to remove the battery plug when you stop the motor; a short circuit will soon ruin the batteries.

Cut Flowers (Professionals Only).
Bouquet, shower, bridal—1, Lillian Callow; 2, Wilkerson & Brown; 3, Brown Bros.
Basket of flowers, not over 12 inches diameter—1, Wilkerson & Brown; 2, Brown Bros. Co.; 3, Flewin's Gardens.
Floral design, anchor on stand, 24 inches—1, Brown Bros. Co.; 2, Wilkerson & Brown; 3, Flewin's Gardens.
Floral design, pillow, 2-foot frame—1, Wilkerson & Brown; 2, Flewin's Gardens.
Dahlias, single, 3 varieties in vases, 6 blooms each—Flewin's Gardens.
Dahlias, cactus, 12 varieties—1, Brown Bros. Co.; 2, Flewin's Gardens.
Dahlias, cactus, 6 varieties—1, Brown Bros. Co.; 2, Flewin's Gardens.
Dahlias, decorative, 6 varieties—Brown Bros.
Dahlias, collection, 36, named—1, Flewin's Gardens; 2, Brown Bros. Co.
Dahlias, peony flowered, 5 varieties—Flewin's Gardens.
Vase of Dahlias, vase not over 4 inches diameter inside, any foliage allowed, to be judged for effect—1, Brown Bros. Co.; 2, Flewin's Gardens.
Roses, 12 varieties, outdoor, shown singly in vases, named—1, Flewin's Gardens.
Vase of 25 roses, any foliage allowed, quality 50 points, effect 50 points—Brown Bros.
Gladioli, 12 varieties shown singly, named—Flewin's Gardens.
Perennials, collection (on bunch of each variety) 24, named—Flewin's Gardens.
Vase of 50 carnations, any foliage allowed, quality 75 points, effect 25 points—1, Brown Bros. Co.; 2, Flewin's Gardens.
Chrysanthemums, in vases, 6 varieties, named—1, Brown Bros. Co.; 2, Alex. Angus.
Vase of 25 chrysanthemums, any foliage allowed, quality 75 points, effect 25 points—Brown Bros.
Vase of 25 asters, any foliage allowed, quality 75 points, effect 25 points—Flewin's Gardens.
Plants (Amateurs Only).
Begonias, rex, 3 plants—George Millett.
Begonias, fibrous, 4 plants, 1 variety of each—1, George Millett; 2, Wm. Jennings.
Geraniums, single, 4 plants, 1 variety of each—1, George Millett; 2, Mrs. Wm. Jennings.
Geraniums, double, 4 plants—1, George Millett; 2, Mrs. Wm. Jennings.
Ferns, collection 6 plants—1, George Millett; 2, George Millett.
Foliage plants, collection 8—1, Mrs. J. S. Cunningham; 2, George Millett.
Specimen foliage plant—1, Miss A. Boorman; 2, Mrs. J. S. Cunningham.
Chrysanthemums, 3, grown in pots, 1 variety of each—George Millett.
Flowering plants, collection, 6—Mrs. W. Jennings.
Coleus, 6 plants, 1 variety of each—

LOCAL IMPROVEMENT ASSESSMENT

TAKE NOTICE that the Corporation of the City of Victoria intend to pass a Local Improvement Assessment Bylaw for each of the undermentioned streets, assessing upon the properties in the schedules hereinafter mentioned the sums of money for the length of time set opposite each said lot as follows:

BY-LAW NO. 146

Grading and Paving with an Asphaltic Pavement Faithful Street, Between Moss Street and Cook Street, and Constructing Permanent Sidewalks of Concrete, with Curbs, Gutters and Boulevards on Both Sides of said Streets, also Constructing Sewer, Surface Drain and Water Laterals.

EARLIEST REMAINS OF HUMAN RACE

DR. BRYCE ON THE
BEGINNING OF LIFE

Interesting and Instructive
Lecture Delivered Before
Natural History Society

In the opening remarks of a highly interesting lecture on "The Earliest Remains of Man," delivered last evening before the Natural History Society, Dr. Bryce, a well-known archaeologist, demonstrated that the spirit of research into life and the beginnings of life were not inconsistent with the truest spiritual teachings. The attempt to probe into the real truth of things was the "reason d'être" of all such discoveries—for all knowledge was lost that ended in the knowing, and every truth brought to light was a candle to work by, and to use for the highest purposes.

The lecture—in itself a remarkably lucid and comprehensive effort—was an attempt to portray both by word of mouth and by means of excellent views, some part of the knowledge that scientists and archaeologists have dragged, patient fact by fact, out of the limbo of intellectual darkness. Having talked with some of the greatest authorities in the world on anthropological research, Dr. Bryce was able to give in his address a synopsis of their opinions, together with a few arrived at by his own personal observation and study.

Broadly speaking the lecturer held the view that the man of to-day was, in essentials, the same as the primeval being, who, after crawling the earth from cave to cave and communicating with his family by signs and grunts, lived his meagre life, satisfied his few desires—and finally crawled under a stone to die. Man, however, had developed with each succeeding age. As centuries flashed and faded, so did the highest form of creation pass through a period of evolution. With the altering of the conformation of the jaw, speech came to him. In the earliest stages he had been merely on an equality with the beasts; but in time the divine gift of reason was granted, and he became able to generalize, to think, and thus to rise to the highest place in the world of created things.

Confined to Old World. It seemed as if it were with a certain time of regret that Dr. Bryce stated that he could honestly say there were no palaeolithic remains on this continent. Several much-lauded anthropological discoveries had been made in California, and had received much publicity through the medium of the local press, but they were indubitably proved that the only remains of that nature were to be found in the Old World. It was to discoveries in Europe, most particularly, then, that he devoted his attention.

The very earliest of all the specimens of primordial man now extant was to be found in the museum at Heidelberg. This was a jaw-bone, heavy and strong, supporting indubitable remains of human teeth. It had been found six miles out of the university city, in the old channel of the Neckar.

A Race of Giants. Another excellent slide portrayed a human skull found in southern France; this had been ascertained to have belonged to one of a race of giants who inhabited that part of the world at a somewhat later date. The skull showed the white markings where stactal matter had fallen on it during its long rest in the caves. Another skull shown was that of a "Gibraltar man," which, except for a somewhat simian conformation of the skull, was very like an ordinary type of head in our own day. Glimmerings of Intelligence. One of the first evidences of the en-

PARALYSIS COMPLETELY CURED

"Fruit-a-tives" Performs
Another Miracle

"Bristol, N. B., July 25th, 1911.

"I had a stroke of Paralysis in March, 1910, and this left me unable to walk or help myself, and the Constipation of the Bowels was terrible.

"Nothing did me any good and I was wretched in every way. I then took 'Fruit-a-tives' for the Constipation and it not only cured me of this terrible trouble, but gradually this fruit medicine toned up the nerves and actually cured the Paralysis.

"By the use of 'Fruit-a-tives' I grew stronger and stronger until all the Paralysis and weakness left me. I am now well again and attend my store every day. I say 'Thank God for Fruit-a-tives'.

"ALVA PHILLIPS."

"Fruit-a-tives" not only cured the terrible Constipation, but so toned up the nervous system and the general health as to completely overcome the palsy.

Truly "Fruit-a-tives" is a wonderful medicine.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

dowment of man with faculties above the brute beasts around him was his early exhibition of the rudimentary principles of art. Excellent photographs were shown of scabbings made by our far-off ancestors on pebbles, stones and stalagmites. Most of these were of the Magdalenian Age, and were rough outline sketches of animals and birds, and betrayed in many instances a well-developed sense of contour, showing the first glimmerings of an intelligence.

Later drawings taken from the ceiling of a cave in Altamira, in the west of Spain, produced an excellent representation of a herd of bison. From Dordogne in west France drawings of two reindeer were probably of a still later date.

Fauna of Early Days. Almost as entertaining as the human side of the lecture was the manner in which Dr. Bryce dealt with the difficult subject of the fauna of the various periods. By means of composite site, ideal landscapes projected on the screen, he illustrated vividly the mammoth animals of earlier days; photographs of tusks were exhibited, showing the convolutions on them whereby the expert was able to pronounce on the age to which they belonged.

In this connection, Dr. Bryce volunteered the interesting statement that "the elephant" was the most prominent of all marks in determining the periods of time. The older ones had teeth convoluted like the gray matter of a well-developed brain, while those belonging to a later age had fewer lines. An organized and careful study of the markings added considerably to the store of exact knowledge which experts possessed.

His Majesty the Horse. If America could not boast the remains of the first men in the world, yet it could still claim possession of the remains of the original horse. The lecturer demonstrated the interesting theory that the first horse possessed five toes on each foot. These decreased in number as the centuries rolled by through the fact that the animal had no use for them. He pointed out that the splint-bone so prominent in the leg was the part which had become atrophied.

"History in Stones." Nor did the lecturer fail to lead his audience through the magic portals that lead to bygone years through the medium of the flints and stones of the glacial and post-glacial age. Photographs of various stone discoveries were exhibited, showing first the palaeolithic, embodying a form of chipping which many scientists had been able to imitate; also the neolithic or new

stone which was smoother and more evenly shaped.

At the close of the lecture various questions were put to Dr. Bryce, who was able to answer them most satisfactorily, and the proceedings closed with a cordial vote of thanks to the lecturer by Rev. W. Leslie Clay, who presided.

Letters for publication in Daily Times must be received before 10 a. m. When received after that hour they will go over until next day.

While unobjectionable anonymous communications will be published, the name and address of every writer of such letters must be given to the editor.

HOME RULE AND CUSTOMS.

To the Editor:—In your issue of yesterday in an article under the above heading, you state that the Hon. Walter Long, M.P., in the addresses he delivered in Canada in opposition to Home Rule for Ireland, was based on the statement that the proposed bill granting Home Rule confers the right on Ireland to levy customs duties against other parts of the United Kingdom, and that the statement was contradicted by Mr. Joseph Martin, M.P., and the Hon. Augustine Birrell, Chief Secretary for Ireland. When I was in England lately I had many arguments on the subject, and maintained with many others that the bill if passed without amendment would necessitate customs houses between Ireland and Great Britain, while many took the opposite view. In order to settle the question I obtained through the Rt. Hon. Jesse Collins a copy of the bill before the House, in which there are clauses to the following effect:

"The duties on foreign goods shall in the first instance be fixed by the parliament of Great Britain, and the Irish parliament shall not levy duties on any goods that are not dutiable on entering Great Britain; but the Irish parliament shall have the right to increase up to ten per cent, or to decrease or abolish altogether the duties on such goods when entering Ireland."

So that if Great Britain imposes a duty of fifty per cent on any foreign goods, the Irish parliament can add ten per cent, to it, or reduce it, or admit such goods free into Ireland. The bill also gives Ireland absolute control of her excise duties; she will also have her own postal system independently of Great Britain, and will have the right to forty representatives in the British House of Commons to assist in legislation for Great Britain, while Great Britain will have no representation in the Irish parliament. I forgot to bring the bill with me, but the above are absolutely correct statements taken from the bill now before the British House of Commons, and should the bill become law it would, in my humble opinion, be an effectual bar to Imperial federation, and the thin end of the wedge for the disintegration of the Empire.

CHAS. E. REDFERN.

PEACE MOVEMENT.

Mexico City, Sept. 26.—A new movement toward peace in Northern Mexico was made yesterday when President Madero and his cabinet instructed the minister of war to offer amnesty to the followers of Orozco, the rebel leader.

Stringent measures, such as the government's recent suspension of constitutional guarantees and the execution of numerous rebels, failed to have deterrent effect anticipated by the government. The rebellion in the north, which two months ago was confined principally to the state of Chihuahua, has spread to Sonora, Coahuila and other states. President Madero asked congress for an appropriation of 20,000,000 pesos of a loan authorization, admitting there was less than 20,000,000 pesos in the national treasury. The national government is convinced that General Higinio Aguilar, of the regular army, who recently disappeared from the capital, is at the head of a large body of rebels operating between Puebla and Oaxaca.

LOCAL IMPROVEMENT ASSESSMENT

TAKE NOTICE that the Corporation of the City of Victoria intend to pass a Local Improvement Assessment Bylaw for each of the unmentioned streets, assessing upon the properties in the schedules hereinafter mentioned the sums of money for the length of time set opposite each said lot as follows:

BY-LAW NO. 190									
Kingston Street, from Montreal Street to Menzies Street, Grading, Draining and Paving With Asphalt, Constructing Curbs and Gutters on Both Sides of said Street, also Lateral Connections to Sewers, Surface Drains and Water Mains.

AND FURTHER take notice that the Court of Revision for the trial of complaints and appeals against the assessment so proposed to be made, will be held Wednesday, October 16, 1912, at the hour of 10 o'clock in the forenoon, at the Council Chamber in the City Hall, corner of Douglas and Pandora streets, in the City of Victoria, British Columbia, and any notice of appeal from each intended assessment must be served upon the undersigned at least eight days prior to such sittings.

City Clerk's Office, City Hall, Victoria, B. C., September 25, 1912.

MURDER AND SUICIDE.
Young Woman Shot and Murderer Later Commits Suicide.
Salt Lake City, Utah, Sept. 26.—The murder of Mrs. Mary Theodorsen followed by the suicide of a Greek, Thomas Theodor, brought out a pitiful story of betrayal and mistreatment. Mrs. Emily Whitmore, the girl's mother, relates that her daughter was employed in a restaurant at Ogden, where she met and was married to Thomas Theodor, a Greek coffee house owner from a Greek colony in Salt Lake City, 18 months ago. James Theodorsen, 18 months old, was her bride, not yet 18 years old. With his bride, not yet 18 years old, Mrs. Whitmore says, Theodorsen moved to New Mexico and then to Denver, where an attempt was made to sell Mrs. Theodorsen into white slavery and the husband was sentenced to prison. Mrs. Theodorsen was going to the house, in which she was employed after her return to Salt Lake City, accompanied by her brother-in-law, when Theodor stopped her, made a demand on her for money and then shot her dead. He wounded himself, but was traced for some distance by a trail of blood. Later he was found dead in a coal bin. A bit of flint under a powerful microscope is one of the wonders of the world.

"In Old Kentucky."

The attraction at the Victoria theatre this evening is "In Old Kentucky."

with its multitude of striking scenes and unique features. This remarkably successful play, written by C. T. Dacey and managed by Litt & Dingwall, has remained a standard amusement offering for many seasons, and has achieved for itself a name and fame almost without precedent in the annals of the American stage. It is now on the twentieth annual tour of the United States and Canada, a decade of prosperous stage presentations. Whatever the secret of "In Old Kentucky's" drawing powers, it certainly retains its hold upon the affections of playgoers. It has a dash of rapid movements, spirited and convincing, from the very first curtain, and the audience follows the unfolding of the romance with increasing interest until the last episode straightens everything out to the satisfaction of every one. The appeal is direct and the tale rings true. The hero is a manly young Kentuckian, the heroine a girl of flesh and blood, a product of nature untrammelled. The love story is charming and idyllic. The characters of the play are distinct, the incidents thrilling and the interest unflagging. The pickaninny band forms an essential element in the story. These comical little darkeys sing, dance, whirl batons, play musical instruments and amuse the audience tremendously. The company with Miss Olive Skinner in the leading role will be the same powerful organization that always presents this popular drama. A new and costly scenic outfit has been prepared for this season's tour.

"The Awakening of Helena Richie."

Miss Rosalie Knott, who is a woman of great personal charm and an actress of remarkable gifts and high attainments, will appear in the character of Helena Richie in the Charlotte Thompson dramatization of Margaret Deland's fascinating fiction, "The Awakening of Helena Richie," at the Victoria theatre on Saturday, September 28.

Miss Knott is charged with a task that but few players would care to undertake—the following of so distinguished an actress as Margaret Deland in one of her best conceived characters; yet she accomplishes the matter with such ease, displaying so much originality of thought and native strength in the delineation that those fortunate enough to have seen Miss Anglin in the character of the mysterious young woman, who set the villagers of quiet Old Chester to such a flutter of gossip, will find ample reason for according her unequalled endorsement as an actress generously endowed with talents, both versatile and rare.

Charlotte Thompson has made a most delightful transfer of the scenes, characters and atmosphere of the Marjorie DeLand story to her stage version of the book, and dear old Dr. Laverdier, the quiet, dignified and sympathetic Dr. King; David, the precocious and fondly worshipped protégé of the neglected Helena; the half-crazy village poet; the severe and uncompromising Benjamin Wright; the women gossips, and all the other characters of the ante-bellum Pennsylvania small town are to be found in the Charlotte Thompson play, and each to be easily recognized by the most exacting of the Deland readers in Miss Knott's presentation of the drama. All of these Old Chester personages are most admirably realized, and the material framing of the story is both artistic and convincing.

Earl Dwire, as the gentle, tenderly considerate and rarely sympathetic old Dr. Laverdier, will be found a delight; while Adeline Wilson as Sam Wright; Henry W. H. late star of "The Man From Home," as Lloyd Pryor; Mayo Mathot (the cleverest child on the American stage) as David, the child members of a company of exceptional merit.

"The Woman."

Whenever the name of David Belasco precedes an attraction it is a beacon of assurance that the presentation is as perfect as brains, energy and capital can consummate, and whatever he does he does thoroughly and accurately. This has been evidenced with lifelike fidelity upon every occasion a Belasco production comes to Victoria, and another exposition of his wonderful technique is assured at the Victoria theatre Monday night, September 30, when he will present William C. deMille's powerful play of to-day, "The Woman."

That Mr. Belasco keeps his finger upon the pulse of public taste can be attested to by the success upon success he launches upon the dramatic stage to be received year after year by the public with favor and eulogistic commendation.

The presentation of "The Woman" at this time is especially auspicious, as it throws a searchlight upon the inner workings of professional ringsters in Washington who prostitute legislation by methods commonly known as "machine politics," and who resort to every known device, legitimate or otherwise, to further or attain their purpose.

Mr. deMille has created a remarkable play, and Mr. Belasco with his wizardry in stagecraft has embellished and produced this creation in a manner

worthy of his great name and reputation.

The cast is the same as last season and includes such well-known players as Marjorie Wood, Marion Barney, James Seeley, Howell Mansel, Hallett Thompson, Homer Granville, Austin Webb, Hugh Dillman, Frank Austin, Peter Raymond, Kalman Natus and others.

PASSING SHOW

The Empress Theatre.

It is not often that a playlet of the order of "The Pool Room," in which Charles Wildish and his supporting company of five other actors appear at the Empress theatre this week, is seen at vaudeville houses. The Empress theatre has been noted for the excellence of its playlets, and this one is above the average. Some striking character work is done by Mr. Wildish in his role of the drug addict and frequent of pool rooms who, nearing his end, works for the reform of three young men starting on a career of crime. He sacrifices himself by taking blame for the crime committed by one of them.

"Scenes Behind the Scenes" is a sketch that offers something new. John Delmore and Miss Olive Adair present this act, appearing with the bare stage and introducing the audience to that hitherto unillustrated part of vaudeville, namely, the preparation for it. They appear in their street clothes and change to the trappings of black-face minstrel. Both sing well and offer an interesting turn.

Misses Constance Farmer and Marie Hylands, two bright girls offer an excellent singing and dancing number. The former appears as a "boy" and makes a dashing appearance. They offer a lively act and have to respond to several encores at every performance.

Scott and Wilson, acrobatic comedians, contribute some merry dialogue, the former being seated in the first part of the act in the body of the theatre, and also do some acrobatic tumbling that has much merit.

Two cycling comedians, MacRae and Levring, cause many a laugh at their funny tumbles and bring forth much applause for their good trick-riding.

HOME AIDS TO

HEALTH AND BEAUTY

FOR SALLOW COMPLEXIONS—A

sallow skin is due to bad blood, and the best way to overcome it is to take a good system-tonic and energizer. By dissolving one ounce of karsene and one-half cupful sugar in one-half pint alcohol (not whiskey), then adding hot water to make a quart, one has as good a remedy as can be found.

A tablespoonful taken before meals soon clears the blood, brings back the natural color to the face, and gives one strength and energy. It is a matchless tonic for restoring lost appetite and correcting general minor ills.

FOR WEAK EYES—A simple, inexpensive tonic that is very strengthening and soothing to weak, tired or inflamed eyes, is made by dissolving an ounce of crystals in each eye, cold water. A few drops in each eye twice daily will make them clear, strong and sparkling. This tonic is a great help to those who wear glasses, and a good remedy for granulated eye.

FINE BEAUTY LOTION—To give the complexion a smooth, clear, refined look nothing better can be used than a lotion made by dissolving four ounces of spumax in one-half pint witch hazel or hot water, with two teaspoonfuls glycerine added. This removes all evidence of a shiny, sallowness and gives to it a beautiful appearance. It is invisible when on the skin and lasts much better than powder.

STOPS FALLING HAIR—Hair that seems lifeless and comes out with every combing can be invigorated and the falling stopped by massaging into the hair-roots twice a week a tonic made by dissolving one ounce of quinine in one-half pint alcohol (not whiskey), then adding one-half pint cold water. This remedy destroys dandruff and scalp irritation and will prove a great aid to those who have hair and scalp troubles.

Four stocks of bees gathered three hundredweight of honey, which has been collected from the roof of Combe church, near Hungerford.

Municipal Notice

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable:

1. To construct conduits with all lateral connections for the purpose of placing telephone wires underground on Government street from Bellville street to Michigan street;

2. To construct conduits with all lateral connections for the purpose of placing telephone wires underground on Yates street from Camosun street to Fort street;

3. To construct conduits with all lateral connections for the purpose of placing telephone wires underground on Fort street, Oak Bay Junction to Foul Bay road.

And that all of said works shall be carried out in accordance with the provisions of the Local Improvement General By-Law, and amendments thereto, and the City Engineer and City Assessor having reported to the Council in accordance with the provisions of Section 4 of this by-law, upon each and every of said works of local improvement, giving statement of the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said work, and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the Council:

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the land or real property to be assessed for such improvement, and representing at least one-half of the value of the said land or real property, is presented to the Council within fifteen days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by by-law in that behalf provide.

who say they have received no intimation to this effect from Ottawa. Assuming it is correct, Mayor Waugh said that he was very disappointed. The railway claimed this cut-off was necessary for the prompt handling of western grain points, but the project has been fought by residents affected, who have been supported by the city as a whole.

IDEAS OF A PLAIN MAN

BY DR. FRANK CRANE

The power to feel intensely is the most exquisite of all gifts.

If you suffer far more than others, if the slight that is turned off by another with a laugh rankles and festers in you, if a humiliation can sting all night in your tortured brain, if the memory of a wrong is a sword and the fear of love repelled is a flame to you, why, do not pity yourself!

You are as far above the dull and contented whom no arrows of scorn can pierce as a brook trout is above a jelly-fish.

Capacity to suffer is simply capacity to live.

Life's size is measured by the gamut of the heart.

Keep true and keep sane, adjust yourself as best you may to your time and place, and above all search out those forms of subtle bliss that the less sensitive cannot understand; so you will find your pain-power to be life-power, your personality will be widened and be enriched, until you become, what mere stupid negative morality and conventional goodness can never become—great.

For the best of life is to live. And to live, in its fullest sense, means to suffer.

Arctic travellers have noted the curious action of snow at low temperature. It dries garments and absorbs moisture.

Applications addressed to the undersigned at Box 64, Thoburn P. O., will be received up to 6 o'clock on Tuesday evening, October 1st, 1912, from persons desirous of being appointed

TO-DAY IS CITIZENS' DAY AT EXHIBITION

All Conditions Point to Success of the Fair—
Special Concession to School Children—
Mr. Bull's Magnificent Jerseys

FRIDAY, SEPT. 27.

11.00 a. m.—Annual meeting in Women's building.
2.00 p. m.—Grand stock parade, polo game, running races, trotting races, acrobatic performances.
8.00 p. m.—Horse show.

Children under 12 admitted free of charge.

To-day is "Citizens' Day" at the exhibition, and at the time of writing the prospects for a bumper attendance are exceedingly bright. The holiday spirit is in the air; public offices and stores are closed, the weather continues supremely fine, and there is nothing to prevent this day from becoming a source of infinite joy to President Toimio, Secretary Sangster and their assistants. The programme of features could not be fuller; the stock parade, the horse racing, polo events and the horse show affording a variation of attractions rarely, if ever provided in this city. The schools having closed, the attendance on the remaining days of the exhibition will be increased by large contingents of youngsters, those under twelve being admitted free of charge.

FINE HERD OF JERSEYS.

Unusual interest was evidenced in the competition and judging which took place among the cattle yesterday, the awards being made by D. C. Platt, of Hamilton. The largest live-stock exhibit at the exhibition this year was of Jerseys, shown by B. H. Bull & Son, the other exhibitors being Messrs. Fry & Taylor, Menzies & Son, and Mr. Grimmer. As was anticipated, the lion's share of first honors went to Mr. Bull's stock, which drew eleven first prizes, and the championship diplomas for the best bull of any age and for the best female of any age. The first prize for junior bull calf went to Menzies & Son, who also won first prize for three animals, the get of one bull, Mr. Grimmer's herd won first for senior calf, also first for two animals—the progeny of one cow.

During the afternoon a representative of the Times saw W. P. Bull, K. C., head of the firm of B. H. Bull & Son, whose stock farms of 800 acres are at Brampton, twenty miles east of Toronto, where the late B. H. Bull established the Brampton Jersey herd near-

ly forty years ago. This herd is now the largest pedigree Jersey herd ever owned under the British flag, and is represented at the Victoria exhibition by thirty-seven animals, some of which were bred in Brampton, some in England, and some on the Island of Jersey.

Mr. Bull paid a tribute to the courtesy and energy of the exhibition management, not only as to the stabling accommodation, which he characterized as healthy, airy and bright, but also to the general facilities for the convenience of stockmen at the show. "The quality of alfalfa, hay, roots, etc., provided for the stock," he said, "is sufficient evidence of the productive character of Vancouver Island soil, and is sufficiently attractive to have induced my firm to look carefully into this district for a habitation for a branch of our Brampton Jersey herd, unless, of course, the prices asked by present land-holders should make this prohibitive."

"During the last ten days," continued the well-known stockman, "we have motored over several hundred miles of your island, called at many farms, dairy and fruit places, and tried to study the conditions of these industries at first hand, and it is the firm belief of my friends and myself that the products of your soil and climate are abundant and of first quality, your roads generally speaking, are good, and yet, for some reason which should not be difficult to remedy, your farmers, dairy and fruit producers are not getting the benefit they should. Perhaps I might repeat what William Jennings Bryan said, and which had been said centuries before, that is: 'Destroy any of our flourishing cities; they will rise again because of the country that is behind them. But blot out the country, and the cities will fall and not rise again.' What I mean is that the tillers of the soil and the producers of orchard, dairy and chicken ranches should get a ready, a steady and a fair market. Nature has done its part for you on this island; I am sure from what I have seen of the citizens of Victoria that they will do theirs."

Asked as to the special advantages of Jerseys for Vancouver Island, Mr. Bull said that there was nothing to discuss on that question, because the superiority of this breed for cream and butter production had been demonstrated in all the great world tests. "And," he added, "there could be no more ideal conditions for Jerseys to live under than those offered here. In fact, these cattle should reach the highest degree of perfection and production in the immediate vicinity of Victoria."

In speaking of the management of the fair in a more general sense, Mr. Bull remarked that one of the most commendable features was the prohibition of the sale of intoxicating liquors on the grounds. "To-morrow (to-day) being Citizens' Day," he said smiling, "we are sending ten gallons of Brampton Jersey milk to the W. C. T. U. on the grounds, with the compliments of our firm, and as a slight reminder to ourselves that the late B. H. Bull, who founded the Brampton Jersey farm, was himself for almost a quarter of a century president of the Prohibition Association where he lived."

Jerseys, however, are not Mr. Bull's only travelling companions. He himself has been a frequent visitor to this city, and through him a large amount of British capital has been invested in the Canadian west. On his present visit here he is accompanied by R. N. Helme, a manufacturer from Lancaster, England, and Mr. Mawson-Matlocks, an English landscape expert. Before reaching Victoria they arranged for the immediate erection of what will be the largest greenhouse and nursery plant in the west, and if a suitable location can be found, contracts will be let during their visit for a similar industry here.

Mr. John McLennan is also with Mr. Bull, and is visiting his brother here. Six weeks ago Mr. McLennan resigned the position of Canadian government agent at Liverpool, and left yesterday for Red Deer, where he is establishing an agricultural implement works.

CLEOPAT WINNER OF EXHIBITION HANDICAP

Form followers had the choice of a good card at the fair races yesterday afternoon, there being a six event card with an extra event added for trotting horses. Oswald B. Cantem, Cleopat and Phillistina, all ran according to form as their previous appearances called for. The attendance was very good, but not as large as last week, the people not having learned apparently that the admission to the races and the grounds this week is 75 cents, whereas to the races last week the admission was \$1. The betting on the six races was heavy, amounting to \$23,245, being about \$200 less than the amount bet on the seven races the day before.

Betting on the trotting races was hardly sufficient to talk about. On the second heat the place and show dividends on three horses was \$2.10 for \$2 bet, and in the third heat there was not enough money in the place and show pools to go round after deducting the 10 per cent commission, so, as the machine always guarantees the public money back, the better received back their original investments of \$2. Richard Lou, the winner of the two heats, was first paid \$7.50, Lady Betty was second, one win and two seconds, and Uncle Tom third.

Considerable talk was heard yesterday regarding the absence from the track of Burlingame and Keogh, and

many surmises were made regarding the jockeys' absence. Burlingame has gone to Kentucky under contract to ride, having left Victoria Tuesday night, and Keogh was sick yesterday.

The form race of the day was the first five furlong event. Masalo, the long dividend shot, had run the distance in 1:02 1-5, Canapa in 1:02 2-5, Binocular in 1:02, Cantem in 1:01 3-5 and Rosenta in 1:03 1-5. With so little between the horses and the odds of the half mile track included in the deal, every horse figured a likely winner, but it was remarkable that the three fastest horses on the time given were in the money. Cantem, which figured 2-5, faster than Binocular, beat that horse and also beat Masalo, which was 2-5 slower on time. Masalo, however, in making that time, made it with a late run, having had the worst of the track, and yesterday the gelding got the better of the position and beat Binocular, getting second to Cantem.

The field would have made a magnificent race on a mile track, as it was the turns which put the outside horses behind. Down the back stretch five of the field went along together. Cantem in winning in 1:02 3-5 was just a second behind his time for the distance on the mile track at Vancouver.

Morality ran a fast race with Pickens up in the next five furlong event, going round in 1:01 4-5, holding the lead from the start and beating Gilbert Rose and the newcomer, Blacksheep, Ed. G., with only 100 pounds, failed again, and disappointed many backers, who did not even realize show money.

Form showed there was only one horse in the first race, six furlongs, Oswald B. running back to his last race and winning from a moderate field by four lengths. There was another form book finish in the six and a half furlong exhibition handicap, \$500, when the speedy Cleopat grabbed the front position at the wire, maintaining her fast breaking reputation, and holding the lead from McJee and Metropolitain. Walkabout, which led to 115 on account of his previous successes found the weight excessive, while Metropolitain, light weighted, only just managed to hold on to third money.

Of half a dozen mediocre horses in the seven furlong event Halworth proved the best, and under Rose's ride held the lead throughout. Charles Green, after his win in 1:31 Monday ran to about his best yesterday in making third to the winner. Had Riddle pushed Green the first time round the circuit should have shown better, but he appeared to be tiring at the finish.

True to her old time reputation, and not to rise again, J. Green's little chestnut mare, Phillistina ran a front race for the mile and 70 yards. Breaking first the little mare went a length to the front, and got the rail, to which she hung the whole distance, shaking off Sake and Layminster at will. Both Sake and Layminster made terrific efforts to get her, but Pickens had the mare well in hand, and she came along gamely every foot of the way, and was never bothered. She was probably not extended as her time 1:47 2-5, was 2-5 slow.

Masalo changed owners yesterday, her form in the big dividend race on Monday and her running of yesterday attracting the eye of D. Yandell, owner of Cantem, which beat Masalo. Yandell claimed her after the race at her selling price, plus the amount of the first money to the winner, a total of \$375. His own horse Cantem was bid up to \$405, and retained by the owner.

THE HORSE SHOW

His Honor Lieut.-Governor Paterson attended the horse show last night occupying the principal box. Society gathered together in the other boxes as on the opening night, the popularity of the show having been every pronounced in Victoria among every rank of life. The benches on the opposite side of the ring were again well filled, and much gratification was occasioned by the appearance of abundant entries in the events. There were many added entries, the programme in some classes providing for but a few, was supplemented by an added entry list distributed for the convenience of those present.

Andrew Laidlaw's Ambassador was shown again this year, winning as usual in his class, but having a very fine competitor in F. W. Leadbetter's Portland horse, Harry Lauder. Ambassador has carried all before him in every show he has been exhibited at in the West. Coming to Victoria two years ago, with the other Laidlaw horses, he won in single and double harness, and was distinctively the best horse in the ring on all occasions.

Mr. Laidlaw was also to the fore in two other classes, winning with Tallion and Tahoe in the 15.1 hands and over mares and geldings to Victoria, and having first ribbon in point to horse and his mate, another equally fine little animal. Mr. Laidlaw having won so many ribbons at previous shows, has not entered as fully this year leaving the field open to the other exhibitors, one of these being Mr. Leadbetter, of Portland, whose handsome four-hand won on Tuesday night.

Victoria owners were well to the fore last night, no less than eight of them securing the ribbons in the various competitions. The distribution of the ribbons to Victoria entries was very popular on both sides of the ring, the applause being prolonged as the Victoria owned horses were called to the front for their decorations. Horse breeding in Victoria, despite the automobile, is without doubt on the increase.

Ring Master Clements, who has officiated in the ring for the two previous shows in Victoria, as well as at this one, proves his worth on every occasion. He is an indefatigable worker, and has the entries lined up for exhibition in quick time. He has his staff well in hand throughout, and delays are absent. The proper conduct of the ring matters is tending to the success of the show this year very considerably, as it did on the former occasions when this official had charge. Last night Mr. Clements, to whom Premier McBride referred in happy terms on the opening night, allowed no delays in having the horses brought before the judges. The public, therefore, always had something of interest before it.

Of the Victoria successes, aside from those of Mr. Laidlaw, one that attract-

We will offer a rare opportunity to the investor and homeseeker alike on Monday. The "cream" of Esquimalt's superb seafront will be placed on the market at extremely reasonable prices and terms.

Esquimalt is the first easily-reached, good harbor north of San Francisco. Its future is bound up in that of Victoria. We believe in Victoria. So do you. Therefore you, doubtless being acquainted with the many important projects under way towards the Island's development, can picture as well as we the adjacent port's splendid destiny.

There our property is situated. It is in the centre of Esquimalt activity. E. & N. and C. & R. railways are near by. There are eighty park-like acres with half a mile of waterfront. The latter is irregular with cosy bays and inviting beaches. From almost all points a clear, unobstructed view is available of the Straits, set off by the Olympic Mountains. Besides there is protection from the prevailing winds.

Four miles out only, easily reached by street car and boat, automobile or train, there is no transportation problem.

The subdivision is artistic in design. Lots are large—averaging a quarter acre. Water will be laid on to every one by the Esquimalt Water Works Co. We recommend this, without hesitation, as an ideal homesite or a money-making investment. You are invited to see us for plans and particulars.

INTERESTING FEATURE OF THE FAIR SPORTS

Polo Game Between Kamloops and Kelowna Yesterday—
Another Match Saturday

An interesting feature of the exhibition attraction yesterday was a game of polo in the afternoon between teams from Kamloops and Kelowna. The latter side were without their captain, and were beaten after a hard game of four chukkers of ten minutes each by a score of six goals to four. Many old players from all parts of the world witnessed the game, including several old members of the Hurlingham club in the Old Country, and they judged the play to be of a high standard. There were many extremely fast and clever players who could take part in any contest, and in any company.

The two teams are very old rivals, and have fought out several strenuous games recently in the Kamloops tournament. They will meet again next Saturday afternoon in a game of six chukkers. Gold medals were presented yesterday to the winners.

Too much praise cannot be tendered to the excellent sportsmanship of the two teams who gave an exhibition of their skill yesterday to an appreciative company. These men have made the long journey from their homes, and have defrayed every cent of their own expenses, save for the transportation of the ponies, of which there are 40.

WEEKLY WEATHER REPORT.

Victoria Meteorological Office.
From 19th to 24th September, 1912.
Victoria—Total amount of bright sunshine, 48 hours and 36 minutes; no rain; highest temperature, 71 on 20th; lowest, 41 on 20th.

We Give It Free

To the man who wants to regain his youth, who wants to feel like he did when he was budding into manhood, we offer a book which will show him the road to happiness—a book of one hundred pages, which is brimful of the things he likes to read, which will give him courage and enlighten him as to the cause and cure of his troubles. It will point out the pitfalls and guide him safely to a future of strength and vitality. It is beautifully illustrated. It tells what other men have suffered and how they have cured themselves. It is free. We will send it, closely sealed, without marks, if you will mail us this coupon. If you are not the man you ought to be, send for it to-day.

Electro-Vigor Cures

Builds up broken-down men, restores youth and vigor and makes men look and feel strong. It will cure every case of Rheumatism, Nervous Debility, Weak Stomach, Kidney and Liver Troubles, Lame Back, Sciatica, and every evidence of weakness in men and women. It will not fail; it cannot fail, as it infuses in the weakened parts the force of life and strength.

Aug. 24, 1912.
I am now consider myself perfectly cured. Never a twinge of pain has returned, although I have worked in cold water up to my knees for months. For my age, 67 years, your appliance has proven a great invigorator, as I am able to work six days every week and feel fine afterward. I value health more than money and my investment in Electro-Vigor has proven invaluable. I cheerfully take the time, a year after my cure, to recommend your appliance.

Your sincerely,
F. BUTTOMER,
Kerrisdale, B. C.

ADVERTISE IN THE TIMES

Money is Wasted in Advertising

In some instances because the advertiser lacks the experience necessary to bring success. Copy writing is an important part of advertising, but it is only PART. The value of advertising sales knowledge is demonstrated before a line is written or a cent expended in actual advertising. Your advertising should not be an expense; it should be an investment. This organization can help you make it that. Let us give you the names of some of our clients and ask them to testify. We recently added a new, large office to our former equipment. We HAD to do it. Phone us and we'll call, or come and see us. No charge for advice and counsel.

**LIQUIDATION IN
NEW YORK MARKET**

Call Money Rises Sharply—
Recessions From
High Level

(By Courtesy F. W. Stevenson & Co.)
New York, Sept. 26.—For a time the
Guggenheim issues were quite active
to-day, but it appeared as though long
stock was being distributed in other
quarters under cover of their strength.
In the afternoon call money rose
sharply, which had the influence of
producing liquidation. Leaders feel friendly
to the constructive side of the market,
but recent advances have been quite
sharp and indicate that the better
policy to pursue of the time being, is
to accept at least part profits on long
stocks as while monetary conditions
have not improved, material expansion
of loans for stock market purposes,
would tend to cause such hardening of
rates as might precipitate a general
heavy selling movement. The banking
element is friendly, but averse to a
rampant bull market at the present
time.

**CORONATION GOLD
REMAINS UNCHANGED**

Business Quiet on Eve-of-Holi-
day on the Local Stock
Exchange

(By Courtesy F. W. Stevenson & Co.)
Victoria, Sept. 26.—Prevalence of the
holiday spirit restrained operations on
the local stock exchange to-day, coronation
gold remaining unchanged from
yesterday. Ten shares of Great West
Permanent Loan sold at 115 per share,
the market remaining entirely firm at
that bid price of 115 per share, but the lowest
offer was 114 1/2, the general desire being
to await the furtherance of the tunnel
scheme now pending.

	To-day.	Last
Minneapolis	419	253
Duluth	419	253
Winnipeg	222	47
Chicago	181	142

FINANCIAL NOTES.

Union Pacific earnings for August in-
creased \$65,000. Southern Pacific in-
creased \$43,000.
New York silver 61.
Canadian wheat fair to-day and Friday,
not much change in temperatures.
A Minneapolis dispatch says: The cash
market is strong. Mills have been keen
for good dry milling wheat. No. 1 North-
western 3 to 4 cents over September.
velvet chaff 1 1/2 to 2 over September. Flour
sales only fair.
Argentine shipments, estimated: Wheat,
90,000 bushels; corn, 3,500,000 bushels.
Weather continues favorable.
Minneapolis stocks of wheat have in-
creased 50,000 bushels in five days.
The New York banks have lost \$5,000,000
in sub-treasury since Friday.
A St. Louis dispatch says: Only 37 cars
wheat local this morning. When naviga-
tion closes St. Louis December wheat will
sell over Chicago May or even with it.
The Virginia Chemical Co. declared reg-
ular quarterly dividend of \$2 on preferred
stock, payable Oct. 15, to holders record
Sept. 30.
Relatively high call money rates are
looked for in New York until after the
October disbursements have been provided
for.

LONDON COPPER.

London, Sept. 26.—Copper, close: Spot,
£73 unchanged; sales, 500 tons. Futures,
£79 18s. 6d. off 1s. 3d.; sales, 50 tons.

**WEAKNESS FOLLOWS
STEADY OPENING**

Buying Checks Break in Chi-
cago Pit—Receipts Increase
in Southwest Market

(By Courtesy F. W. Stevenson & Co.)
Chicago, Sept. 26.—Following a fair-
ly steady opening, there developed to-
day a decided weak turn in wheat. On
the break the market was checked by
just such buying as appears every
time the price gets at the 90 cent level.
About midday there was heavy selling
of December and May by houses sup-
posed to be acting for prominent in-
terests. Advances from Winnipeg in-
dicated weakness in cash wheat, and a
sharp decrease in premiums on fancy
old wheat there. There was indica-
tion of increased receipts at south-
west markets. Heavy movement of
spring crop will no doubt continue.
While the element of danger re-
mains for the big corn crop there will
be an uncomfortable feeling among
shorts. December is at such a dis-
count that sellers will go a little slow
in that month, not knowing how read-
ily the country will sell the new crop.
The sustaining element seen in Sep-
tember contracts will soon disappear.

WINNIPEG GRAIN MARKET.

Winnipeg, Sept. 26.—The market was
fairly active and held very steady to-day,
opening 1 to 1 1/2 lower, but not losing any
ground. There is little demand for cash
wheat and quietness prevails in export
circles. There is a good demand for cash
oats and barley, the stocks of which are
low. Fine weather prevails throughout
the west and threshing is general.
American markets were generally a little
lower at the opening, but to a certain ex-
tent recovered from the extreme weakness
of yesterday. Receipts, 300 cars inspected,
300 in sight.
Wheat—Oct. 88 1/2; Nov. close 87 1/2;
Dec. 89 1/2; May 91 1/2.
Oats—Oct. 33 1/2; Nov. 32 1/2; Dec. 34 1/2;
May 35 1/2.

REAL ESTATE BOARD & LOANING WANTED SALE HELP FEMALE HELP SITUATION WANTED LOST & FOUND MISCELLANEOUS

PLANT YOUR SEED IN FERTILE SOIL

Reap the harvest of success. Present your message to successful people through the medium of a successful paper. A paper that circulates among the highest character of readers provides for you the highest character of inquiries to your want ads. Every day people are realizing more and more that our want columns bring returns—returns of right sort. It means economy of effort and highest efficiency in securing for yourself the thing you desire.

Do you want a servant, are you looking for a situation, have you anything to sell, or are you looking for a business opportunity? A very small investment in these columns may bring you what you want. Every advertisement does not produce results but the effect of one of them is unquestionably successful. The proof of that is in the fact that newspaper advertising is resorted to more and more by all intelligent business men. The price of these classified advertisements is so reasonable that every person can take advantage of them. As small a sum as 25c may "do the trick."

GIANTS WIN NATIONAL LEAGUE PENNANT

New York, Sept. 26.—The New York Giants won the National League baseball pennant for 1912 to-day by taking both ends of a double-header from Boston. Should Chicago win and New York lose every game to be played, the Cubs could not equal the Giants' percentage.

ROYAL WELCOME FOR GOVERNOR-GENERAL

FINISHING TOUCHES ON STREET DECORATIONS

Programme for Cornerstone Laying of Seaman's Institute

While the finishing touches have yet to be put to many decorations in connection with the royal visit, there is every confidence that the city will be in gala attire by the time the Princess Alice enters the harbor to-morrow evening.

The arches are all advancing to completion, the library arch being the first to assume its apparel of evergreens, and with the tasteful decorations of the Carnegie library and the Dominion hotel, this portion of Yates street will present a most striking appearance. The private business houses are beginning to decorate in bunting and illuminations, and there will not be many places where some color, either the combination of the national flag, or else the purple and gold of royalty is not displayed. The Dominion offices are showing shields of the provinces, but probably the German and Chinese arches, and the old bastion replica on the site of the Five Sisters' block, will be the most striking features of the decorative scheme. The illuminations of the Parliament buildings, and the Empress hotel will fit into the harmony of the nocturnal effects to be sought by the citizens.

At the presentation of the address to-morrow afternoon admission to the enclosure will be by ticket, and the mayor will read the address of welcome. In connection with the visit the King's Printer is preparing a souvenir with portraits of the royal visitors. The Women's Canadian Club will send the Duchess of Connaught a fine basket of roses on arrival. It was not possible for the Duchess to attend a luncheon, as all similar invitations have been declined throughout the Dominion.

Arrangements are completed for the laying of the foundation stone of the Provincial Library buildings on Saturday morning at 11 o'clock.

The premier will make a brief address from the specially carpeted platform, and the minister of public works will ask the Duke to lay the stone, and will then hand him the engraved trowel. On the completion of this brief ceremony His Royal Highness will inspect the Veterans and Campaigners, and then will re-enter the waiting automobile for the next engagement at the Seaman's Institute, where the cornerstone is to be laid at the corner of Superior and St. Lawrence streets.

After the presentation of the address from the chairman of the committee of management, A. T. Frampton, in the absence of the deputy president, Senator Macdonald, "Through Illness," the hymn, "O God, Our Help in Ages Past," will be sung. Revs. W. Leslie Clay and Dr. C. T. Scott will assist in the service, the Bishop of Columbia giving the dedicatory prayer. After His Royal Highness has laid the stone with an engraved trowel, presented by the architect, and has used a mallet handed to His Excellency by the chairman of the building committee, W. Hitchens Smith, Whiting's hymn, "Eternal Father, Strong to Save," will be sung. Bluejackets from the Rainbow and Shearwater will be in attendance at the function. The committee are fortunate in having the site paid for, and about \$6,000 in hand of the \$30,000 required for the building. On the ground floor of the building will be a reading room, smoking room and lecture hall. Upstairs there will be forty-three cubicles and bathrooms, and it is the desire to furnish them at the expense of philanthropic individuals and organizations whose name they will bear.

The arrangements for the children's welcome to the Duke at the Central school grounds on Tuesday morning include the following programme after the party arrives at 11 o'clock: Singing of one verse of National Anthem.

the Duchess of Connaught and to H. R. H. the Princess Patricia by little girls.

"Rule Britannia," by pupils.
Presentation of governor-general's medals by the Duke.
"O Canada," by pupils.
God Save the King.

ST. JOHN'S AMBULANCE ASSOCIATION.

Rev. E. G. Miller, vice-president of the Provincial St. John's Ambulance Association, and hon. secretary of Victoria centre, has submitted the final arrangements for the demonstration which is to take place at Beacon Hill park, near car terminus, on Saturday morning at 10 o'clock, and in the afternoon at Government House grounds at 4 o'clock before T. R. H. the Duke and Duchess of Connaught and Princess Patricia, the morning proceedings being open to the public:

1. Police, cup and silver medals, Victoria and Vancouver.

2. Miners, cup and silver medals, Nanaimo, Breacon, Ladysmith and Extension.

3. Civilian, cup and silver medals, Victoria, Vancouver and Nanaimo. Second Part—Government House Grounds. Before Their Royal Highnesses.

4 p. m. Admission by Ticket Only.

1. Winners of above cups, for Lieut. Governor's cup.

2. Ladies' home nursing, five teams from Victoria. Prizes, silver candlesticks, silver enamelled perfume bottles. Donors, Dr. Brydson Jack and Mr. C. G. Penneck.

3. Ladies' first aid, Victoria four teams; New Westminster, 1. Prizes, ambulance case, silver photo frame. Donors, Florence Nightingale chapter of Daughters of Empire; Mrs. Henry Croft.

4. V. C. competition, 1st prize, silver clock and calendar; 2nd, silver cigarette case. Donors: Senator Bostock and C. G. Penneck.

In addition to the above prizes a silver medal brooch will be awarded to the second best ladies' team in home nursing and to the second best ladies' team in first aid, these being the prize of Mr. George Burn, of Victoria. Arrangements have been completed for the military parade in connection with the arrival of the royal party on Friday evening. The naval guard of honor will be posted on Belleville street and the Fifth Regiment will be drawn up in front of and facing the Parliament buildings, together with the band, and the mounted escort, the B. C. Horse, will be ready to take their places behind the royal carriage. The route along Government street will be lined with members of the Fifth regiment, Cadets and Boy Scouts.

The inspection of the British Camp Followers and Veterans will take place at the laying of the foundation stone of the new Provincial library on Saturday, and a place has been assigned at the foot of the platform.

The Victoria Boy Scouts will parade as follows: Friday evening under Scoutmaster Hughes; Saturday morning at the Seaman's Institute under Scoutmaster Jarvis, and in the afternoon at the Agricultural show under Scoutmaster Selke for the royal visit to the fair.

SEVEN SITES OFFERED.

Locations for New School in Northern End of City.

The buildings and grounds committee of the school board will investigate the following offers for a two-acre site for the North Quadra street district school, which were read to the board last evening:

Knott Bros. & Brown: Two acres at the southwest corner of Quadra and Finlayson streets, \$22,000; two acres west of the above property, \$15,000.

William Dunford & Sons: Lots 10, 11, 12, 13, 14, 15, 16, 17, 18, fronting on High View at the corner of Finlayson and Mars streets, \$3,400.

E. S. Woodward: Lots 18, 19, 20, 21, Stevenson street, 284 x 280 feet, \$9,000. Grant & Lineham: Lot 4, corner of Quadra and Finlayson streets, 200 by 450 feet, \$22,000.

Moore & Johnston: Two acres above Topas avenue, on west side of Quadra street, \$25,000.

F. M. McGregor: Lot 5, section 4, corner of Quadra street and Finlayson street, \$18,000.

Canadian Investment and Securities Company: Lot 20, \$8,000; lot 21, \$5,000; south half of lot 22, \$16,000, corner of Graham and Summit streets.

ESQUIMALT WANTS TWO OFFICIALS

CLERK AND MOUNTED OFFICER TO BE NAMED

Municipality Starts Out on Right Lines—Funds Available This Week

Applications are invited for consideration at the next meeting of the Esquimalt council on Tuesday for the position of clerk and mounted policeman. Both positions are important, the necessity of a mounted officer being apparent when the large area of the municipality is concerned. That question has been one of the chief difficulties Constable Little has had to face at Saanich, where the area is still larger than Esquimalt. An officer to get round must be able to do it quickly, and as there is still a large area of the municipality where transportation is primitive, doubtless this is the best plan to adopt.

Very much depends on a good clerk, and it should be possible to secure one who will start the municipality out in a career of careful administration. The appointment of an engineer, either whole time or part, will also be one of the necessities of the municipal council. In the area of the municipality there is not much more land to be subdivided, hence one of the principal problems in the neighboring municipalities will be spared him.

However, the sewerage question is an acute one, and probably as soon as the council can get down to business they will take this matter up. It is useless to enact too rigid a public health law until the public have an opportunity to adjust themselves to the exigencies of a new condition.

The council should be in a position on Tuesday to have the government grant turned over to them, in order to carry through the work which is most urgently required by the municipality during the present year.

Neat frame structures like those at Royal Oak and Oak Bay avenue may suggest to the council the most desirable class of building to house the official quarters.

More fortunate than most municipalities in commencing with capable men at the head of affairs, there is no reason why the new municipality should not have a prosperous career, and exercise a beneficial influence on the development of the peninsula generally. The new municipality has many advantages, which the new council can be expected to utilize to the fullest extent.

APPARATUS RECEIVED.

Provincial Police Will Now Be Able to Register Finger Prints.

The provincial police department has received from Ottawa the apparatus required for registering the marks of human finger tips, and hereafter this method of identification of criminals will be part of the regular procedure here. The apparatus is extremely simple, consisting merely of a glass plate, a roller and paper. The prisoner places the finger and thumb of each hand on the plate, on which a special ink has been smeared. The moistened tips are then placed upon the paper and the record is made. Such a record, it is claimed, suffices to identify a man at any period of his life, as the skin never changes. Even if it is removed it will again grow identically the same pattern it had originally. All records made here will be photographed and copies sent to Ottawa so that the Dominion police will be able to have a complete collection of impressions of the finger tips of the criminal section of the travelling public.

A Hartfield, Sussex, man named Slater has died from lockjaw, resulting from running a rusty meat skewer into his hand.

Fit-Reform CLOTHES

Embody all that is graceful and elegant in Men's and Young Men's Clothes.

They are the clothes favored by the type of young man now forging to the front in modern business, in the professions and in society.

If you want to dress in the highest degree of good taste and fashion ask us to show them to you.
